Rationale and key rating drivers

Rating reaffirmation of long-term and short-term instruments as well as issuer rating of Embassy Office Parks REIT (Real Estate Investment Trust) (EOPR) continues to derive strength from its diversified asset portfolio of commercial office space, hospitality, and renewable energy assets. The REIT has strong portfolio of Grade-A commercial office assets with a completed leasable area of 38.9 million square feet (msf) across Bengaluru, Mumbai, Pune, the National Capital Region (NCR), and Chennai. The property is largely occupied by marque tenants from various business sectors, with strong presence of multi-national companies (MNCs), information technology (IT), and information technology-enabled services (ITeS) companies, resulting in strong collection efficiency.

Strong occupancy of 87% as on December 31, 2024, and low lease expiries over medium term provides healthy revenue visibility. Given the stable demand outlook, resumption of back-to-office and latest direction by the Government of India (GOI) on de-notification of Special Economic Zone (SEZ) properties, CARE Ratings Limited (CARE Ratings) expects occupancy to remain healthy in the medium term. Most leases expiring in the near-to-medium term are yielding lower rentals than current market rates, and therefore, EOPR is likely to benefit from the mark-to-market (MTM) opportunity, realising higher re-leasing spread through re-leasing of existing contracts. The REIT continued to report strong net operating income (NOI) as on December 31, 2024, aided by new leases at higher rentals and sustained hotel performance. EOPR's ability to sustain occupancy levels and realise MTM gains will continue to remain a rating monitorable.

Since its launch, EOPR has demonstrated strong financial risk management, characterised by low loan-to-value (LTV), comfortable debt to earnings before interest, depreciation, taxes, and amortisation (EBIDTA) and cash coverage ratio (CCR). CARE Ratings also considers the debt-funded capital expenditure in the medium term. However, with the planned qualified institutional placement (QIP) to raise equity funds, debt protection metrics are likely to remain strong.

Restrictions under Securities and Exchange Board of India (SEBI) regulations, which limit the share of under-construction assets to less than 20% and net debt to gross asset value (GAV) to under 49%, enhance credit protection.

CARE Ratings notes that the REIT's manager has implemented measures to enhance corporate governance in compliance with SEBI directives on nominee director rights for unitholders with over 10% unitholding either individually or collectively. Half the directors in the REIT are independent, aligning with SEBI guidelines.

These strengths outweigh refinancing risks associated with debt instruments and term loan repayments at EOPR and its subsidiaries. EOPR has demonstrated its ability to raise debt at competitive rates to refinance its debt in the past. Nonetheless, EOPR continues to remain exposed to execution and marketing risks associated with upcoming projects and cyclicity of real estate and hospitality sector.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

Not applicable

Negative factors

- Net debt/GAV of more than 35%.
- Consolidated net debt/EBITDA² of more than 5.5x on a sustainable basis.
- Significant delay in completion and leasing of under-construction assets impacting the credit profile of EOPR.

Analytical approach: Consolidated

EOPR's analysis is carried out on a consolidated basis, which includes its subsidiaries and associates mentioned in Annexure-6. The consolidated approach is taken considering EOPR has direct control over special purpose vehicles (SPVs). Per the REIT Regulations, 2014, maximum borrowing by the REIT has been defined at a consolidated level (equivalent to 49% value of EOPR's assets).

Outlook: Stable

The stable outlook reflects CARE Ratings' expectation of EOPR continuing to maintain strong debt protection metrics, aided by steady occupancy levels at favourable rates.

Detailed description of key rating drivers:

Key strengths

Fairly diversified asset portfolio of Embassy REIT

EOPR's asset portfolio consists of commercial office space across five cities, hospitality, and a captive solar plant of 100-MW capacity. As on December 31, 2024, EOPR had 51.1 msf commercial space area, of which 38.9 msf is completed and 87% is occupied, 7.4 msf is under-construction space, while 4.8 msf is proposed development. The commercial space is diversified in Bengaluru, Mumbai, Pune, NCR, and Chennai. EOPR also has completed hotels with an inventory of 1,096 keys, under-construction hotels of 518 keys in Bengaluru, and a 100-MW solar park in Bellary, Karnataka. The commercial office space portfolio contributes ~90% of REIT's total revenue. Diversification in asset class and geographies mitigates micro-market and industry-specific issues to a certain extent.

Overall stable revenue from commercial and hospitality assets of Embassy REIT

Occupancy levels of commercial office spaces remained healthy at 87% as on December 31, 2024. Consolidated revenue for Q3FY25 stood at ₹1,022 crore (₹936 crore for Q3FY24), an increase of ~9% year-on-year (YoY); and EBITDA at ₹788 crore (₹761 crore for Q3FY24), up ~3%, YoY. This increase was supported by improved performance in hospitality segment and rental escalations in renewed leases. Currently, over 50% of the vacant space is in SEZ area, which has been inherently witnessing delayed leasing. EOPR is de-notifying some of its SEZ spaces, which is likely to enhance marketability. Latest direction by GOI on denotification of SEZ properties is further expected to benefit the REIT in leasing ramp up. Most leases expired or expiring were old leases, generating lower than prevailing market rates, providing reasonable MTM opportunity to EOPR. EOPR's assets are occupied by tenants with strong credit profiles, and almost half of the gross leasable area is leased out to Fortune 500 companies. The satisfactory weighted average lease expiry (WALE) of 8.2 years provides revenue stability for the longer term.

