...ears up for ...Launch

...after patents expire in 2026

over the next decade.

"We have 26 products (all peptides) in the GLP1 pipeline and will be launched over the next decade, according to the patent situation," said Israeli.

On Wednesday, the company reported consolidated revenue for the first quarter at ₹[illegible] crore, an 11% increase from a year ago, mainly on account of contributions from its acquired consumer healthcare portfolio in nicotine replacement therapy (NRT) and sustained performance in branded markets. Net profit for the quarter stood at ₹1,418 crore, up 2% YoY.

Israeli said an ongoing litigation over semaglutide with innovator company Novo Nordisk in India is not likely to hamper its planned product launches. The company's global generics revenue in Q1FY26 stood at ₹7,562 crore, a growth of 10% year-on-year.

...ply to Novo Nordisk's Plea

weight-loss drug semaglutide. The court's directive comes on the back of a plea by Novo Nordisk, which alleged patent infringement of its weight loss drug.

The drug is slated to lose its patents in March next year. In a May 29 order, the Delhi High Court had said the defendant did not have a license to sell the drug in India. –Our Bureau

Tata Consumer Q1 Profit Rises 10%; Tea, Salt Drive India Growth

Our Bureau

Bengaluru: Tata Consumer Products (TCPL) on Wednesday reported a 9.8% year-on-year jump in its consolidated revenue from operations for the quarter ended June to ₹4,778.9 crore, while its profit after tax grew 10.2% to ₹346.4 crore.

The maker of Tata Tea and Tata Salt said its India business recorded double-digit growth in the quarter, driven by the tea and salt categories, though its ready-to-drink business volume growth was impacted by unseasonal rains.

The company's international business grew 5% at constant currency revenue growth.

Consolidated earnings before interest, taxes, depreciation and amortisation (Ebitda) declined by 8% to ₹615 crore due to higher tea costs in India and coffee price corrections in the non-branded segment, the company said.

Ebitda margin was down 250 basis points at 12.9%.

TCPL managing director Sunil D'Souza in an earnings call told analysts that tea prices are currently 13-15% below last year and that he does not expect it to trend lower. "Coffee, while trending downwards, is not a uniform trend... There is still a bit of volatility there that we need to manage," he said.

While the company is still a relatively small player in coffee, the segment posted 33% volume growth and 67% value growth during the quarter, D'Souza said.

Group net profit, after exceptional items, rose 15% on year to ₹332 crore in the June quarter.

...ver Replacing ...ling Services

hence stands vacated," the court said.

It added that post revocation of security clearance, all employees and equipment of the petitioner firm have been placed under the control of another company, Indo Thai Airport Services, which is now carrying out the ground handling and bridge mounting services at the Mumbai airport.

"The petitioner firm has lost all physical access to the airport," the court said.
