**Sub:** Intimation under Regulation 30 read with Schedule III of Securities and Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations") – Receipt of Work Order from Dredging Corporation of India Limited ("DCIL")

Pursuant to Regulation 30 read with Schedule III of the Listing Regulations, we are pleased to inform you that Knowledge Marine & Engineering Works Limited ("KMEW") has been received a Work Order from Dredging Corporation of India Limited (DCIL) for Rock Dredging (removal of pinnacles/ high spots) at Coastal Berth at JNPA and discharge of dredged material at DS-3 Dumping Ground. The said work order is valued at ₹ 58.39 Crores (Rupees Fifty-Eight Crores and Thirty-Nine Lakhs) including taxes and is to be completed within 90 days from the commencement of work.

Please find attached a copy of the Press Release with respect to same as "**Annexure – A**".

The details as required under the Listing Regulations read with SEBI Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 are given in "**Annexure B**" to this letter.

Thanking You,

Yours Faithfully,

For **Knowledge Marine & Engineering Works Limited**

**Avdhoot Kotwal**  
**Company Secretary & Compliance Officer**

## Press Release

### KMEW to execute Complex Rock Dredging Work at Jawaharlal Nehru Port for DCIL

**Mumbai, India, December 19, 2025:** - Knowledge Marine & Engineering Works Limited ("KMEW") (BSE: 543273) (NSE: KMEW) is proud to announce that we have been awarded a Work order from Dredging Corporation of India Limited (DCIL) for Rock Dredging (removal of pinnacles/ high spots) at Coastal Berth at JNPA and discharge of dredged material at DS-3 Dumping Ground. The said work order is valued at ₹ 58.39 Crores (Rupees Fifty-Eight Crores and Thirty-Nine Lakhs) including taxes and is to be completed within 90 days from the commencement of work.

The scope of the work order encompasses the removal of rock pinnacles and high spots at the Coastal Berth of Jawaharlal Nehru Port, followed by the disposal of the dredged material at the designated dumping ground, DS-3. **This technically critical rock dredging assignment necessitates extensive pre-treatment and the execution of underwater controlled blasting, subsequent to high-precision drilling operations in rock formations exhibiting compressive strengths in excess of 170 megapascals.** The operations will be carried out through an integrated deployment of advanced marine assets, including a dedicated drilling and blasting barge, trailing suction hopper dredgers (TSHDs), a backhoe dredger, self-propelled hopper barges, and secured explosives storage facilities. KMEW has 60 days to mobilise the equipment and get all the requisite permissions before commencing the works.

Through meticulous planning and seamless mobilization, **KMEW will execute the dredging of approximately 10,500 cubic meters of exceptionally hard rock material from water depths of up to 16 meters (at high-tide conditions) within a tightly compressed execution timeframe of 90 days.** This undertaking further underscores the Company's proven capability to deliver complex subsea engineering projects under stringent schedule constraints.

The Company possesses a demonstrated track record of successfully executing and completing rock dredging works at Mangrol Fishing Harbour, reinforcing its technical credibility and operational competence in similarly challenging environments.

This work order stands as a testament to the confidence placed in KMEW's capabilities. The Company is comprehensively equipped to deliver the project within the stipulated timelines and will deploy vessels from its existing fleet, in addition to acquiring an additional vessel specifically for the execution of this assignment.

This contract award further consolidates KMEW's standing as a preferred partner in India's dredging and marine engineering sector and exemplifies its continued ability to deliver mission-critical infrastructure solutions at one of the nation's busiest and most strategically significant ports.

**Commenting on the Work Order, Mr. Sujay Kewalramani, CEO of Knowledge Marine & Engineering Works Ltd said that,**

**"We are positioning ourselves as a comprehensive solution provider capable of executing the most technically demanding works within the port sector. This assignment has been attempted by several dredging contractors; however, it has largely remained unsuccessful due to its extraordinary complexity. The rock formation targeted for dredging is estimated to exhibit compressive strengths exceeding 170 megapascals, rendering it the most formidable geological stratum ever undertaken by the KMEW team. To address these**

challenges, we will engage the expertise of India's most eminent rock drilling and blasting specialists.

The scope of work necessitates the development of an exceptionally intricate underwater controlled blasting methodology, given its immediate proximity to critical port infrastructure. Upon successful execution, KMEW will have established unparalleled expertise in rock dredging across both shallow and deep-water environments, employing methodologies with or without pre-treatment, utilizing entirely in-house equipment. Our established credentials—underscored by the successful dredging of over 137,000 cubic meters of rock at Mangrol Fishing Harbour—instill strong confidence in our ability to deliver this project with the highest levels of precision, safety, and operational efficiency.

At KMEW, we remain steadfast in our commitment to operational excellence, disciplined project execution, and continuous innovation in marine engineering. This award further consolidates our standing as a trusted partner within India's dredging industry and reinforces our contribution to the advancement of the nation's maritime infrastructure."

## **About Knowledge Marine & Engineering Works Ltd:**

Incorporated in 2015, KMEW is in the business of owning and operating Marine Crafts, dredging, repair and maintenance/refits of Marine Crafts and Marine Infrastructure. The Company provides multiple solutions of marine engineering including dredging at various ports, carrying out repair and refit services of naval and merchant ships, conducting hydrographic and magnetometer surveys and technical solutions for maintenance and operations of vessels. Over the years, it has become an established player in the small marine craft business segment and dredging services in India and have evolved from a small ship-repair unit to a ship-owning Company. The company has a multi-million order book from esteemed clients such as Ministry of External Affairs, Kolkata Port Trust, Visakhapatnam Port Trust, Deendayal Port Trust, Paradip Port Trust, Dredging Corporation of India and various other ports.

## **Safe Harbour**

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the industry, global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest, and other costs. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.

## Annexure – B

**Disclosure of details as required under the Listing Regulations read with SEBI Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024**

Sr. No.	Particulars	Description
1.	Name of the entity awarding the order(s)/contract(s)	Dredging Corporation of India Limited
2.	Significant terms and conditions of order(s)/contract(s) awarded in brief	Rock Dredging (removal of pinnacles/ high spots) at Coastal Berth at JNPA and discharge of dredged material at DS-3 Dumping Ground
3.	Whether order(s)/contract(s) have been awarded by domestic / international entity	Domestic Entity
4.	Nature of order(s)/contract(s)	The scope of the work order encompasses the removal of rock pinnacles and high spots at the Coastal Berth of Jawaharlal Nehru Port, followed by the disposal of the dredged material at the designated dumping ground, DS-3
5.	Whether Domestic or International	Domestic
6.	Time Period by which the order(s)/contract(s) is to be executed	The said work order is to be completed within 90 days from the commencement of work
7.	Broad consideration or size of the order(s)/contract(s)	The said work order is valued at ₹ 58.39 Crores (Rupees Fifty-Eight Crores and Thirty-Nine Lakhs) including taxes
8.	Whether the promoter/ promoter group/ group companies have any interest in the entity that awarded the order(s)/contract(s)? If yes, nature of interest and details thereof	Promoter/ Promoter group/ group companies have no interest in the entity that awarded the contract
9.	Whether the order(s)/contract(s) would fall within related party transactions? If yes, whether the same is done at “arm’s length’	The contract would not fall within related party transaction.
