#### **ENFORCEMENT OF CIVIL LIABILITIES**

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the “**Civil Procedure Code**”). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are

enforceable as a decree or judgment. Among others, the United Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction;
- The judgment has not been given on the merits of the case;
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable;
- The proceedings in which the judgment was obtained are opposed to natural justice;
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

## INTERNAL RISK FACTORS

### **1. We operate in a highly competitive industry.**

We operate in a highly competitive industry. Any inability to compete effectively may lead to a lower market share or reduced operating margins. The manufacturing and Exporter of agriculture gardening industrial tools is fiercely competitive, with numerous participants engaging in similar activities, both within India and internationally. To maintain our competitiveness in the market, we must consistently focus on optimizing our trading processes, reducing costs, enhancing distribution efficiency, and innovating our approach to commodity trading. Failure to do so may negatively impact our market share and overall financial performance.

In the context of our trading activities, we may incur substantial expenses in preparing to meet anticipated customer requirements, which may not be fully recoverable. For instance, the market for agriculture, gardening, and industrial tools is competitive, with customers seeking innovative products that offer greater efficiency, durability, or ease of use. Failure to innovate and keep pace with industry trends can result in loss of market share. Additionally, there is no guarantee that we will remain competitive in terms of technology, trading strategies, and overall service quality to meet our customers' expectations. Future negotiations with significant customers may result in less favorable pricing terms compared to our existing agreements.

Many of our competitors in manufacturing of agriculture, gardening, and industrial tools and trading industry may be larger and benefit from greater economies of scale and operational efficiencies. There is no assurance that we can continue to effectively compete with such entities in the future. High costs associated with research and development (R&D) may not always yield successful products. Unsuccessful R&D efforts can result in sunk costs, impacting the company's financial performance.

### **2. Our insurance coverage may not adequately protect us against certain operating risks and this may have an adverse effect on the results of our business.**

We are insured for a risks associated with our business, through various policies. We believe that we have got our assets and stock adequately insured, however our policy of covering these risks through insurance may not always be effective or adequate, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, to cover all material losses. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business and results of operations could be adversely affected.

### **3. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.**

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our sales channel and to implement systems capable of effectively accommodating our growth. However, we cannot assure that any such employees or marketing agents will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analysis of market conditions and other data or the strategies that we may use in future to use will be successful under various market conditions.

### **4. The purposes for which the proceeds of the Issue are to be utilized have not been appraised by any bank or financial institution. In the event of any upward revision in the estimates, our proposed expenditure would increase which could adversely affect our results of operations, profitability and our ability to effectively implement our business plans.**

We intend to use the proceeds that we receive from the Issue for the purposes described in section "Use of Proceeds" beginning on page 45 of the Letter of Offer. The estimated project cost has not been appraised by any bank or financial institution. The fund requirements are based on management estimates and on current market conditions. In view of the competitive nature of our industry, we may have to revise our management estimates from time to time and consequently our funding requirements may also change. This may result in the rescheduling of our expenditure programs or increase in our proposed expenditure for our objects and which may adversely affect our results of operations profitability and our ability to effectively implement our business plans. Further, the utilization of the proceeds from the Issue will be monitored by our Board and is not subject to any monitoring by any independent agency.

### **5. Our sales are geographically concentrated.**

Our sales are particularly concentrated in Rajkot. Any adverse developments or challenges in selling our products in Gujarat, or a decline in demand from this key market, could disproportionately affect our overall revenue and financial stability. We recognize the importance of diversifying our sales channels to reduce dependency on specific regions and mitigate the risks associated with geographical concentration.

**6. We have high working capital requirements. If we experience insufficient cash flows to meet required payments on our debt and working capital requirements, there may be an adverse effect on our results of operations.**

Our business requires a significant amount of working capital and financing. Presently the company is not availing any working capital facilities from any banks and the same is being met by internal accruals and arrangements. Moreover, we may need to incur additional indebtedness in the future to satisfy our working capital needs. The inability of our Company to obtain such financing, in a timely manner, on commercially favourable terms to us, or at all may impair our business, results of operations, financial condition and prospects. Presently company does not avail any credit facilities from any Banks or Financial Institutions.

