Dear Sir/Madam,

Sub: Solar Thermal Sector Advancements and Key Updates

Taylormade Renewables Limited is pleased to share an update with our valued shareholders on our continued progress and expanding footprint within the **Solar Thermal Sector**. Our unwavering commitment to advancing sustainability through innovative energy solutions is underscored by the following key developments:

1. Expansion of Steam Cooking Systems in Jails and Institutional Kitchens

We are pleased to announce the successful acquisition of a significant order for the installation of steam cooking systems at **Satara Central Jail, Maharashtra**. This project demonstrates our ability to deliver energy-efficient solutions tailored to the specific requirements of large institutional kitchens. Furthermore, the scalability of this technology positions us to replicate these solutions across different jails and similar institutional kitchens nationwide, reinforcing our commitment to sustainable energy solutions in the public sector.

2. Successful Commissioning at IOCL's Baroda Refinery and Ongoing Expansion with Boiler Pre-Feed Application at Lube Oil Division, IOCL Faridabad

- a) Taylormade Renewables has successfully deployed a steam cooking plant at IOCL's Baroda Refinery, which has been operating efficiently for the past six months. Following the success of this implementation, IOCL is exploring the potential for expanding the application of this innovative technology across its refinery network.
- b) Additionally, we are in the final stages of commissioning our advanced boiler pre-feed application at the Lube Oil Division of IOCL Faridabad, a solution designed to enhance operational efficiency and drive significant energy savings. These initiatives underscore our ability to deliver cutting-edge, sustainable energy solutions, further strengthening our strategic partnership with IOCL and positioning us for continued growth within the industrial sector.

3. Commitment to Achieving Net-Zero Carbon Emissions

In alignment with India's ambitious target of achieving net-zero carbon emissions by 2070, Taylormade Renewables is steadfast in its commitment to sustainability. Through the deployment of advanced renewable energy technologies, we actively contribute to this long-term national objective. Our solutions are specifically designed to help clients reduce their environmental footprint while supporting India's broader vision for a low-carbon, sustainable future.

Taylormade Renewables continues to play a leading role in the transition to clean energy. With these recent achievements and our expanding market presence, we are well-positioned to be a key player in shaping the future of sustainable energy solutions. We look forward to the opportunities ahead and remain dedicated to driving the transformation towards a cleaner, more sustainable energy future.

Thanking You,

Yours faithfully,

For Taylormade Renewables Limited
