PRESS RELEASE

Infosys Foundation Announces the Winners of the Aarohan Social Innovation Awards 2025

Eight innovators awarded a total of INR 2 crore for transformative innovations in education, healthcare, and environmental sustainability

Bengaluru, India – November 21, 2025: [Infosys Foundation](#), the philanthropic and CSR arm of [Infosys](#), today announced the winners of the fourth edition of the Aarohan Social Innovation Awards. Launched in 2018, these awards recognize and reward individuals and teams developing breakthrough solutions for social good that improve lives and uplift communities across India.

This year, the Awards honored exceptional innovations in Education, Healthcare, and Environmental Sustainability – three focus areas that align closely with Infosys Foundation's mission to drive social impact through technology, creativity, and compassion. Selected from over 2,000 entries, the winners were chosen by an eminent jury comprising:

- **Mr. Abhijit Ray**, Co-founder, Unitus Capital and UC Inclusive Credit
- **Ms. Alina Alam**, Founder, MITTI Café
- **Ms. Aparna Uppaluri**, Founder and Principal Advisor, Antara Advisory
- **Mr. Sumit Virmani**, Trustee, Infosys Foundation
- **Mr. Sunil Kumar Dhareshwar**, Trustee, Infosys Foundation

The winners of the Aarohan Social Innovation Awards 2025, each receiving INR 50 lakh for their impactful innovations, are:

- **Education** – Rajesh A Rao, Ravindra S Rao, and Deepa L B Rajeev from Bengaluru, who developed 'Connecting the Dots', an interactive learning program designed to teach STEM and spoken English to government school students from Grades 6 to 10 through daily live classes, lab kits, scholarships, and teacher training for effective learning.
- **Healthcare** – Chitranjan Singh and Robin Singh from New Delhi, who developed 'CLUIX C012', a portable AI- and IoT-enabled water-quality analyzer that generates real-time, GPS-tagged reports. It tests 14 key parameters to identify waterborne diseases within 30 minutes, making reliable water testing affordable, accessible, and sustainable across both urban and rural communities.
- **Environmental Sustainability** – Rahul Suresh Bakare and Vinit Moreshwar Phadnis from Pune, who developed 'Borecharger', the world's first robotic artificial borewell-recharge technique that can inject 4 to 80 lakh liters of rainwater into existing borewells annually – improving irrigation, farm production and farmer income, improving drinking water quality and quantity – making habitations more sustainable.

Salil Parekh, Chairman, Infosys Foundation, said, “Innovation with purpose has the power to transform lives and build a sustainable future. The Aarohan Social Innovation Awards stand as a testament to this belief, recognizing individuals who transform challenges into opportunities with ingenuity, empathy, and impact. By championing groundbreaking work across education, healthcare, and environmental sustainability, we at Infosys Foundation aim to strengthen the impact of such innovations and inspire a generation of changemakers committed to building an equitable and resilient future.”

In addition to the category winners, the jury recognized five social innovations and awarded their creators prize money of INR 10 lakh each. The Jury’s Special Award-winning innovations are:

- **Sukoon** – A smart jacket based on a Digital Hybrid-IDEA mechanism that cools users in extreme heat-stress environments to improve health and optimize productivity, developed by Phalgun Mukesh Vyas from Pune.
- **Comprehensive Wildlife Management Platform** – A web-based platform that records and manages data across wildlife rescue, treatment, rehabilitation, and release. It uses a One Health framework to link animal, human, and environmental health, supporting governance, surveillance, and threat assessment. Developed by Neha Panchamiya and Nachiket Utpat from Pune.
- **Project Bindu** – An initiative that creates remote, tech-enabled work ecosystems for persons with disabilities (PwDs), who in turn provide elderly-care services, backend support, data handling, and coordination. This enables PwDs to achieve economic independence and inclusion. Developed by Sowmya S and Pallavi Kulkarni from Pune.
- **CERVICHECK** – India’s first CDSCO-approved at-home self-sampling kit for HPV (Human Papillomavirus) screening, developed by Anirban Palit, Dr. Sayantani Pramanik, and Palna Patel, from Vadodara.
- **Hexis & Iris** – India’s only integrated learning ecosystem for visually impaired students combining a unique refreshable Braille display, a tactile diagram explorer, and a teacher-content platform to enable advanced reading and STEM learning for K–12 special schools and inclusive classrooms. Developed by Nagarajan Rajagopal, Vidhya Y, and Supriya Dey from Bengaluru.

Sumit Virmani, Trustee, Infosys Foundation, said, “At the heart of the Aarohan Social Innovation Awards lies the belief that ordinary people can do extraordinary things. The dedication and imagination of this year’s winners speak of what is possible when innovation is rooted in compassion. We are inspired by their resolve to create sustainable, community-first solutions, and hope their efforts continue to spark positive change across the country.”

Safe Harbor

Certain statements in this release concerning our future growth prospects, or our future financial or operating performance, are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results or outcomes to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence ("AI"), generative AI, the complex and evolving regulatory landscape including immigration regulation changes, our ESG vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity, capital resources, our corporate actions including acquisitions, and cybersecurity matters. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2025. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
