PURPOSE

When an organisation aligns around a common purpose, great things happen. At HSIL, we find purpose in our strive to enrich the lives of customers and grow profitably and sustainably; and this purpose guides every decision we make and is reflective of who we are.

PERFORMANCE

We are steadily enhancing our performance across key focus areas by building scale, adopting green technologies, introducing cutting-edge innovative products and implementing best practices across our manufacturing facilities.

QUALITY

On the path to enduring growth, we are actively working to further improve quality and efficiency in our operations. We are exploring areas where digitalisation can help us achieve greater safety and increase productivity of our teams, while reducing operational costs. In doing so, we are also increasingly emphasising the reduction, reuse and recycling of resources and contributing to a more sustainable world.

Grounded in the three tenets of purpose, performance and quality, the pursuit of excellence is a way of life for us. It provides the firepower to our ambition to excel every day, delight our customers for decades and add new chapters to our legacy.

With the global pandemic impacting lives, livelihoods and businesses, a new normal is now upon us and as a leaner, more agile and flexible organisation, we are confident that HSIL will not just survive, but also thrive. We are committed to strengthen our business continuity plan, engage more with customers and business partners to craft strategies for the future; and above all, support the communities we work with in the best way we can.

REVENUE BREAK-UP

Welcome to Our World

We are active in two distinct divisions: manufacturing, marketing and distribution of Packaging Products; and manufacturing of Building Products. We are the pioneers of quality vitreous china sanitaryware production in India.

HSIL was founded in 1960 as Hindusthan Twyford Limited, in technical collaboration with Twyford, United Kingdom to establish the first vitreous china sanitaryware manufacturing company in India. Our Company structure¹ today, provides a stable foundation and strong platform for continued long-term and sustainable growth in a market in transition. Through our business divisions, we provide products that help make people's lives more comfortable and convenient.

Excellence isn't just a fixed goal at HSIL. It's a continuous quest to improve ourselves and our performance. And we strongly believe that our Company can be a force for good. By using our scale and leadership, we work to create value and make a difference for our customers and other stakeholders.

¹Note: Demerged the marketing and distribution of our Consumer Products and Retail divisions, to Somany Home Innovation Limited (SHIL), as a scheme of arrangement. Further, the marketing and distribution of Building Products have been demerged and vested to Brilloca Limited, a wholly-owned subsidiary of SHIL.

Welcome to Our World

Introducing our business divisions

PACKAGING PRODUCTS

We manufacture and market various packaging products, including glass containers and Polyethylene Terephthalate (PET) bottles and products and security caps and closures. These products cater to various industries like alcoholic and non-alcoholic beverages, fast-moving consumer goods, retail, pharmaceuticals and edible oil amongst other.

We have two glass container facilities at Hyderabad and Bhongir in Telangana, one crushing plant (mines) facility at Motighanapur, three PET bottles and products facilities at Selaqui in Uttarakhand, Dharwad in Karnataka and Sangareddy in Telangana, and one security caps and closures facility at Sangareddy in Telangana. Each plant is equipped with cutting-edge technologies and implements advanced quality management processes like Six Sigma, Total Productive Maintenance, Kaizen, Total Quality Management – helping deliver world-class products, optimise costs and achieve consistent quality.

BUILDING PRODUCTS

Our Building Products division primarily comprises the manufacturing of sanitaryware, faucets and plastic pipes and fittings.

We are one of India's leading manufacturer of state-of-the-art sanitaryware and faucets, whereas in the plastic pipes and fittings segment, we are creating a niche for ourselves with our quality products. Each business segment is driven by innovation and aesthetically distinctive and functionally advanced products. Our product lines are in sync with emerging technologies, customer aspirations and demands.

We have two sanitaryware plants at Bahadurgarh in Haryana and Bibinagar in Telangana, two faucet plants at Kaharani and Bhiwadi (under temporary shutdown) in Rajasthan and one plastic pipes and fittings plant at Sangareddy in Telangana. Complementing our manufacturing plants, our in-house R&D team helps inject a higher degree of innovation in our products.

MISSION

Helping our customers adopt a comfortable, luxurious and sustainable lifestyle while fostering innovation has been our aim at HSIL.

CORE PURPOSE

Passionately strive to enrich customers' quality of life, thereby enhancing stakeholder's value.

Chairman's Statement

DEAR SHAREHOLDERS,

In my last letter to you, I had dwelt extensively on how the relentless pursuit of excellence has been a value multiplier for us for over six decades. This year too, I intend to reiterate on the same guiding philosophy and inspiration. You may ask, why is that so? My simple answer is that as a company, we follow an abiding commitment to excellence.

Our strategies over the years may differ, as the macro environment suggests, but the commitment to excellence remains enduring. At HSIL, we are crafting an inspiring legacy of excellence, which when looked at a granular level translates into an urgent call to ceaseless action, innovation and forward movement.

We know our journey will seldom be smooth sailing; there will always be unpredictable storms trying to deflect our course. We are operating in a sluggish macroeconomic environment, where global growth prospects will continue to remain fragile to downside risks. Headwinds, however, can be best addressed by concerted efforts and measured optimism. Measured because we must constantly assess where our Company is heading towards, or if there is a need for course correction; and optimism, along with dynamism is the only Holy Grail to move forward.