**7. Our success depends largely on our senior management and our ability to attract and retain our key personnel.**

Our success depends on the continued services and performance of our senior management. Competition for senior employees in the industry is intense and we may not be able to retain our existing team members or attract and retain new team members in the future. The loss of any member of our key team may adversely affect our business, results of operations and financial condition. We do not maintain key man's life insurance for our Promoters, senior members of our management team or other key personnel.

**8. In addition to normal remuneration or benefits and reimbursement of expenses, our Promoters, our Directors and Key Managerial Personnel are interested in our Company to the extent of their shareholding, and dividend entitlements etc.**

Our Promoters, Directors and Key Management Personnel are deemed to be interested to the extent of the Equity Shares held by them, or their relatives, dividend entitlements, and benefits deriving from the directorship in our Company.

**9. We are exposed to the risk of delays or non-payment by our clients and other counterparties, which may also result in cash flow mismatches.**

We are exposed to counterparty credit risk in the usual course of our business dealings with our clients or other counterparties who may delay or fail to make payments or perform their other contractual obligations. The financial condition of our clients, business partners, suppliers and other counterparties may be affected by the performance of their business which may be impacted by several factors including general economic conditions. We cannot assure you of the continued viability of our counterparties or that we will accurately assess their creditworthiness. We also cannot assure you that we will be able to collect the whole or any part of any overdue payments. Any material non-payment or non-performance by our clients, business partners, suppliers or other counterparties could affect our financial condition, results of operations and cash flows.

**10. Third party industry and statistical data in this Letter of Offer may be incomplete, incorrect or unreliable.**

We have not independently verified data from industry and other publications contained herein and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

## **EXTERNAL RISK FACTORS**

**11. Our business is dependent on the Indian economy.**

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by center or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

**12. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.**

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time-to-time experienced instances of civil unrest and hostilities among neighboring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India, may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in the world, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

**13. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.**

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter “Government and Other Approvals” on page 78 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations.

**14. Instability in financial markets could materially and adversely affect our results of operations and financial condition.**

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE’s benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

**15. Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.**

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

**16. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.**

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

**17. Our performance is linked to the stability of policies and the political situation in India. The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy.**

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India’s current economic and financial sector liberalization and deregulation policies. However, there can be no assurance that such policies will be continued and a significant change in the government’s policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely

affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

## **RISKS RELATING TO THE EQUITY SHARES**

### **18. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.**

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee (s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee (s) prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

### **19. Any future issuance of the Equity Shares, or convertible securities by our Company may dilute your future shareholding and sales of the Equity Shares by our Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.**

Any future issuance of the Equity Shares, or convertible securities by our Company, including through exercise of employee stock options or restricted stock units may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Further, any future sales of the Equity Shares by the Promoters and members of our Promoters Group, or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

### **20. There is no guarantee that our Equity Shares will be listed in a timely manner or at all, and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares.**

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchanges until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future. Secondary market trading in our Equity Shares may be halted by a stock exchange because of market conditions or other reasons. Additionally, an exchange or market may also close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at a particular point in time.

### **21. Holders of Equity Shares could be restricted in their ability to exercise preemptive rights under Indian law and could thereby suffer future dilution of their ownership position.**

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise preemptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

### **22. There may not be an active or liquid market for our Equity Shares, which may cause the price of the Equity Shares to fall and may limit your ability to sell the Equity Shares.**

The price at which the Equity Shares will trade after this Issue will be determined by the marketplace and may be influenced by many

factors, including:

- our financial results and the financial results of the companies in the businesses we operate in;
- the history of, and the prospects for, our business and the sectors in which we compete;
- the valuation of publicly traded companies that are engaged in business activities similar to us; and
- significant developments in India's economic liberalization and deregulation policies.

In addition, the Indian equity share markets have from time to time experienced significant price and volume fluctuations that have affected the market prices for the securities of Indian companies. As a result, investors in the Equity Shares may experience a decrease in the value of the Equity Shares regardless of our operating performance or prospects.

**23. No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.**

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares.

