SECTION II – RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

This Letter of Offer also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 13 of this Letter of Offer.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Unaudited financial results for the period ended June 30, 2025 and Audited Financial Information for the financial years ended March 31, 2025 and March 31, 2024 prepared in accordance with Ind AS and the Companies Act.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

INTERNAL RISK FACTORS

1. ***We depend on a limited number of customers for a significant portion of our revenue. The loss of any of our major customers due to any adverse development or significant reduction in business from our major customers may adversely affect our business, financial condition, results of operations and future prospects.***

Our top five customers have contributed 36.71%, 29.29% and 24.64% and our Top 10 Customers have contributed to 47.14%, 42.52% and 40.07%, of our revenues for the year ended June 30, 2025, March 31, 2025 and March 31, 2024 respectively. However, our top customers may vary from period to period depending on the demand and thus the composition and revenue generated from these customers might change as we continue to add new customers in normal course of business. Since at present our business is concentrated among relatively few significant customers, we could experience a reduction in our results of operations, cash flows and liquidity if we lose one or more of these customers or the amount of business, we obtain from them is reduced for any reason, including but not limited on account of any dispute or disqualification. Accordingly, we cannot assure you that the customers which contribute to the major part of our revenue stream will pay us the amounts due to us on time, or at all. In the event any of our significant customers fail to fulfil their respective obligations, our business, financial condition and results of operations would be adversely affected. While we believe we have maintained good and long-term relationships with our customers, there can be no

assurance that we will continue to have such long-term relationship with them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

2. ***Our customers insist on adherence to compliance with certain quality and technical standards for the auto components used as raw materials and failure to comply with the same could have an adverse negative impact on our operations.***

We supply to leading automobile brands which have strict norms and insist on adherence to compliance with quality and technical standards for auto components used as raw materials by them in their products. We must therefore ensure that our products are of superior precision and quality at all times. While we continuously invest in upgrading our manufacturing facility and our employee skills any failure to adhere to the norms insisted upon by our customers could lead to loss of our customer and negatively impact our reputation and in turn our operations and profitability.

3. ***Our revenue from operations is attributable to the Indian automotive sector. Any adverse changes in the automotive sector could adversely impact our business, results of operations and financial condition.***

Our business has been and continues to be concentrated on providing gear hobs, cutters and other precision equipment to the original equipment manufacturers (“OEMs”) in the automotive sector and is therefore heavily dependent on the performance of the automotive sector in India. The performance of the automotive sector is dependent on number of social and economic factors, including demographic trends and preferences, employment and income levels, affordability of the customers, changes in government policies, economic conditions, availability of finance and interest rates. Although certain factors have a direct impact on the demand for vehicles, others can have indirect consequences that are difficult to predict and any adverse change in these factors could have a negative adverse impact on our business, results and profitability.

4. ***If we do not continue to innovate or we are not able to keep pace with technological developments, we may not remain competitive and our business and results of operations could suffer.***

We supply to reputed OEMs that are abreast with market changes on the technology front. These marquee players are constantly on the look-out for quality supplies with superior efficiency. We are challenged to promptly respond to the evolving demands and also need to be prepared to face the risk of technological obsolescence. While we are focused on modernization and technology upgradation continuously and we may incur substantial costs as part of our efforts to design, develop and commercialise new products and solutions there is no guarantee that our initiatives will be successful or be completed within the anticipated time frame or budget. Furthermore, there is no assurance that our newly developed or improvised products and solutions will yield desired results, can be used for our commercial operations or will generate any revenue. Even if such products can be successfully developed and manufactured, there is no guarantee that they will be cost effective, accepted by our customers and achieve anticipated returns. Our ongoing investments in such technology upgradation initiatives could result in higher costs without a proportionate increase in revenues and this may affect our ability to win bids and/or contracts and our business profitability and financial condition may be materially and adversely affected.

5. ***Our failure to adapt to technological developments or industry trends could affect the performance and features of our products, and reduce our attractiveness to our customers.***

As our operations grow in scope and size, whether through offering of new products or expansion into new markets, we must continuously improve, upgrade, adapt and expand our systems and infrastructure to offer our customers enhanced products, features and functionality ahead of rapidly evolving customer demands, while maintaining the reliability and integrity of our systems and infrastructure in a cost-efficient and competitive manner. The systems, infrastructure and technologies we currently employ may become obsolete or be unable to support our increased size and scale. Even if we can maintain, upgrade or replace our existing systems or innovate or customize and develop new technologies and systems, we may not be as quick or efficient as our competitors in upgrading or replacing our systems. We may be unable to devote adequate financial resources or obtain sufficient financing on commercially acceptable terms in time, or at all, which may have a material adverse effect on our business, prospects, results of operation and financial condition.

