Poonawalla to make strong bid for RCB

GEETA NAIR
Pune, January 22

ADAR POONAWALLA,
CEO, SERUM INSTITUTE OF INDIA

Over the next few months, will be putting in a STRONG and COMPETITIVE bid for RCB, one of the best teams in the IPL

ADAR POONAWALLA, OWNER of the vaccine manufacturer Serum Institute, announced on Thursday his intention to submit a strong and competitive bid for the Bengaluru-based Indian Premier League (IPL) team, Royal Challengers Bangalore (RCB).

Poonawalla described RCB as one of the best teams in the IPL and stated that he would be putting in a bid over the next few months.

The billionaire has been assessing the deal, and discussions have been ongoing. However, Poonawalla noted that the valuation expectations for RCB are quite high. Last October, he expressed interest in the RCB team, stating that "at the right valuation, RCB is a great team."

Poonawalla is among the front-runners alongside other

interested parties, including Zerodha's Nikhil Kamat, Manipal Group's Ranjan Pai, and the JSW and Adani groups.

United Spirits, the parent company of RCB, through Diageo, has initiated a strategic review of its investment in Royal Challengers Sports Private Limited (RCSPL), a wholly-owned subsidiary of United Spirits. RCSPL manages the Royal Challengers Bengaluru (RCB) franchise in both the Men's IPL and Women's Pre-

mier League (WPL).

United Spirits expects this review process to conclude by March 31, 2026. Praveen Someshwar, managing director and CEO of United Spirits, stated that RCSPL has been a valuable strategic asset but is non-core to their alcoholic beverage business. This review aligns with USL's and Diaego's commitment to continuously assess their India enterprise portfolio to ensure long-term value for all stakeholders.

Waaree looks to grow non-solar business

RAGHAVENDRA KAMATH
Mumbai, January 22

WAAREE ENERGIES IS transitioning from a pure play solar products company to an energy transition company to diversify its business model.

"Waaree 1.0 was more of a solar company which is transitioning towards Waaree 2.0 which is less of a solar but more of an energy transition enabler," said Abhishek Pareek, group head – finance at Waaree Energies in a post Q3 earnings interaction with FE.

Five years ago, its revenues from modules was around 90%. This year, the company's revenue from pure play utility scale modules would be around 70% whereas 30% revenue would come from retail, manufacturing, EPC and from other services, Pareek said.

Under Waaree 2.0, the company is looking at a module capacity of 28 GW by next financial year and cell capacity of 15 GW. It will have 20 GW of battery energy storage systems (BESS) facility and 4 GW inverter facility, 20,000 MVA transformer facility and 1 GW electrolyser capacity.

However, he declined to give guidance on the share of non-solar business in overall revenues. "Our other products (non-solar), other businesses are certainly capital guzzling. We are committed to invest capital and we are seeing the other traction also," he said, adding that the firm will cross Ebitda guidance of ₹6,000 crore for the year by a good margin given that they have already crossed ₹4,300 crore of Ebitda.

NOTICE OF LOSS OF SHARE CERTIFICATES

Global OEMs coming to India for testing

GEETA NAIR
Pune, January 22

GOING GLOBAL

■ ARAI diversifying focus beyond road mobility into other niche areas

■ The drone testing facility has received approval and will be operational soon

received government approval and will be operational soon.

Reji Mathai, director, ARAI, mentioned that the introduction of testing under the Basic Customs Duty Exemption Scheme has made India an attractive location for testing. This scheme allows companies to be exempt from paying

duties, resulting in significant savings. In the last one and a half years, ARAI has tested and validated 55 vehicles, including rail and metro, aerospace and defence, drones, white goods, mining machines, and construction equipment.

The drone testing facility has

Several of these companies are based in Europe. Foreign vehicles for testing under the Basic Custom Duty Exemption Scheme include Toyota, JLR, Stellantis and Vinfast.

Another factor fuelling growth in this segment is the Global Capability Centres (GCCs). Vijay A Pankhawalla, a senior deputy director at ARAI, noted that GCCs in the engineering, research, and development sectors are designing and developing products locally that require testing and validation. ARAI has become a key hub for these GCCs testing and prototype needs. To better serve this customer segment, ARAI is establishing a new facility in Bengaluru.

Zee Entertainment net tumbles 5% on weak advertising

ORIENT ELECTRIC ON Thursday reported a 4.37% decline in its net profit to ₹25.98 crore for the December 2025 quarter, mainly on account of the impact of exceptional expenses. It had posted a net profit of ₹27.17 crore in the October-December quarter of the preceding fiscal year, according to a regulatory filing from the CKA Birla group firm Orient Electric Ltd (OEL).
