(TO THE DIRECTORS' REPORT)

Sr. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
2	Innovation	Opportunity	Innovation allows to create new pharmaceutical products, gain a competitive edge, enter new markets, protect intellectual property, foster collaborations and enhance brand value. Embracing innovation provides the opportunity to achieve growth, market leadership and increased brand value	Fostering a culture of creativity and embracing new technologies. Encouraging idea generation, collaborating with experts and investing in R&D can drive product development, market expansion and sustainable growth	Positive
3	Sustainable supply chain	Risk	Sustainability in the supply chain helps to maintain operation licences, avoid penalties, ensure safety and efficacy, improve traceability and ensure authenticity and integrity. Adhering to sustainable packaging, transportation and storage methods helps prevent contamination, degradation or other quality issues that may impact the effectiveness of pharmaceutical products	The Company has developed a strong evaluation system to analyse the implications of unforeseen disruptions on the supply chain. Create a comprehensive contingency plan to mitigate potential significant impacts on the business and ensure continued operations	Negative
4	Regulatory compliance	Risk	Failure to adhere to regulations and standards can lead to severe consequences, including legal action, fines, penalties and potential criminal charges. Regulatory bodies like the FDA or EMA can enforce substantial financial penalties and suspend or revoke licences. Non-compliance with regulatory requirements may also result in product recalls or market withdrawals, limiting market access and opportunities to participate in Government tenders. Ensuring compliance is crucial to maintaining reputation and avoiding financial losses	The Company is continuously emphasising establishing its presence in larger markets and also enhancing regulatory capabilities in critical markets through active engagement with regulatory agencies, thereby reducing risks from external factors	Negative

5	Environmental performance and climate change	Risk	<p>Pharmaceutical manufacturing processes, energy consumption and transportation contribute to greenhouse gas emissions. Ineffective management of carbon emissions can lead to non-compliance, increased costs and reputational risks. Failure to comply with environmental regulations may result in penalties, fines, litigation and reputational damage</p> <p>Climate change impacts, such as extreme weather events and shifting disease patterns, can disrupt supply chains, infrastructure and operations. It may also result in tighter regulations and climate policy actions</p> <p>Developing resilience strategies is vital to ensuring business continuity and product availability. Failing to address environmental concerns can damage the Company's reputation and erode stakeholder trust, impacting market share, customer loyalty and business relationships</p>	Initiating proactive measures to address physical and transitional risks associated with climate change, such as decarbonising operations, implementing GHG emission reduction strategies and conducting climate risk assessments to safeguard assets from climate impacts	Negative
6	Investment in R&D	Opportunity	R&D investments lead to the creation of valuable intellectual property, providing market exclusivity and revenue streams. Successful R&D efforts enable regulatory approvals, market entry and expansion into new therapeutic areas, collaborations and partnerships with research organisations that enhance knowledge sharing and accelerate innovation	Allocating resources and fostering innovation. By focussing on R&D, the Company can develop cutting-edge products and solutions, enhance its competitiveness and capitalise on emerging market demands	Positive
