Delhivery Boosts Capacity with Gateway Hub Expansion

- *Delhivery's Chandigarh Gateway Hub spans 2.35 lakh sq.ft., equipped with sorting technology and a 30% boost in storage capacity.*
- *The facility is expected to generate thousands of direct and indirect jobs while enabling businesses across the region to store inventory locally and fulfill orders nationwide.*
- *The hub features 350KW rooftop solar panels, a 1,000-litre wastewater reuse system, and natural lighting to reduce energy use and environmental impact.*

CHANDIGARH – June 24, 2025 – Delhivery, India's largest fully integrated logistics service provider, today announced the expansion of its Chandigarh Gateway Hub. The facility, spread across 2.35 lakh sq.ft will accelerate the region's economic growth and create thousands of direct and indirect work opportunities. It will also empower thousands of businesses in the region, enabling them with access to nationwide markets through improved inventory storage and order fulfillment capabilities.

"Chandigarh and its surrounding region remain a core market for us. This expansion directly addresses the needs of local businesses, enabling them to deliver products faster to customers nationwide. Beyond facilitating commerce, the expansion will drive growth in supporting sectors like packaging, transportation, and local last-mile logistics, creating jobs within the community. As we approach the festive season, this facility will elevate customer experience by enabling fast and precise services," **said Dingtang Tikhak, Senior Vice President, Regional Hub Operations, Delhivery.**

With the new infrastructure, Delhivery now offers 30% more storage capacity to meet the requirements of the region's needs and incorporates automation to handle shipment volumes with efficiency. This includes a Hub Conveyor Solution with a 4,000 throughput per hour capacity that helps sort both incoming and outgoing shipments. The hub also includes a Cross Belt Sorter (CBS) with a 12,000 throughput per hour capacity for rapid and precise shipment processing. Together, these technologies reduce turnaround time and increase the overall efficiency of the supply chain and can be valuable during peak demand periods like the upcoming festive season.

Delhivery's expansion in Chandigarh is also a step forward in empowering local entrepreneurs and businesses. With the layout offering 3,000+ bin locations and the ability to hold more than 46,000 inventory bags, businesses in the region can prepare themselves for the festive season and store goods locally and ship them nationwide with ease, expanding their reach and improving delivery time.

Delhivery's commitment to environmental responsibility has always been in focus in its operations. The facility features 350KW rooftop solar panels that can reduce energy consumption and aims to reduce reliance on conventional energy sources and lower the facility's carbon footprint. A 1,000L wastewater storage and reuse system has also been installed that allows for the conservation of water by utilizing it for cleaning purposes within the hub, reducing reliance on fresh water sources. The transparent fiber roofing has been installed to allow natural light, cutting down the need for artificial lighting during the day and further reducing energy needs.

The expanded Chandigarh hub is part of Delhivery's broader northern India network covering Punjab, Haryana, Jammu, and Himachal Pradesh, which includes a network of over 20 sorting centers and 360+ delivery stations. Supported by a growing ecosystem of franchise partners, the infrastructure helps thousands of businesses—especially MSMEs—access reliable and scalable logistics services to reach customers in every corner of the country.

About Delhivery: Delhivery is India's largest fully-integrated logistics services provider. With its nationwide network covering over 18,800 pin codes, the company provides a range of logistics services, such as express parcel transportation, PTL freight, TL freight, cross-border, supply chain, and technology services. Since its inception, Delhivery has successfully fulfilled over 3.6 billion shipments and today works with over 44,000 customers, including large and small e-commerce participants, SMEs, and other enterprises and brands.
