"The Investments made by the global long term marquee investors has happened post their intense analysis of our operations and growth plans. Their investments are a pleasing validation of the positivity of our Strategic Directions.

Meanwhile, strong progress at the ground levels continues on: 1] Capturing in the Value-chain, a key Raw Material, Ammonia, by way of a global scale project at Taloja, next door to the consuming downstream complex; 2] Leveraging on the hugely growing Mining needs emerging from the India's Growth Story, by setting up a global scale Technical Ammonium Nitrate (TAN) project."
