PRESS RELEASE

Raghav Productivity and Capital Refractories tie-up to supply Silica Ramming Mass to Foundries

- One of its kind tie-up in refractory products industry.
- A testimony of Raghav's product quality and reliable supply.
- To provide a strong headway for Raghav in the high value-add Foundry and casting markets globally.

July 18, 2022: Raghav Productivity Enhancers Ltd. and United Kingdom based Capital Refractories Ltd. have entered in an arrangement to partner for sale of Silica Ramming Mass to Foundry and Casting industry world-wide.

Capital refractories will leverage its global distribution set-up to grow the business of Silica Ramming Mass with its Foundry and Casting customers. The product packaging shall be exclusively designed to have our Logo with the statement "Produced by Raghav Productivity Enhancers Ltd." along with the artwork of Capital Refractories leading to a co-branding arrangement.

Commenting on the development, Managing Director of Raghav Productivity Enhancers Ltd., Mr. Rajesh Kabra said "The Foundries market is one of the highest value-add market for Silica Ramming Mass manufacturers and will provide the next growth leg to our company. Our R&D efforts of last 5 years has led the onboarding of an ace partner like Capital Refractories and we look forward to taking a significant leap forward in the foundry and casting market with the help of this tie-up."

About Raghav Productivity Enhancers Limited

Raghav Productivity Enhancers Ltd. is the world's largest manufacturer of silica ramming mass. It exports to over 30 countries in Asia, Africa and Middle East countries. It is one of the few silica ramming mass players to break geographical barriers due to its superior product quality and customisation processes achieved through extensive R&D over last 10 years.

About Capital Refractories Limited

Capital Refractories is one of the world's largest refractory companies, headquartered in UK, it has a refractory distribution network spanning over 40 countries across all 6 continents in 67 different locations. It has manufacturing plants in 8 countries globally for various monolithic & castable refractories used in Steel plants, Foundry and Casting units.
