London / New Delhi, October 24, 2018: Airtel Africa Ltd, a UK incorporated subsidiary of Bharti Airtel Ltd., today announced that six leading global investors comprising Warburg Pincus, Temasek, Singtel, SoftBank Group International and others have agreed to invest USD 1.25 billion through a primary equity issuance in the company at a post money equity value of ~ USD 4.4 billion. Airtel Africa has seen a turnaround of its business in recent years. This investment demonstrates the confidence of leading global investors in the company's ongoing robust growth and profitability. The investment also reinforces the increased growth potential of the Africa telecommunications sector.

The proceeds will be used to reduce Airtel Africa's existing debt of approx. USD 5 billion and for growth of its African operations. Airtel Africa subsequently intends an Initial Public Offering and use the proceeds primarily for further reduction of debt.

Airtel Africa is experiencing a healthy revenue growth in voice and data services and also strong performance in the Airtel Money business. In most of the markets in which it operates, Airtel Africa ranks amongst the top two operators. With 4G services live in 9 countries and in process of rollouts in most others, Airtel Africa is well placed to capture a significant market share of the rapidly growing data demand across countries.

The present transaction will not involve any sale of shares by existing shareholders.

Raghunath Mandava, MD and CEO, Africa, Bharti Airtel, said "This primary equity issuance clearly underlines the confidence of leading global investors in Airtel Africa's successful business strategy and its potential to sustain growth and profitability.