Occupancy of the hospitality segment remained satisfactory at 59% for three months ended December 31, 2024, improved from 55% in three months ended December 31, 2023. EOPR's ability to improve occupancy levels will be closely monitored.

Strong debt protection metrics of Embassy REIT

Gross debt declined slightly to ₹20,111 crore as on December 31, 2024, from ₹20,162 crore as on September 30, 2024. EOPR's net debt stood at ~₹19,096 crore as on December 31, 2024. Debt protection metrics remained comfortable, marked by net debt to GAV of 32% and net debt to EBITDA of 5.3x as on December 31, 2024. Ongoing and planned capex is expected to increase gross debt. However, CARE Ratings believes the expected equity fund raising through QIP, majority of which, will be utilised to repay external debt, will support REIT in strengthening its debt metrics. Per CARE Ratings' estimates, net debt/GAV and net debt/EBITDA are expected to largely remain below 35% and 5.5x in the near-to-medium term.

²For the calculation of debt/EBITDA, EBITDA is calculated as defined in NCD documents, per which, EBITDA also include 50% of EBITDA of Golflinks Software Park Private Limited plus fitout rentals and rental support income.

Key weaknesses

Execution risk associated with projects undertaken by Embassy REIT

EOPR plans to incur a capex on a consolidated basis in the near-to-medium term (~₹4,000 crore is pending cost to complete as on December 31, 2024), which is likely to be get funded through debt. While execution risk will persist to complete the project on time, comfort is drawn from EOPR's successful track record in executing such projects. Timely leasing at envisaged rates will be a key monitorable.

High refinancing risk of Embassy REIT

Debt raised by EOPR and its subsidiaries are largely non-amortising in nature with bullet payment at the end of 3-5 years for non-convertible debentures (NCDs), thus exposing it to high refinancing risk. However, risks are mitigated to an extent, given the staggered repayment structure in the medium term, availability of large pool of capital through upstream of funds from SPVs to REIT and high financial flexibility arising from low LTV, which provides ample headroom to raise additional debt or equity. REIT also has flexibility to exercise the call option, which provides opportunity to prepay debt 4-6 months prior to final maturity. CARE Ratings also considers EOPR's demonstrated track record in refinancing several debts in the past at REIT and SPV levels. CP has a maturity of 6-12 months, which further increases the risk of refinancing. Overall, refinancing requirements are generally met by a mix of NCD and other bank facilities. Series VII NCDs amounting ₹1,050 crore has a bullet repayment in June 2025. The proposed NCD issue targeted with a longer tenure of ~10 years is likely to be used to refinance the same. Timeliness of such refinancing events continues to remain critical rating monitorable.

Liquidity: Strong

EOPR's liquidity is strong owing to strong debt coverage indicators, aided by minimal interim principal payments. While bullet repayment exposes it to high refinancing risk, EOPR's low debt/GAV allows ample headroom to raise additional debt, including raising lease rental discounting (LRD) loans in SPVs from banks for refinancing NCDs. Majority NCD instruments have multiple call options before final maturity, enabling them to refinance NCDs earlier than the due date. Regulations allowing participation from pension funds, insurance companies, and now foreign portfolio investments (FPIs), have provided access to larger investor base. Restrictions imposed under REIT regulations in terms of undertaking under-construction projects limit the cash outflow towards the capex. At a consolidated level, EOPR had cash and cash equivalents of ₹1,575 crore as on December 31, 2024 (debt repayment of ~₹1,000 crore made from this cash balance in January 2025).

Assumptions/Covenants: Not applicable

Environment, social, and governance (ESG) risks

Environment: Stricter environmental regulations could drive-up operational costs in the real estate sector. Project launches require environmental clearances, and delays could harm business profile. Changing environmental rules may pose credit risks for property development permits. EOPR has been taking several measures to address concerns around it. Half the energy consumption is from renewable energy. Consistent efforts are made to reduce water consumption, and organic waste converter capacity increase, among others. Its assets were also awarded a five-star rating by the British Safety Council for Occupational Health and Safety. Around 96% leases signed are 'green leases' to reduce the property's environmental impact.

Social: On-going demand growth for commercial office spaces in India, particularly for quality assets with strong infrastructure and connectivity that align with the service sector's expansion, limit risks. While trends such as remote work preferences may potentially affect demand negatively, overall outlook for the commercial real estate sector appears demanding. Rapid urbanisation and a sizable working-age population are expected to drive commercial real estate demand in India.

Governance: On the governance front, over 50% of the board comprises independent directors and there are adequate related-party safeguards.

CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
