About RIR Power Electronics Limited

RIR Power Electronics Limited, established in 1969, is India's only manufacturer of Silicon-based power semiconductor devices. Acquired by the Mehta family in 2006 and rebranded in 2023, RIR is led by Dr. Harshad Mehta, a veteran electrical engineer with over five decades of industry experience.

With a fully integrated manufacturing facility in Halol, Gujarat, RIR develops high-power electronic devices and solutions, supporting applications up to 9000 volts and 6000 amperes. The company is a pioneer in power semiconductor innovation, being the only Indian manufacturer with in-house diffusion capabilities.

RIR's technologies play a critical role in sectors such as Green Hydrogen, grid stability, and energy-efficient infrastructure. The company is also establishing India's first Silicon Carbide (SiC) fabrication plant in Odisha, backed by state government incentives, to foster vertical integration and reduce import.