**24. The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.**

In accordance with the SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialized form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

**25. Applicants to the Issue are not allowed to withdraw their Applications after the Issue Closing Date.**

In terms of the SEBI ICDR Regulations, Applicants in the Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in the Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in the Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares.

The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after the Issue or cause the trading price of our Equity Shares to decline.

## SECTION IV: ABOUT OUR COMPANYINDUSTRY OVERVIEW

### Indian Economy Review and Outlook

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 295.36 lakh crores (US\$ 3.54 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US\$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.6% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY24. During the period April-June 2025, India's exports stood at US\$ 109.11 billion, with Engineering Goods (25.35%), Petroleum Products (18.33%) and electronic goods (7.73%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

### MARKET SIZE

Real GDP or GDP at Constant (2011-12) Prices in the year 2023-24 is estimated at Rs. 173.82 lakh crores (US\$ 2.08 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 160.71 lakh crores (US\$ 1.92 trillion). The growth in real GDP during 2023-24 is estimated at 8.2% as compared to 7.0% in 2022-23. There are 113 unicorn startups in India, with a combined valuation of over US\$ 350 billion. As many as 14 tech startups are expected to list in 2024 Fintech sector poised to generate the largest number of future unicorns in India. With India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time periods. India's current account deficit (CAD) narrowed to 0.7% of GDP in FY24. The CAD stood at US\$ 23.2 billion for the 2023-24 compared to US\$ 67.0 billion or 2.0% of GDP in the preceding year. This was largely due to decrease in merchandise trade deficit.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr.

Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030..

## ROAD AHEAD

In the second quarter of FY24, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than the same period last year. In the budget of 2023-24, capital expenditure took lead by steeply increasing the capital expenditure outlay by 37.4 % in BE 2023-24 to Rs.10 lakh crore (US\$ 120.12 billion) over Rs. 7.28 lakh crore (US\$ 87.45 billion) in RE 2022-23. The ratio of revenue expenditure to capital outlay increased by 1.2% in the current year, signalling a clear change in favour of higher-quality spending. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels. In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).

Since India's resilient growth despite the global pandemic, India's exports climbed at the second-highest rate with a year-over-year (YoY) growth of 8.39% in merchandise exports and a 29.82% growth in service exports till April 2023. With a reduction in port congestion, supply networks are being restored. The CPI-C inflation reduction from June 2022 already reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

## AGRICULTURAL, GARDENING AND INDUSTRIAL TOOL INDUSTRY REVIEW AND OUTLOOK

### INDIA

#### Market Trends:

- **Domestic Growth:** The Indian market for agricultural and gardening tools is expected to grow steadily, driven by increasing mechanization

in agriculture. With government initiatives like the Pradhan Mantri Krishi Sinchai Yojana (PMKSY) and the focus on doubling farmers' income, demand for efficient tools is set to rise.

- **Sustainability and Innovation:** Indian manufacturers are increasingly focusing on producing eco-friendly and energy-efficient tools, catering to both domestic needs and global demand. The adoption of green technologies in manufacturing is gaining momentum, partly due to rising environmental awareness and government regulations.
- **Export Opportunities:** India's export of agricultural tools is expected to grow as it becomes a hub for affordable yet high-quality products. The country's competitive pricing, coupled with increasing quality standards, positions it well in markets like Africa, Southeast Asia, and Latin America.

#### Challenges:

- **Supply Chain Disruptions:** The Indian manufacturing sector is still grappling with supply chain challenges, particularly in the procurement of raw materials and components. This could impact production timelines and costs.
- **Technology Adoption:** While there is a push towards modernization, many small and medium enterprises (SMEs) in India still lag in adopting advanced manufacturing technologies like automation and AI, which could slow down overall industry growth.
- **Outlook:** The Indian market is expected to grow at a healthy pace, supported by government policies, increased mechanization in agriculture, and expanding export markets. However, overcoming challenges related to supply chain and technology adoption will be crucial for sustaining growth.

