Management Commentary:

Mr. Prakash Parikh, Managing Director of Sigma Solve Ltd, stated:

"Our Q4 performance reflects the accelerating demand for digital solutions across markets and our ability to deliver scalable, secure, and intelligent IT services. While full-year growth was healthy, we are particularly proud of our fourth-quarter momentum, which sets a strong base for FY26."

"With a diversified technology stack—from enterprise apps and eCommerce to cloud, DevOps, and blockchain—we are positioned to solve complex business problems and drive innovation for our clients. We continue to invest in talent, R&D, and market expansion to deliver long-term value."

Business Outlook – FY26 Guidance:

Sigma Solve Ltd expects a **healthy revenue growth** for the financial year **ending March 31, 2026 (FY26)**, supported by:

- Continued expansion in North America, Europe, and Middle East regions
- Growing demand for enterprise cloud migration and DevOps automation
- New investments in AI-enabled analytics, cybersecurity, and blockchain solutions
- Scaling up strategic partnerships with Snowflake and digital commerce capabilities with Shopify.