6. ***Our business and profitability is substantially dependent on the availability and cost of our raw materials and any disruption to the timely and adequate supply of raw materials, or volatility in the prices of raw materials may adversely impact our business, results of operations and financial condition.***

Our cost of material consumed is a significant portion of our total expenses. The majority of the raw material that we consume is subject to fluctuation in commodity prices. We are therefore exposed to volatility in the prices of raw materials. While we seek to pass on the increase in cost of metals and other raw materials to our customers, our cash flows may be adversely affected in case of a gap in time between the date of procurement of our raw materials and the date on which we can reset the component prices for our customers, to account for the increase in the prices of such raw materials.

7. ***We depend on third parties for the supply of raw materials and do not have firm commitments for supply or exclusive arrangements with any of our suppliers. Loss of suppliers may have an adverse effect on our business, results of operations and financial condition.***

We do not generally have firm commitments for the supply of raw materials and rely on purchase orders and delivery schedules for the procurement of raw materials. We procure our raw materials by way of entering into general purchase agreements, which set out the general terms and are supplemented by purchase orders wherein the pricing, scheduling and delivery details are set out. We depend on third-party suppliers for our raw materials that we procure under contractual arrangements with them which are typically valid until terminated by either party by giving prior notice. We may be unable to source such commodities from alternative suppliers on similar commercial terms and within a reasonable timeframe. Furthermore, as we are subject to applicable laws in relation to our operations including labelling, environmental laws and manufacturing, and strict quality requirements specified in contractual arrangements with customers, our supplier base is limited, which exacerbates the risk of being unable to make alternative arrangements. While our suppliers have not terminated their arrangements with us at short notice in the past, we may be unable to find suitable alternatives in the event our suppliers terminate their engagements with us in the future. Furthermore, as we typically do not have exclusive arrangements with our suppliers, our suppliers could engage with our competitors and prioritize supplies of their other customers, which could adversely impact our ability to procure a sufficient quantity of raw materials at competitive rates.

8. ***Our manufacturing facility is in the state of Maharashtra and our products are manufactured only at our manufacturing facilities in Aurangabad, Maharashtra. Any significant social, political, economic or seasonal disruption, natural calamities or civil disruptions in Maharashtra could have an adverse effect on our business, results of operations, future cash flows and financial condition.***

Our manufacturing facility is in the state of Maharashtra and all our products are manufactured only from our facility at Aurangabad, Maharashtra, India. Due to the geographic concentration of our manufacturing facilities, our operations are susceptible to local and regional factors, such as economic and weather conditions, natural disasters, political, demographic and population changes, and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in shipments of our products and/or otherwise materially adversely affect our business, financial condition and results of operations. The occurrence of any of these events could require us to incur significant capital expenditure or change our business structure or strategy, which could have an adverse effect on our business, results of operations, future cash flows and financial condition. While we have not faced any such disruptions in the past in our operations due to the concentration of our manufacturing operations in Haryana, we cannot assure you that there will not be any significant developments in the region in the future, which may adversely affect our operations.

9. ***We are exposed to foreign currency exchange rate fluctuations which may have an adverse effect on our results of operations and the value of the Equity Shares, independent of our operating results.***

While our principal revenue is in the Indian Rupee, we are exposed to exchange rate fluctuations, particularly in USD and Euro owing to import of critical raw materials involved in manufacturing of our products and revenue earned in foreign currency on account of export sales. While we have not entered into any formal hedging arrangements, we have a natural hedge on USD/ Euro denominated raw material expenses through our USD/ Euro denominated export sales. To the extent we are unable to match costs incurred in foreign currencies with revenue received, or there are sharp exchange rate fluctuations between such currencies, we could have significant unhedged exposure on translation of receivables and trade payables. Any significant fluctuation in the exchange rates and appreciation in the value of the Indian Rupee against foreign currencies, could result in an adverse effect on our business, results of operations, financial condition and future prospects. Our imports of material and capital expenditure have also been impacted by such fluctuations in the past, and will be impacted in the future if such fluctuations continue. Any depreciation in the value of the Indian Rupee against foreign currencies such as the USD and Euro has a negative effect on our expenditure and investment.