### GLOBAL

#### Market Trends:

- **Automation and Industry 4.0:** Globally, the manufacturing of agricultural, gardening, and industrial tools is being revolutionized by Industry 4.0 practices. Automation, real-time data analytics, and AI are enhancing production efficiency and product quality. These trends are particularly strong in developed markets like the U.S., Europe, and Japan.
- **Sustainability:** There is a significant global push towards sustainable manufacturing practices. Companies are adopting greener production methods and focusing on reducing carbon footprints. This trend is especially prominent in Europe, where stringent environmental regulations are driving change.
- **Market Diversification:** As developed markets become saturated, manufacturers are increasingly targeting emerging markets in Asia, Africa, and Latin America. These regions offer significant growth potential due to rising disposable incomes and a growing focus on agricultural efficiency.

#### Challenges:

- **Global Trade Tensions:** Ongoing trade tensions, particularly between major economies like the U.S. and China, continue to impact global supply chains and market access. Manufacturers may face higher tariffs and non-tariff barriers, which could affect profitability.
- **Supply Chain Disruptions:** The global manufacturing sector is still recovering from disruptions caused by the COVID-19 pandemic, with challenges such as shipping delays, raw material shortages, and fluctuating costs persisting into 2024.

#### Outlook:

The global outlook for the manufacturing and export of agricultural, gardening, and industrial tools remains positive. Growth will be driven by technological advancements, increasing demand for sustainable products, and the expansion of emerging markets. However, companies will need to navigate challenges related to trade tensions and supply chain disruptions to capitalize on these opportunities.

### MAJOR EXPORT DESTINATIONS

- **United States:** The U.S. is one of the largest markets for Indian agricultural and industrial tools. Indian manufacturers cater to the U.S. market with competitively priced, high-quality products.
- **European Union:** Indian exports of tools to the EU are significant, with the UK, Germany, and the Netherlands being key markets. The demand is driven by the EU's robust agricultural sector and stringent quality standards, which Indian manufacturers are increasingly meeting.
- **Africa:** African countries are emerging as significant markets for Indian agricultural tools, particularly in regions like East Africa (Kenya, Tanzania) and West Africa (Nigeria, Ghana). The affordability and durability of Indian tools make them popular in these growing markets.
- **Middle East:** The Middle East is another important region for Indian exports, with countries like the UAE, Saudi Arabia, and Iran importing a range of agricultural and industrial tools from India.

- Southeast Asia: Countries like Indonesia, Malaysia, and Thailand import a considerable volume of agricultural tools from India. The geographical proximity and growing agricultural sectors in these countries drive the demand for Indian products.

## GOVERNMENT INITIATIVES

### INDIA

#### **Production Linked Incentive (PLI) Scheme:**

The PLI scheme, which was extended to various sectors, aims to boost domestic manufacturing by providing financial incentives to companies that meet certain production targets. Although it initially focused on sectors like electronics and automotive, there are discussions about expanding it to include agricultural tools and machinery. This would help boost the production and export capabilities of Indian manufacturers in this sector.

#### **Atmanirbhar Bharat (Self-Reliant India):**

As part of the broader Atmanirbhar Bharat initiative, the Indian government has been promoting local manufacturing across various sectors, including agricultural and industrial tools. This initiative includes subsidies, easier access to credit, and tax incentives for domestic manufacturers, aiming to reduce dependency on imports and enhance export potential.

#### **Agricultural Infrastructure Fund (AIF):**

The AIF scheme, which provides a medium-long term debt financing facility for investment in viable projects for post-harvest management infrastructure and community farming assets, indirectly supports the demand for agricultural tools and equipment. This, in turn, boosts manufacturing and export opportunities for Indian companies in this sector.

#### **Export Promotion Initiatives:**

The Indian government has launched several export promotion initiatives under schemes like the Merchandise Exports from India Scheme (MEIS) and the newly launched Remission of Duties and Taxes on Exported Products (RoDTEP) scheme. These initiatives aim to make Indian products more competitive in the global market by offsetting various taxes and duties.

## GLOBAL INITIATIVES

#### **Trade Agreements and Tariff Reductions:**

Various countries are engaging in trade agreements that lower tariffs on industrial goods, including agricultural and gardening tools. For example, the European Union and countries like Japan and Canada have entered into free trade agreements that benefit manufacturers by reducing export costs and opening up new markets.

