IDBI Bank had been conferred with the ET BFSI Exceller 2025 Award for Excellence in Security and Fraud Risk Management.

# N. Korea-linked hackers exploit Naver, Google ads to spread malware

Seoul, Jan 19 (IANS) A North Korea-linked hacking group has recently conducted a sophisticated malware distribution campaign by abusing online advertising systems operated by Naver and Google, a report showed on Monday.

According to the online threat assessment report released by Genians Security Center, Konni, the hacking group tied to Kim-suky and other Pyongyang-sponsored hacking groups, has launched an advanced persistent threat (APT) campaign by exploiting the online portals' ad systems.

The group exploited a process referred to as click tracking used in online advertising, which routes users through intermediary web links before directing them to advertisers' web-

sites, reports Yonhap news agency.

Through fake intermediary web links, the group was found to have redirected users to external servers hosting malicious files.

According to the report, Konni initially focused on abusing Naver's advertising infrastructure but recently expanded its attacks through Google's ad system.

Analysts at the centre said they identified the phrase "Poseidon-Attack" within the malware code, suggesting the hacking group has systematically managed the campaign under the Poseidon labelling. Security experts warned that the campaign highlights the growing sophistication of state-backed North Korean cyberattacks and cautioned

users to not open suspicious ad-linked email attachments, particularly those containing shortcut link files.

Meanwhile, North Korea likely stole over \$2 billion in cryptocurrency last year, a U.S. official said, amid growing concerns that its revenue from virtual asset heists continues to bankroll its nuclear and ballistic missile programmes.

Jonathan Fritz, principal deputy assistant secretary at the State Department's Bureau of East Asian and Pacific Affairs, delivered a presentation during a U.N. meeting on a Multilateral Sanctions Monitoring Team (MSMT) report detailing the North's sanctions violation and evasion through cyber and information technology (IT) worker activities.

# Business Brief

## Gold, silver prices surge to fresh highs amid US threats of tariffs

Mumbai, Jan 19 (IANS) Gold and silver prices climbed to fresh record highs on Monday as investors sought safe-haven assets after US President Donald Trump threatened new tariffs on several European countries over a dispute tied to Greenland. MCX gold February futures rose 1.68 per cent to Rs 1,44,905 per 10 grams, while MCX silver March futures rose 4.39 per cent to Rs 3,00,400 per kg. Spot gold rose over 1.6 per cent to \$4,700 an ounce, before consolidating near \$4,670, testing lifetime highs after a sharp run-up.

The rally accelerated after Trump threatened escalating duties on imports from eight European nations until the United States is allowed to buy Greenland. The comments prompted European Union envoys to prepare coordinated efforts to dissuade Washington and to ready retaliatory measures if tariffs proceed.

Added concerns around political stability, questions over US monetary policy independence, and ongoing geopolitical risks have further supported gold, said Rahul Kalantri, VP Commodities, Mehta Equities Ltd. Market watchers said that expectations of additional US rate cuts continue to underpin bullion prices after a strong performance in 2025. Gold and silver prices are expected to remain volatile this week amid volatility in the dollar index, ahead of the US Supreme Court decision on tariffs, they added. "Gold has support at Rs 1,41,650-1,40,310 zone while resistance at Rs 1,44,150-1,45,670. Silver has support at Rs 2,85,810 to 2,82,170 zone while resistance at Rs 2,94,810 to 2,96,470 zone," analysts said.

## GCCs emerge as primary growth driver for India's office market

New Delhi, Jan 19 (IANS) Global Capability Centres (GCCs) emerged as the primary growth driver of India's office market in 2025, accounting for 45 per cent of the total pan-India absorption, up from 41 per cent in 2024, a report showed on Monday. In absolute terms, GCC-led absorption reached 34.9 million square feet, registering a 20 per cent year-on-year increase, said the Vestian report.

The report further stated that strong demand from GCCs, supported by a favourable policy environment and restrictions on the H-1B visa, propelled pan-India office absorption to an all-time high of 78.2 mn sq ft in 2025. Despite ongoing global macroeconomic uncertainties and geopolitical headwinds, total absorption recorded an 11 per cent year-on-year growth, underscoring the resilience of India's office market, the report mentioned. Office absorption continued to outpace new supply by a wide margin in 2025, leading to a notable improvement in occupancy levels. The pan-India vacancy rate declined by 310 basis points, from 13.9 per cent in 2024 to 10.8 per cent in 2025. IT-ITeS sector continued to dominate leasing activity, accounting for 38 per cent of the total absorption, followed by BFSI and flex spaces, each with 14 per cent share. This trend highlights increasing sectoral diversification in office demand, said the report.

## High-end housing becomes India's largest residential segment for 1st time

Mumbai, Jan 19 (IANS) India's residential market saw a structural shift in CY2025 as the high-end housing segment category became the market's leading segment for the first-time ever, accounting for about 26.8 per cent of transactions, with around 27 per cent share, a report said on Monday. The report from CBRE South Asia Pvt said the segment's share has more than doubled since 2022 from 11.8 per cent to 26.8 per cent, driven by rising household incomes, lifestyle upgrades and sustained NRI interest.

Luxury segment recorded 70 per cent year-on-year growth in 2025 with the fourth quarter alone witnessing roughly 62 per cent annualised increase, the report said. The Q4 2025 saw roughly 62,500 units sold and about 60,100 units launched, with Mumbai, Pune and Delhi-NCR supplying more than 60 per cent of new launches. Mumbai, Pune, and Delhi-NCR also dominated the supply side, contributing more than 60% of all new launches during the quarter. "The emergence of the high-end segment reflects a maturing buyer base that is prioritising lifestyle, longevity, and asset quality. The sector will likely be anchored by calibrated supply infusion, ensuring that new inventory is aligned with delivery realities," said Anshuman Magazine, Chairman & CEO, India, South-East Asia, Middle East & Africa at CBRE.

## India's property sentiment ticks up, market enters 2026 on steadier footing: Report

Mumbai, Jan 19 (IANS) The stakeholder sentiment in India's property market stabilised with a positive bias at the end of 2025, as market enters 2026 on steadier footing, a report said on Monday. The report from Knight Frank and NAREDCO showed that the 'Current Sentiment Score' edged up to 60 in Q4 2025, up from 59 in Q3, while 'the Future Sentiment Score' was 61, unchanged from the prior quarter, both remaining in the "optimistic zone." "The readings underscore a market supported by improving macroeconomic visibility, easing inflation, and steady funding conditions," the report highlighted. Around 52 per cent respondents signalled improving economic momentum with 50 per cent reporting improved funding availability, the report said. Despite remaining below 2023-24 peaks, resilient office demand, improving liquidity, and stable domestic economic conditions support positive expectations amid global uncertainties. The real GDP growth of 8.2 per cent in Q2 FY2025-26 versus 5.6 per cent a year earlier was cited as a confidence driver.