10. ***We operate in a competitive market and face competition from other Defense suppliers. Any increase in competition may adversely affect our business and financial condition.***

The Indian automotive parts manufacture industry is characterized by strong competition from both domestic and international players. The key factors of competition may also include quality, cost, delivery, technical capability and quality of management. Consequently, we compete with different companies and a number of our competitors are larger than we are, and some competitors have greater financial and other resources than we do and other economic advantages as compared to our business, such as higher revenue, lower labour costs, and, in some cases, export or raw materials subsidies. Increased competition could adversely affect our business. In addition, any of our competitors may foresee the course of market development more accurately than we do, develop products that are superior to our products, produce similar products at a cost that is lower than our cost, or adapt more quickly than we do to new technologies or evolving customer requirements. As a result, our products may not be able to compete successfully with our competitors' products, and we may not be able to meet the growing demands of customers. If we misjudge the amount of capital to invest or are otherwise unable to continue providing products that meet our customers' needs in this environment of rapid technological change, our market competitiveness could be adversely affected.

11. ***Insurance coverage taken by our company, may not be adequate because of which the loss or destruction of our assets could have a material adverse effect on our financial condition and results of operations.***

While we believe that the insurance policies taken by us are adequate, they may not be sufficient to cover all the risk involved. Such insurance policies are taken on the basis of estimated period of completion of the project and estimated costs and other projections. However, we cannot assure you that our company recover all our losses in case of any damage or adverse event. We may face uninsured risks to the extent of remaining assets of the company. Further, if we may suffer any losses, damages and liabilities in the course of our operations and in our project development. Any such uninsured losses or liabilities could result in a material adverse effect on our business operations, financial conditions and results of operations. Further, we may not carry insurance coverage for all our projects. We may have to bear the costs associated with any damage suffered by us in respect of these uninsured projects or uninsured events.

12. ***Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.***

Our Company has experienced negative net cash flow in operating activities in the recent past, the details of which are provided below:

(₹ in Lakhs)

Particulars	Audited		
	March 31, 2025	March 31, 2024	March 31, 2023
Net Cash Flow from / (used in) Operating Activities	(122.87)	210.47	122.23
Net Cash Flow from / (used in) Investment Activities	(376.61)	(108.98)	7.92
Net Cash Flow from / (used in) Financing Activities	535.64	(83.59)	(146.85)

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

13. ***Any inability on our part to effectively utilize the Issue Proceeds could adversely affect our financial results. The objects of the Issue are based on the internal estimates of our management and have not been appraised by any bank or financial institution.***

Our Company proposes to utilize the Net Proceeds for meeting our working capital requirements and for general corporate purposes. Our proposed deployment of Net Proceeds has not been appraised by a public financial institution or a scheduled commercial bank and is based on management estimates. Our management will have broad discretion to use the Net Proceeds. Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. We cannot assure you that use of the Net Proceeds to meet our future capital requirements, fund our growth and for other purposes identified by our management would result in actual growth of our business, increased profitability or an increase in the value of our business.

14. We have in the past entered into related party transactions and we may continue to do so in the future.

We have entered into certain related party transactions as on the date of this Letter of Offer. While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise.

15. We have not been paying dividends in the past and our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. We have not paid dividends in the past and there can be no assurance that our Company will declare dividends in the future also.

16. Changing regulations in India, specifically in the automotive industry, could lead to new compliance requirements that are uncertain.

The regulatory and policy environment in which we and our OEM customers operate is evolving and is subject to change. The GoI may implement new laws or other regulations and policies that could affect manufacturing in general, which could lead to new compliance requirements. The Department of Heavy Industry, Ministry of Heavy Industries and Public Enterprises released the draft National Auto Policy that envisages propelling India amongst the top three nations in the world in engineering, manufacturing and export of automotive vehicles and components. Further, the Indian Ministry of Road Transport and Highways issued a draft notification of Bharat Stage (BS) VI emission standards for all major on-road vehicle categories in India in February 2016 ("BS-VI Standards") which were enforced on April 1, 2020. The BS-VI Standards set forth emission standards, type approval requirements, on-board diagnostic system specifications, and durability levels for all major vehicle categories in India. Pursuant to the BS-VI Standards, our OEM customers were required to comply with stricter emission norms.

We may incur increased costs and other burdens relating to compliance with any new requirements arising from the changing regulatory landscape in India, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects.

17. There are certain legal proceedings involving our Company, Directors and Promoter, an adverse outcome in which, may have an adverse impact on our reputation, business, financial condition, results of operations and cash flows.

18. *Your holdings may be diluted by additional issuances of equity by us, which may adversely affect the market price of our Equity Shares.*

Any future issuance of our Equity Shares may dilute the holdings of investors in our Equity Shares, which could adversely affect the market price of our Equity Shares. Additionally, sales of a large number of our Equity Shares by our principal shareholder could adversely affect the market price of our Equity Shares. The perception that any such sale may occur could also adversely affect the market price of our Equity Shares.