#### **Sustainability Initiatives:**

Governments around the world, particularly in Europe, are pushing for sustainable manufacturing practices. This includes the adoption of cleaner technologies and processes in the production of industrial tools. These initiatives are often supported by grants and subsidies for manufacturers that invest in green technologies, which can enhance their export appeal in environmentally-conscious markets.

#### **Industry 4.0 and Digitalization:**

Many governments, especially in advanced economies like Germany and Japan, are promoting the adoption of Industry 4.0 practices through subsidies and grants. This includes the use of automation, AI, and digital twin technologies in manufacturing. By enhancing production efficiency and reducing costs, these initiatives help manufacturers remain competitive globally.

#### **U.S. Manufacturing Extension Partnership (MEP) Program:**

In the United States, the MEP program supports small and medium-sized manufacturers by providing them with access to services that can help improve productivity, enhance technology adoption, and boost export capabilities. This program is particularly beneficial for manufacturers of specialized industrial tools.

These initiatives, both in India and globally, are geared toward enhancing the manufacturing and export potential of companies involved in the production of agricultural, gardening, and industrial tools. They provide financial incentives, technological support, and market access opportunities that are critical for growth in 2023-2024.

### **DETAILS OF THE MARKET**

The Indian market for agricultural, gardening, and industrial tools is substantial, driven by the country's vast agricultural sector and growing industrial base. The agricultural tools market is particularly significant, as agriculture contributes around 17-18% to India's GDP and employs about 50% of the workforce. The increasing mechanization of farming and the expansion of small-scale farming practices have led to a steady demand for agricultural tools.

**Agricultural Tools:** The demand for agricultural tools such as tillers, plows, sprayers, and seed drills has been rising due to the push towards mechanization. The market is projected to grow steadily as the government continues to promote modern farming techniques through various schemes and subsidies.

**Gardening Tools:** The gardening tools market in India is growing, albeit at a slower pace compared to agricultural tools. The rise in urban gardening and landscaping, along with increased consumer interest in home gardening, has driven demand. This segment includes products like pruners, shears, and lawnmowers.

**Industrial Tools:** India's industrial tools market is growing due to the expansion of the manufacturing sector, infrastructure development, and the "Make in India" initiative. Tools such as wrenches, drills, and cutting instruments are in demand across various industries, including automotive, construction, and heavy machinery.

The Ind AS Financial Results for the year ended March 31, 2025 has been compiled from the related audited interim financial information. This responsibility includes the preparation and presentation of the Ind AS Financial Results for the quarter and year ended March 31, 2025 that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Results that give a true and fair view and is free from material misstatement, whether due to fraud or error.

F-2

In preparing the Ind AS Financial Results, the Board of Directors are responsible for assessing the Company's ability, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibility for the Audit of the Ind AS Financial Results**

##### **(a) Audit of the Ind AS Financial Results for the year ended March 31, 2025**

Our objectives are to obtain reasonable assurance about whether the Ind AS financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the Ind AS financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.

F-3

5. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
6. Evaluate the overall presentation, structure and content of the Ind AS financial results, including the disclosures, and whether the Ind AS financial results represent the underlying transactions and events in a manner that achieves fair presentation.
7. Obtain sufficient appropriate audit evidence regarding the Annual Ind AS Financial Results of the Company to express an opinion on the Annual Financial Results.

Materiality is the magnitude of misstatements in the Annual Ind AS Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Annual Ind AS Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Annual Ind AS Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**(b) Review of the Ind AS Financial Results for the quarter ended March 31, 2025**

We conducted our review of the Ind AS Financial Results for the quarter ended March 31, 2025 in accordance with the Standard on Review Engagements ("SRE") 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the ICAI. A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with SAs specified under section 143(10) of the Act and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

F-4

**Other Matters**

The Statement includes the results for the Quarter ended March 31, 2025 being the balancing figure between audited figures in respect of the full financial year and the published year to date figures up to the third quarter of the current financial year which were subject to limited review by us. Our report on the Statement is not modified in respect of this matter.

