## TCS Deepens its LATAM Reach with a New Brazil Campus; To Add 1,600 Jobs

*The new facility in Londrina will be a major delivery and innovation hub and will be built with an initial investment of USD 37 million*

**CURITIBA, BRAZIL | MUMBAI, January 27, 2026:** [Tata Consultancy Services](#) (TCS) (BSE: 532540, NSE: TCS), a global leader in IT services, consulting, and business solutions, today announced the construction of its largest delivery centre in Londrina, Brazil. The state-of-the art campus will be developed with an initial investment of USD 37 million (BRL 200 million, INR 3.3 billion) and is expected to be completed by 2027. The new campus will create over 1,600 new jobs and will serve as a strategic hub supporting clients across industries in Brazil and Latin America. This is the one of the largest investments made by TCS in Latin America, reinforcing its long-term commitment to the region.

The inaugural ceremony was held at Palácio Iguaçu, in presence of Carlos Roberto Massa Júnior (Ratinho Júnior), Governor of the State of Paraná, Brazil and Bruno Rocha, Country Head, TCS Brazil.

**Carlos Roberto Massa Júnior 'Ratinho Junior', Governor of the State of Paraná, Brazil**, said, *"This new strategic investment will transform Paraná into one of the major centers of IT services in Brazil. The state government invests heavily in qualified training from the ground up. We have the best public network in Brazil, and we develop training programs in programming and artificial intelligence for students from the beginning of their careers. In addition, we have the largest network of public universities in Brazil, increasingly focused on technological areas. All these factors contribute to TCS realizing this investment with the hiring of 1,600 people."*

**Bruno Rocha, Country Head - TCS Brazil**, said, *"This new campus reinforces our commitment to Brazil and to the entire Latin America region. Once ready, the state-of-the-art facility will represent a future ready innovation hub designed to enable digital transformation for clients, contribute to the region's sustainable growth and offer best-in-class job opportunities for local talent. With over two decades of operations in Brazil and delivery centres across Londrina, São Paulo and Rio de Janeiro, and a portfolio of over 200 clients across industries, Brazil remains a strategic market for us. Our recognition as one of the country's top employers for 10 consecutive years further reflects our deep-rooted presence and people-first approach."*

As the largest multinational in the city, TCS currently employs around 2,500 people, operating out of three leased buildings. The new campus, spread across an area of 9,000 square meter, will comprise three newly constructed facilities and a LEED Gold Building Certification. This new facility will enable consolidation of the existing workforce into a single location and provide additional capacity to accommodate the new hires. The new TCS-owned facility will function as a strategic hub for collaboration and innovation, enabling business transformation through technologies like artificial intelligence, cybersecurity, ERP solutions, among others.

This strategic expansion, which includes developing the workforce capabilities in Google, AWS, SAP and Microsoft technologies, will bolster innovation for Brazilian and international clients. It will further enable clients to grow amid an environment of constant change, emboldening TCS' vision to become the world's largest AI-led technology services company. As part of this vision, starting this January, TCS offices in Londrina have launched their AI labs, rolling out the global initiative of *tcs<sup>AI</sup> Fridays*, a key enabler to accelerate AI adoption and drive AI-first culture.

## For immediate use **Press Release**

TCS has been operating in Brazil for over two decades, with operations in Londrina, São Paulo, and Rio de Janeiro. Serving more than 200 clients in Brazil in sectors such as banking, insurance, mining, healthcare, manufacturing, retail and telecommunications, TCS is recognized as one of the top employers in the country for 10 consecutive years. In September 2025, the company opened its first TCS Pace Port™ in São Paulo to further transform businesses in Brazil and Latin America through innovations in artificial intelligence and emerging technologies.

### **About Tata Consultancy Services (TCS)**

Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) is a digital transformation and technology partner of choice for industry-leading organizations worldwide. Since its inception in 1968, TCS has upheld the highest standards of innovation, engineering excellence, and customer service.

Rooted in the heritage of the Tata Group, TCS is focused on creating long term value for its clients, its investors, its employees, and the community at large. With a highly skilled workforce of over 580,000 employees spread across 55 countries and 202 service delivery centers across the world, the company has been recognized as a top employer in six continents. With the ability to rapidly apply and scale new technologies, the company has built long term partnerships with its clients – helping them emerge as perpetually adaptive enterprises. Many of these relationships have endured into decades and navigated every technology cycle, from mainframes in the 1970s to artificial intelligence today.

TCS sponsors 14 of the world's most prestigious marathons and endurance events, including the TCS New York City Marathon, TCS London Marathon and TCS Sydney Marathon with a focus on promoting health, sustainability, and community empowerment.

TCS generated consolidated revenues of over US \$30 billion in the fiscal year ended March 31, 2025. For more information, visit [www.tcs.com](http://www.tcs.com)