19. *We are a listed company and are required to comply with rules and regulations imposed by the Stock Exchange and SEBI with respect to continuous listing and the Companies Act. Any failure to comply with such rules and regulations or any wrong disclosure made to the Stock Exchange or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.*

As a listed company, we are required to comply with certain conditions for continuous listing under the SEBI Listing Regulations and other rules and regulations imposed by SEBI, which require us to make certain periodic disclosures, including disclosures about any material events or occurrences with respect to our Company, disclosure of our financial statements and disclosure of our updated shareholding pattern. Any failure to comply with these continuous disclosure requirements or any wrongful disclosure made by us to the Stock Exchange or any other statutory authority may lead to penalties being imposed on us.

We believe that We are in compliance with rules and regulations imposed by the BSE and SEBI with respect to continuous listing, any failure to comply with such rules and regulations or any wrong disclosure/ Non filing to the BSE or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.

20. *Our shares are under GSM – Stage 1 on the BSE.*

Our Equity Shares are currently placed under GSM Stage -1 by the BSE which indicates that the securities are placed under the trade-to-trade category.

21. *We are subject to cyber security risks and security breaches and may incur increasing costs to minimize those risks and to respond to cyber incidents.*

Several other companies have disclosed cyber-attacks and security breaches, some of which have involved intentional attacks. Attacks may be targeted at us, our customers, or both. Although we devote significant resources to maintain and regularly upgrade our systems and processes that are designed to protect the security of our computer systems, software, networks and other technology assets and the confidentiality, integrity and availability of information belonging to us and our customers, our security measures may not provide absolute security. Despite our efforts to ensure the integrity of our systems, it is possible that we may not be able to anticipate or to implement effective preventive measures against all security breaches of these types, especially because the techniques used change frequently or are not recognized until launched, and because cyber-attacks can originate from a wide variety of sources, including third parties outside the Company such as persons who are involved with organized crime or associated with external service providers or who may be linked to terrorist organizations or hostile foreign governments. A successful penetration or circumvention of the security of our systems could cause serious negative consequences, including significant disruption of our operations, misappropriation of our confidential information or that of our customers, or damage to our computers or systems or those of our customers and counterparties, and could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, significant litigation exposure, and affect to our reputation, all of which could have a material adverse effect on us.

Our servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach of our systems or by persons with whom we have commercial relationships that result in the unauthorized release of customers' or businesses' personal information, could damage our reputation and expose us to a risk of loss or litigation and possible liability.

22. *The outbreak of COVID-19, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe communicable disease like the COVID-19) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease could adversely affect our business, financial condition and results of operations. The outbreak of COVID-19 had resulted in authorities implementing several containment measures such as travel bans and restrictions, quarantines and shutdowns. These measures had an impact on the workforce and our operations and the operations of our customers. The scope, duration and frequency of such measures and the adverse effects of any pandemic remain uncertain and could be severe. If any of our employees were suspected of contracting any epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian economy in general.

The spread of COVID-19 had caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences) and we may be required to take further actions as may be required by government authorities or that we determine are in the best interests of our employees and customers. There is no certainty that such measures will be sufficient to mitigate the risks posed by an outbreak. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, loss of life, injuries and impact the wellbeing of our people.

EXTERNAL RISK FACTORS

23. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and IFRS, which investors may be more familiar with and consider material to their assessment of our financial condition.*

Our audited summary statements of assets and liabilities as at March 31, 2024 and audited summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity for the Financial Year 2024 have been prepared in accordance with the Ind AS, read with the Ind AS Rules and restated in accordance with the SEBI ICDR Regulations, the SEBI Circular and the Prospectus Guidance Note.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Audited Financial Information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

24. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

25. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global

commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

26. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

27. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

28. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting

requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

29. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

30. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions including wars amongst nations like the current Russia Ukraine conflict could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

ISSUE SPECIFIC RISKS

31. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, Rights Entitlement Letter and Application Form (the "Offering Materials") to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

32. *SEBI has by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021 and October 01, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021 and October 01, 2021 and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see "Terms of the Issue" on page 65 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights

Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

33. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

34. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. However, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if STT was paid on the sale transaction and, additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of equity shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, has now levied taxes on long-term capital gains arising from sale of equity shares. However, where specified conditions are met, such long-term capital gains are only taxed to the extent they exceed Rs. 1,25,000 with indexation benefit. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity Shares.

35. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

36. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

37. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, 2013, any company incorporated in India must offer its holders of equity shares pre-emptive

rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

38. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

39. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

40. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will not be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs through the FDI Circular 2020 (defined below).

The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as at October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under the FEMA Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“OCBs”) have been derecognised as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003.