**(B) FAIR VALUE HEIRARCHY**

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. The Company has made certain judgements and estimates in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company as classified the financial instruments into three levels prescribed under the accounting standard. An explanation of each level is as follows:

Level 1: Level 1 of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Level 2 heirarchy includes financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: If one or more of the significant inputs is not based on the observable market data, the instrument is included in Level 3 heirarchy.

**Galaxy Agrico Exports Limited**  
**Notes to Financial Statements for the period ended March 31, 2025**

**(C) VALUATION TECHNIQUES**

Specific valuation techniques used to value financial instruments include

- the use of quoted market prices for mutual funds
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis or such other acceptable valuation methodology, wherever applicable

There are no items in the financial instruments, which required level 3 valuation.

**Note: 37 Capital Management**

The company policy is to have robust financial base so as to maintain outsider's confidence and to sustain future development of the business. Management monitors the return on capital, as well as level of dividends to equity shareholders. The company monitors capital using a ratio of "adjusted net debt" to "equity". For this purpose, adjusted net debt is defined as total liability, comprising interest-bearing loans and borrowing, less cash and cash equivalents. Total Equity includes the share capital, other equity.

The capital gearing ratio is as follows:

Particulars	31-Mar-25	31-Mar-24

**Note: 38 Financial Risk Management**

The Company's business activities are exposed to a variety of financial risks, viz liquidity risk, market risk and credit risk. The Management of the Company has the overall responsibility for establishing and governing the Company's risk policy framework. The risk management policies are formulated after the identification and analysis of the risks and suitable risk limits and controls are set which are monitored & reviewed periodically. The changes in the market conditions and allied areas are accordingly reflected in the changes of the policy. The key risks and mitigating actions are placed before the Audit Committee of the Company who then evaluate and take the necessary corrective action. The sources of risk, which the Company is exposed to and how the Company manages these risks with their impact on the Financial Statements is given below:

<b>Risk</b>	<b>Exposure from</b>	<b>Measurement</b>	<b>Management</b>
Credit risk	Trade receivables, Cash and cash	Aging analysis, Credit ratings	Credit limits and bank guarantees
Liquidity risk	Borrowings, Trade payables and other liabilities	Cash flow budgeted Vs actuals	Availability of committed credit lines and borrowing facilities
Market risk - Interest rate	Long-term borrowings at variable interest rates	Sensitivity analysis	The management monitors the rates of interests and continues to evaluate refinancing of debts at lower rates of interest on a regular basis.

**[A] Credit risk**

Credit risk is the risk of financial loss to the Company if the counterparty fails to meet its contractual obligations. The Company is exposed to credit risk from its operating activities (primarily trade receivables). However, the credit risk on account of financing activities, i.e., balances with banks is very low, since the Company holds all the balances with approved bankers only.

**Trade receivables**

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the customers outstanding balances to which the Company grants credit terms in the normal course of business. Concentration of credit risk with respect to trade receivables are limited, as the Company's customer base is large, reputed and having good credit credential as well as that they are long standing customers. All trade receivables are reviewed and assessed for default on a quarterly basis. Historical experience of collecting receivables of the Company is supported by low level of past default and hence the credit risk is perceived to be low.

**[B] Liquidity risk**

Liquidity risk is the risk the Company faces in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, Management considers both normal and stressed conditions.

**Maturities of financial liabilities**

The below table analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities. The amounts disclosed in the table are contractual undiscounted cash flows, balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

**[C] Market risk**

The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Interest rate risk

The above risk may affect the Company's income and expenses, or the value of its financial instruments.

**Interest rate risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

The Company classifies its financial assets in the following measurement categories:

- (1) those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

**(ii) Measurement**

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

**Debt instruments:**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

(1) **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method.

(2) **Fair value through profit and loss:** Assets that do not meet the criteria for amortized cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

**Equity instruments:**

The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss. However where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income (Currently no such choice made), there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the Statement of Profit and Loss.

**(iii) Impairment of financial assets**

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

**(iv) Income recognition**

**Interest income**

Interest income from debt instruments is recognized using the effective interest rate method.

**Dividends**

Dividends are recognized in the Statement of Profit and Loss only when the right to receive payment is established.

