## Mitsu Chem Plast Limited Proposes to Commence Manufacturing Operations at New Boisar Facility as Part of Its Expansion Strategy

**Mumbai, January 27, 2026** – Mitsu Chem Plast Limited (BSE: 540078), one of India's leading polymer solutions companies engaged in the manufacturing of blow-molded and injection-molded products, has announced a strategic expansion of its manufacturing footprint as part of its long-term growth plan.

The Company has proposed to commence manufacturing operations at a new facility located at the MIDC Industrial Area, Taluka-Boisar, District-Palghar. The premises have been taken on a leave and license basis and will support the Company's growing operational requirements.

Currently, Mitsu Chem Plast operates three manufacturing units, Unit 1 and Unit 2 at Tarapur, and Unit 3 at Khalapur, with a **combined installed capacity of over 29,000 MT per annum**. As of the quarter ended September 2025, the Company was operating at an **overall capacity utilization of approximately 68%**, reflecting healthy demand across its product portfolio.

The proposed Boisar facility will add **approximately 900 MT per annum** to the Company's total manufacturing capacity. To support this expansion, the Company plans to invest **around ₹101 lakh**, funded entirely through **internal accruals**, towards the purchase of new machinery.

This capacity addition is aligned with Mitsu Chem Plast Limited's strategy to **sustain long-term growth, address evolving market demand, and enhance operational flexibility**. The expansion will enable the Company to improve responsiveness to customer requirements, optimize production planning, and support incremental volumes without significant strain on existing facilities.

**Reflecting on the Development, Mr. Jagdish Dedhia, Chairman of Mitsu Chem Plast Limited** said, "The proposed commencement of manufacturing operations at our Boisar facility is a natural step in our growth journey. Over the past few years, we have seen steady demand across our product segments, and this expansion allows us to prepare for future requirements in a timely and planned manner.

The additional capacity will help us serve our customers better, improve delivery timelines, and create more flexibility in our manufacturing operations. This expansion supports our long-term vision of building a scalable and reliable manufacturing platform while consistently meeting customer expectations."

### About Mitsu Chem Plast Limited

Mitsu Chem Plast Limited (BSE - 540078) is a certified manufacturer of polymer-based molded products, specializing in the creation and marketing of innovative, technically advanced solutions. The company serves a diverse range of growing industries, including Industrial Packaging

Solutions, Healthcare Products, Infrastructure Products, and Emergency Handling Solutions, all supported by robust in-house testing and quality control systems. The company's product portfolio features Molded Industrial Plastic Packaging items like drums, jerry cans, bottles, jars, and related accessories; Infrastructure furniture parts such as chair shells; Hospital furniture components including panels, railings, planks, and trolley parts and Rescue and safety equipment like spine boards. Mitsu Chem Plast Limited primarily caters to Original Equipment Manufacturers (OEMs) across a variety of sectors, including chemical, pharmaceutical, dyes, agrochemical, disinfectants, diagnostic, hospital and infrastructure furniture. Its recent product innovations include pails for lubricants and new variants like GL 45 caps and TSV caps. The company's journey began 35 years ago with its first plant in Boisar, Tarapur. Today, it operates three manufacturing facilities in Maharashtra: two in Boisar, Tarapur, and one in Khalapur.

In FY25, Mitsu Chem Plast reported total revenues of ₹332.88 Cr, with an EBITDA of ₹23.28 Cr and a PAT of ₹7.25Cr
