## Press Release

### **GHV Infra Projects Enters Global Arena with Wholly-Owned UAE Subsidiary**

**Mumbai, 23/12/2025:** GHV Infra Projects Ltd. ("GHV Infra"), a fast-growing EPC player in India's infrastructure and construction sector, has recently announced the successfully incorporation of its wholly-owned subsidiary in the United Arab Emirates (UAE). This development marks a significant milestone in the company's international growth journey.

The establishment of the UAE subsidiary underscores GHV Infra's strategic intent to expand its footprint in global infrastructure markets, particularly across the Gulf Cooperation Council (GCC) region. The move is aligned with the company's long-term vision to participate in high-value international EPC (Engineering, Procurement and Construction) projects and strengthen its overseas project execution capabilities.

With the UAE serving as a regional hub for large-scale infrastructure development, the new subsidiary will enable GHV Infra to access emerging opportunities across sectors such as transportation, urban infrastructure, industrial development, and energy-related projects within the GCC. The presence on-ground is also expected to enhance client engagement, facilitate faster project mobilization, and support effective project management and coordination for overseas contracts.

Mr. Ajay Hans, Managing Director, GHV Infra Projects Limited, said, "The launch of our wholly-owned subsidiary in the UAE marks a decisive step in GHV Infra's global expansion journey. With the GCC emerging as one of the world's most dynamic infrastructure markets, this presence brings us closer to strategic partners, large-scale EPC opportunities, and regional decision-makers. It significantly strengthens our capability to bid for and deliver complex international projects while upholding the quality, reliability, and execution excellence that define GHV Infra."

The subsidiary will act as a platform to pursue global EPC tenders, forge regional partnerships, and leverage GHV Infra's technical expertise and project execution strengths in international markets. It also reflects the company's commitment to building a diversified geographical presence and reducing reliance on a single market over the long term.

This development comes at a time when GHV Infra is focused on sustainable growth, operational excellence, and expanding its capabilities beyond domestic infrastructure projects. The UAE subsidiary is expected to play a pivotal role in advancing the company's overseas growth strategy and enhancing its competitiveness in the global infrastructure arena.

### **About GHV Infra Projects Ltd.**

GHV Infra Projects Limited, formerly Sindu Valley Technologies Limited, was incorporated on 19th March 1976 and changed its name on 02-12-2024, with approval from the Ministry of Corporate Affairs, Government of India. The company operates as an Engineering, Procurement, and Construction (EPC) firm, focusing on transportation infrastructure, Water, Industrial Projects, Building construction and Environment & Energy Projects. With a strong presence in India and abroad, GHV Infra is recognized for its engineering capabilities, quality standards, and project management expertise, dedicated to developing sustainable infrastructure for India's economic growth.