**(I) Impairment of non-financial assets**

Property, plant and equipments (PPE) and intangible assets (IA) that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**(m) Non-current assets held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

Non-current assets are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a Disposal Company classified as held for sale continue to be recognized.

**(n) Derivative financial instruments**

Derivative financial instruments such as forward contracts, option contracts and cross currency swaps, to hedge its foreign currency risks are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognized in the Statement of Profit and Loss in the period when they arise.

**(o) Segment Reporting:**

Geographical segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

**(p) Borrowings**

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income.

Preference shares, which are mandatorily redeemable on a specific date are classified as liabilities. The dividend on these preference shares is recognised in Statement of Profit and Loss as finance costs.

**(q) Borrowing costs**

Interest and other borrowing costs attributable to qualifying assets are capitalized. Other interest and borrowing costs are charged to Statement of Profit and Loss.

**(r) Provisions and contingent liabilities**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

**(ii) Other long-term employee benefit obligations**

The liabilities for earned leave and sick leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the Government Securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the Statement of Profit and Loss.

**(iii) Post-employment obligations**

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund.

**Gratuity obligations**

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

**(v) Income tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realized or the deferred income tax liability is settled.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty

exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Referred to in point g. of the section Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report of even date to the members of Galaxy Agrico Exports Ltd on the financial statements for the year ended March 31, 2024**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

In conjunction with our audit of the financial statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls over the financial reporting of Galaxy Agrico Exports Ltd ("the Company") as of that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect of financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

According to the information and explanations given to us and based on our audit, the following material weakness(es) have been identified as at March 31, 2024:

- a. The Company did not have appropriate internal controls for reconciliation of physically inventory with the inventory records, which can result in misstatement of inventory values in the books of account.
- b. The Company does not have an internal process to report deficiencies in internal control to management on a timely basis.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

We have considered the material weakness(es) identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2024 financial statements of the Company, and these material weakness(es) does not affect our opinion on the financial statements of the Company.

**(B) FAIR VALUE HEIRARCHY**

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. The Company has made certain judgements and estimates in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company as classified the financial instruments into three levels prescribed under the accounting standard. An explanation of each level is as follows:

Level 1: Level 1 of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Level 2 heirarchy includes financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: If one or more of the significant inputs is not based on the observable market data, the instrument is included in Level 3 heirarchy.

**(C) VALUATION TECHNIQUES**

Specific valuation techniques used to value financial instruments include

- the fair value of the remaining financial instruments is determined using discounted cash flow analysis or such other acceptable valuation methodology, wherever applicable

Total Equity includes the share capital, other equity.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its loss, total comprehensive loss, its cash flows and changes in equity for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no other key audit matters to communicate in our report except as stated in Emphasis of Matter below.

**Emphasis of Matter**

The Company's management is responsible for carrying out the inspection of its fixed assets on a regular basis. We have not independently verified the fixed assets of the Company during the year under review. Any adjustment to the value of the fixed assets as appearing in the balance sheet of the Company may have an effect on the loss and net assets of the Company for the period and year ended March 31, 2023.

The Company's management is responsible for carrying out the inspection of its inventories on a regular basis. We have not independently verified the inventories of the Company during the year under review. Any adjustment to the value of inventories as appearing in the balance sheet of the Company may have an effect on the loss and net assets of the Company for the period and year ended March 31, 2023.

The Company's management is responsible for carrying out the balance confirmation and reconciliations with various debtors, creditors and advances. These have not been independently verified by us during the year under review. Any adjustment to the value of such balances as appearing in the balance sheet of the Company may have an effect on the loss and net assets of the Company for the period and year ended March 31, 2023.

Our opinion is not modified in respect of this matter.

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibility of Management for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the

Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

**Referred to in point f. of the section Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report of even date to the members of Galaxy Agrico Exports Limited on the Ind AS financial statements for the year ended March 31, 2023**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

In conjunction with our audit of the Ind AS financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over the financial reporting of **Galaxy Agrico Exports Limited** ("the Company") as of that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect of Ind AS financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

According to the information and explanations given to us and based on our audit, the following material weakness(es) have been identified as at March 31, 2023:

- a. The Company has not carried out an inspection of its fixed assets and has not maintained a register of fixed assets during the year under review.
- b. The Company has not carried out an inspection of its inventories during the year under review.
- c. The Company does not have an internal process to report deficiencies in internal control to management on a timely basis.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim Ind AS financial statements will not be prevented or detected on a timely basis.

