Important note:

In the current context of steep escalation in gold and silver prices, the primary objective of derisking the business model followed by the company is strictly adhered in continuation of almost full hedging on gold and one third in silver inventories. In spite of tighter liquidity management the Board felt that it is prudent to protect the net worth of the company from any adverse future impact on reversals on prices with a view to sustain the operating profits of the company for a long haul.

How ever it is comforting to note that the actual liquidity in the system as on 31st December 2025 inclusive of eligible drawing power from banks is at Rs. 311 Crs that is more than sufficient to carry on the operations as per plans.

6. OTHER MATTERS

- The steep vertical increase in gold & silver prices, if persists, it may have an adverse effect on volume offtake even though on realization front it would have a positive impact in the fourth quarter FY 26.
- Due to uncertain environment prevailing in gold and silver price movements, the Board took cognizant of this ever-increasing price in precious metals and temporarily deferred the opening of planned additional metro-based retail outlets, by a quarter. However, the civil and interior work in identified outlets are going on as per plan. Once, the price stability is attained in precious metals, second phase of expansion will continue. The Board is of the opinion that this temporary postponement will not have any impact on the performance of the company going forward in the fourth quarter of FY 25-26.
- A Comforting development has happened in the pending income tax assessment for 22-23 is that of “Review Committee” constituted by the CBDT has categorically concluded that the assessment made by the officer was a “High Pitched one” and requires consideration and advised to keep collection of demand in abeyance till such time finality is reached. However, the matter is pending in first appeal for disposal, and the company filed the “Review Committee stand taken order” with the Appellate Commissioner for his consideration and order. The demand involved of Rs. 70.18 Crs.
- As regards pending Income tax Assessments disposal for 2017-18 & 2018-19, the Appellate Tribunal heard the case fully and the final order is expected anytime now. The demand involved of Rs.14.49 Crs for both the years in appeal.
- We continue to see a shift in the urban Vs Rural contribution to overall revenue from 28.78% to 40.90% in the nine months ended 31/12/25 Vs 31/12/2024. Its augers well for the company, as the non-gold items contribution may increase with this shift in business model.
- Due to surging demand in silver as an alternative jewellery, the company started a “Digi Silver Scheme” with effect from January 2026 with a view to satisfy the demand from customers as that of “Digi Gold” already in operations.

- Exceptional item in the current quarter pertains to one-time impact of New Labour Codes effective 21st November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising four Labour Codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19, changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the statement of profit and Loss. The New Labour Codes has resulted in estimated one time increase in provision for employee benefits of the Company amounting to Rs.238 lakhs and the same has been recognized as an exceptional item in the current reporting period. The Government of India is in the process of notifying related rules to the New Labour Codes and impact of these will be evaluated and accounted for in accordance with applicable accounting standards in the period in which they are notified.
