Details as required in accordance with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024, as amended:

Sr. No.	Particulars	Details
a)	Name of the product:	ELGi Demand=Match
b)	Date of launch:	September 19, 2025
c)	Category of the product	The Demand=Match system is a breakthrough innovation that transforms how fixed-speed compressors operate under fluctuating demand. This intelligent technology automatically adjusts compressor delivery to real-time plant requirements by smartly recirculating airflow inside the compressor, ensuring delivery always equals demand. The result it produces is Variable Frequency Drive like energy savings with the simplicity and robustness of fixed-speed machines. It works by smartly recirculating airflow inside the compressor, ensuring delivery always equals demand. This eliminates unnecessary cycling of the machine and maintains stable pressure even under fluctuating demand. Key benefits for customers are energy savings, improved reliability, cost efficiency, sustainability and extended warranty ( on select compressor models).
d)	Whether caters to domestic/ international market:	It caters to both domestic and international markets.
e)	Name of the countries in which the product is launched (in case of international):	It was launched today in India and will be launched progressively across global markets. The ELGi Demand=Match is available now in India as factory-fit on ELGi's EG and EQ series compressors.