We have considered the material weakness(es) identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2023 Ind AS financial statements of the Company, and these material weakness(es) do not affect our opinion on the Ind AS financial statements of the Company.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

**Depreciation methods, estimated useful lives and residual value**

**(d) Investment properties**

**As a lessor**

**(k) Investments and other financial assets**

**(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- (1) those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

**(ii) Measurement**

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

**Debt instruments:**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

(1) **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method.

(2) **Fair value through profit and loss:** Assets that do not meet the criteria for amortized cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

**Equity instruments:**

The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss. However where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income (Currently no such choice made), there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the Statement of Profit and Loss.

**(iii) Impairment of financial assets**

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

**(iv) Income recognition**

**Interest income**

Interest income from debt instruments is recognized using the effective interest rate method.

**Dividends**

Dividends are recognized in the Statement of Profit and Loss only when the right to receive payment is established.

**(i) Impairment of non-financial assets**

Property, plant and equipments (PPE) and intangible assets (IA) that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**(m) Non-current assets held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

Non-current assets are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a Disposal Company classified as held for sale continue to be recognized.

**(n) Derivative financial instruments**

Derivative financial instruments such as forward contracts, option contracts and cross currency swaps, to hedge its foreign currency risks are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognized in the Statement of Profit and Loss in the period when they arise.

**(o) Segment Reporting:**

Geographical segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

**(p) Borrowings**

Borrowings are initially recognised at net of transaction costs incurred and measured at mortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income.

Preference shares, which are mandatorily redeemable on a specific date are classified as liabilities. The dividend on these preference shares is recognized in Statement of Profit and Loss as finance costs.

**(q) Borrowing costs**

Interest and other borrowing costs attributable to qualifying assets are capitalized. Other interest and borrowing costs are charged to Statement of Profit and Loss.

**(r) Provisions and contingent liabilities**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

**(s) Revenue recognition**

Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, discounts, loyalty discount, value added taxes and amounts collected on behalf of third parties.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

**(t) Employee benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

**(ii) Other long-term employee benefit obligations**

The liabilities for earned leave and sick leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the Government Securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the Statement of Profit and Loss.

**(iii) Post-employment obligations**

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund.

**Gratuity obligations**

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

**Defined Contribution Plans**

Defined Contribution Plans such as Provident Fund etc., are charged to the Statement of Profit and Loss as incurred. The Company has an obligation to make good the shortfall, if any.

The Company recognizes termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the Company recognizes costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

**(u) Foreign currency translation**

**(i) Functional and presentation currency**

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

**(ii) Transactions and balances**

Transactions in foreign currencies are recognized at the prevailing exchange rates on the transaction dates. Realized gains and losses on settlement of foreign currency transactions are recognized in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

**(v) Income tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity respectively

- the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

**Diluted earnings per share**

A diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

-the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

-the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**(x) Government Grants**

Grants from the government are recognized at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on a straight - line basis over the expected lives of related assets and presented within other income.

The Company classifies separately manufacturing and operating expenses which are directly linked to manufacturing and service activities of the group.

**Amendments to Ind AS 7, 'Statement of cash flows' on disclosure initiative:**

The amendment to Ind AS 7 introduces an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities. This includes changes arising from cash flows (e.g. draw downs and repayments of borrowings) and non-cash changes (i.e. changes in fair values), Changes resulting from acquisitions and disposals and effect of foreign exchange differences. Changes in financial assets must be included in this disclosure if the cash flows were, or will be, included in cash flows from financing activities. This could be the case, for example, for assets that hedge liabilities arising from financing liabilities. The Company has currently assessed the potential impact of this amendment.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2017 (“**FDI Circular 2017**”), which, with effect from August 28, 2017, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2017 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The Consolidated FDI Policy, issued by the DIPP, consolidates the policy framework in place as on August 27, 2017, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.
