Independent Auditor's Review Report on the Quarterly and Year to date Unaudited Standalone Financial Results of EKI Energy Services Limited (the "Company") pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To The Board of Directors
EKI Energy Services Limited

1. We have reviewed the accompanying statement of Unaudited Standalone Financial Results of **EKI Energy Services Limited** (hereinafter referred to as the "Company") for the quarter and nine months ended December 31, 2025 attached herewith (hereinafter referred to as the "Statement"), being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (hereinafter referred to as the "LODR Regulations").
2. This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, "Interim Financial Reporting" (hereinafter referred to as the "Ind AS 34") prescribed under Section 133 of the Companies Act, 2013, as amended (hereinafter referred to as "the Act") read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the LODR Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statements are free from material misstatement. A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted

in accordance with Standards on Auditing specified under Section 143(10) of the Act, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

4. Based on our review conducted as stated in Paragraph 3 above and read with notes to the financial results, nothing has come to our attention that causes us to believe that, the accompanying statement prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under section 133 of the Act, as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the LODR Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.
5. As presented in Note No. 5 of the Statement which describes the material accounting policies applied in the valuation of inventory including cook stoves and carbon credits. The valuation of inventory is a critical accounting estimate that involves significant judgment by management. Further, the valuation of carbon credits involves complex and specialized factors, including verification of emission reductions, market pricing, regulatory compliance, vintage, technology, the timing of recognized revenues and other aspects. Our review procedures related to inventory valuation included assessment of management's estimates and judgments, which we consider significant for users of the financial statements.

6. Emphasis of Matter

- a) With reference to Note No. 6 given in the statement, the Board of Directors of the company at its meeting held on 10th February, 2025 has approved the scheme of arrangement in the nature of demerger (the "Scheme") entered between EKI Energy Services Limited ("Demerged Company"/ "Company") and EKI One Community Projects Limited ("Transferee company/resulting company") with effect from 1st January, 2025 or any other date as may be fixed by the Regulatory Authority. Since approval of the scheme by the Regulatory Authority is awaited, therefore, these Standalone Financial Results have been prepared without considering the effect of the scheme.

b) The previous auditor had filed a report under Rule 13 of the Companies (Audit & Auditors) Rules, 2014 during the course of the audit of the financial statements for the year ended 31st March, 2023. As informed by the company, the matter was examined by independent legal and financial experts and, based on their report, the company concluded that there were no matters attracting the said Rules. The matter is sub-judice and under consideration with the MCA.

Our opinion on the statement is not modified in the respect of the matters described in the paragraphs 6 a) & 6 b) above.

Notes to Standalone Financial Results:

- 1 The Financial Results include the results for the quarter and nine-months ended on 31st December 2025 and comparable results of previous quarter and quarter on quarter.
- 2 Previous period/year figures have been reclassified / regrouped wherever necessary to confirm to current period classification.
- 3 Reporting in respect of reportable segments as per Ind AS - 108 Operating Segments is made separately.
- 4 EPES for quarters and year to date period are not annualised.
- 5 The valuation of inventory is a critical accounting estimate that involves significant judgment by management. The valuation of carbon credits involves factors, including verification of emission reductions, market pricing, regulatory compliance and the timing of recognized revenues.

The accounting policy of lower of Cost or Market Value, has been adopted for valuing inventory. However, there is no specific regulatory data / market data to derive the market value of inventory (carbon credits). The application of this method requires the use of certain assumptions and estimates, including the determination of the cost of goods sold and the carrying value of inventory on the balance sheet.

- 6 The board at its meeting held on 10th February 2025, has subject to the necessary approvals, considered and approved demerger of Generation Business Segment of EKI Energy Services Limited under a scheme of arrangement amongst EKI Energy Services Limited and EKI One Community Projects Limited and their respective shareholders and creditors under section 230-232 and other applicable provisions of the Companies Act, 2013.

Further by an order dated 11th September, 2025 in Company Application No. CA(CAA)/6(MP)2025, the Hon'ble National Company Law Tribunal, Indore Bench, had directed that a meeting of the equity shareholders and unsecured creditors to consider and, if thought fit, approve the Scheme. The Company has received 'no adverse observations' from BSE Limited, including approval from the shareholders and creditors of the Company. The Proposed Transaction is, inter alia, subject to receipt of requisite approvals from the statutory and regulatory authorities and Hon'ble National Company Law Tribunal. Accordingly, these financials have been prepared without giving effect of the proposed demerger.

Notes to Consolidated Financial Results:

- 1 The Financial Results include the results for the quarter and nine-months period ended on 31st December 2025 and comparable results of previous quarter and quarter on quarter.
- 2 Previous period/year figures have been reclassified / regrouped wherever necessary to confirm to current period classification.
- 3 Reporting in respect of reportable segments as per Ind AS - 108 Operating Segments is made separately.
- 4 EPES for quarters and year to date period are not annualised.
- 5 The valuation of inventory is a critical accounting estimate that involves significant judgment by management. The valuation of carbon credits involves factors, including verification of emission reductions, market pricing, regulatory compliance and the timing of recognized revenues.

The accounting policy of lower of Cost or Market Value, has been adopted for valuing inventory. However, there is no specific regulatory data / market data to derive the market value of inventory (carbon credits). The application of this method requires the use of certain assumptions and estimates, including the determination of the cost of goods sold and the carrying value of inventory on the balance sheet.

- 6 The board at its meeting held on 10th February 2025, has subject to the necessary approvals, considered and approved demerger of Generation Business Segment of EKI Energy Services Limited under a scheme of arrangement amongst EKI Energy Services Limited and EKI One Community Projects Limited and their respective shareholders and creditors under section 230-232 and other applicable provisions of the Companies Act, 2013.

The Company has received 'no adverse observations' from BSE Limited, including approval from the shareholders and creditors of the Company. The Proposed Transaction is, inter alia, subject to receipt of requisite approvals from the statutory and regulatory authorities and Hon'ble National Company Law Tribunal.
