**Company Secretary**

## **Aurionpro Expands Smart Transit Portfolio with Intelligent Platform Screen Door Systems; Secures Mumbai Metro Order from Titagarh Rail Systems**

*This marks Aurionpro's entry into safety-critical Platform Screen Door (PSD) solutions, strengthening its end-to-end urban mobility offerings in India's fast-growing metro market.*

**Mumbai 27<sup>th</sup> January 2026:** Aurionpro Solutions Limited (BSE: 532668) (NSE: AURIONPRO) is pleased to announce a significant order win from Titagarh Rail Systems Limited (TRSL) for the design, supply, commissioning, and long-term maintenance of Platform Screen Door (PSD) systems for Line 5 of the Mumbai Metro Rail Project. The multi-year order, one of the largest multi-million-dollar engagements in Aurionpro's Smart Transit portfolio, will be delivered in consortium with KTK Group Co. Limited (**ASK**), leveraging Aurionpro's deep domain expertise as a reliable OEM and solution delivery partner. Further, it marks Aurionpro's entry into the Automatic Platform Screen Door market, a solution that significantly enhances passenger safety and operational efficiency.

This engagement also marks Aurionpro's first collaboration with TRSL, further strengthening its association with India's largest metro rail network in Mumbai, following its earlier wins for Metro Lines 4 and 4A awarded by the Mumbai Metropolitan Region Development Authority (MMRDA).

Aurionpro continues to strengthen its smart transit portfolio with the addition of Platform Screen Doors (PSD), an intelligently engineered solution for metro rail, railway and BRTS applications. True to its standing as an innovative, end-to-end transit solutions provider, this expansion increases Aurionpro's addressable market and reinforces its ability to deliver scalable, integrated urban mobility platforms.

**Platform Screen Doors (PSDs)**

Platform Screen Doors (PSDs) are a critical safety and efficiency solution for modern urban rail systems, designed to enhance passenger safety, improve station comfort, and support higher traffic volumes, particularly, in automated and driverless metro networks.

**Sanjay Bali – President, Tech Innovation Group**, said: “We are grateful to Titagarh Rail Systems for placing their trust in Aurionpro Solutions. We are proud to contribute to India’s largest metro rail network in Mumbai. Driven by sustained investments in R&D, Aurionpro has built a strong portfolio of innovative offerings in the smart transit space, complemented by state-of-the-art manufacturing capabilities at our Ghaziabad facility under **AuroToshi**, our subsidiary aligned with the *Make in India* initiative.

We are steadily positioning ourselves as a preferred partner in the urban transit and mobility infrastructure ecosystem, backed by strong capabilities and differentiated offerings. This partnership with Titagarh Rail Systems is particularly significant for us, given their leadership in railway infrastructure, and we see significant potential to jointly address larger market opportunities. I congratulate the entire team on securing this prestigious order, which also brings with it strong economic value.”

#### **About Aurionpro Solutions:**

Aurionpro Solutions Ltd. (BSE: 532668 | NSE: AURIONPRO) is a global enterprise technology leader pioneering intuitive-tech through deep-tech IPs and scalable products. With a strong presence across Banking, Payments, Mobility, Insurance, Transit, Data Centers, and Government Sectors, Aurionpro is setting new benchmarks for AI innovation and impact.