We are all aware that the COVID-19 outbreak has impacted global economies and businesses in a manner that we have not seen before. There are going to be further hurdles in the coming few months, before the economy reboots and revives itself. We wholeheartedly welcome the Government of India's economic stimulus package of ~₹ 20 lakh crore to help support businesses and the lives and livelihoods of millions of people, especially the disadvantaged sections of society. I must also praise the Reserve Bank of India's (RBI's) role in enhancing the liquidity in the economy through aggressive interest rate cuts and temporary moratorium on loans to help cushion the hardship faced by citizens and small businesses.

Although the nation-wide lockdown has impacted our businesses, we are keeping a close watch on the evolving scenario, and I can assure you that based on current market conditions, the Company currently has enough liquidity within its undrawn banking limits to service its debt and other financing arrangements.

Other than the sudden COVID-19 challenge, the financial year 2019-20 was a rather satisfying year for us. Our customer centricity continued to be the cornerstone of our success during the reporting period. We delivered value with speed and cost-efficiency, along with sustainable resource management.

At HSIL, sustainability and operational priorities are closely interwoven. Our manufacturing capabilities remain best-in-class and can match efficiency benchmarks of any advanced country of the world. We are consistently working on surpassing our quality benchmarks, incorporating global best practices in manufacturing and upskilling our team members.

Most of you are already aware that our plastic pipes and fittings and counterfeit-resistant security caps and closures manufacturing plants at Telangana comply with green building norms and have received the platinum rating by the Indian Green Building Council (IGBC). Our plants have achieved a very high watermark benchmark in terms of manufacturing capabilities, waste management and water management (zero-water discharge). You will be glad to know that we have embedded sustainability even in our factory design. Our other measures comprise ensuring energy and water conservation with process waste being collected and reused.

As you know, our demerger was a strategic move to enhance capabilities, create future-focused institutions of excellence and unleash stakeholder value. The aim is to accomplish the next orbit of growth. Following the demerger which got approved by the Hon'ble Kolkata Bench of National Company Law Tribunal vide its order dated 26 June 2019, HSIL is now manufacturing and selling Packaging Products, which offer a comprehensive basket (glass containers, PET bottles and products and security caps and closures); and also houses the manufacturing of Building Products businesses (sanitaryware, faucets and plastic pipes and fittings).

Our Packaging Products division saw encouraging growth on the back of growing sales volume and pricing, while effectively managing costs. Through pricing, product innovation and ongoing efficiency efforts, we could offset higher-than-expected raw material and logistics cost. At the heart of our success is our value proposition – the best results at the lowest total cost and environmental impact for our customers. During FY 2019-20, we witnessed growth across both our packaging and plastic pipes and fittings manufacturing businesses, along with better realisations.

Going forward, we see significant opportunities for our Packing Products businesses to create value for our discerning customers by offering efficient packaging solutions aligned to their needs. In the Building Products manufacturing businesses, our focus remains relentless on achieving optimum utilisation of capacities and better efficiencies. We will continue to invest to deliver more value to our customers and communities and sharpen our focus on our core businesses.

Our core purpose is to passionately strive to enrich the customers' quality of life; and over the years we have evolved a talented team of highly motivated go-getters, who continue to deliver on our purpose, keeping the customer at the heart of all initiatives. We are investing proactively in nurturing our talent pool and enabling them to shoulder more responsibilities and embrace a greater measure of challenges. Our people provide us with the best competitive advantage; and we will continue to sharpen the skills of our human assets, as we equip ourselves for the third decade of the twenty-first century.

Holistic excellence cannot flourish without the participation of the community. Our approach is participatory growth that takes into account the interests and addresses the concerns of community stakeholders. We are committed to community welfare and undertake various programmes around hygiene and sanitation, healthcare, skill development, women empowerment, education and disaster management.

Before I conclude, it is pertinent to mention that our initiatives for decades have made us an even more efficient, effective company for the long term, and improved our profitability curve and growth potential. Over the years, we have accomplished many milestones, but the journey continues. HSIL's message is simple: Excellence can't wait. HSIL celebrates excellence every day, and I am happy to know that we remain a company that our shareholders, customers, our team, can count on, today and in the years to come.

Thank you for your trust.

Warm regards,

DR. RAJENDRA KUMAR SOMANY
Chairman and Managing Director

Vice-Chairman and Managing Director's Insight

"We continue to be an agile, profitable, and sustainable business, and with your trust and support we will scale new heights in the years ahead."

DEAR SHAREHOLDERS,

We are prepared to confront challenges and seek opportunities with more resilience and tenacity, as the operating scenario continues to be uncertain. I will reiterate what I had said in my last year's address to you that we see adversity as a 'positive harbinger of change' that motivates us to try harder, think smarter and drive 360-degree innovation across products and services, processes, customer engagements and relationships with all stakeholders, encapsulating our 'excellence every step of the way' philosophy.

We are confident that our 60 years-rich legacy, technology-enabled expertise and focus on sustainable business practices will hold us in good stead, despite headwinds. We are now consolidating our capabilities and gradually taking the Company to its next growth phase. FY 2019-20 too saw us putting significant emphasis on rationalising our cost structure and enhancing liquidity to generate strong cash flow in the business.

COMBATING HEADWINDS RELENTLESSLY

Our revenue from operations for FY 2019-20 stood at ₹ 1,859 crore vis-à-vis ₹ 1,605 crore in FY 2018-19, despite the COVID-19 outbreak during in the last quarter of FY 2019-20, vindicating yet again the fact that our unwavering focus on excellence is helping us enhance our financial performance. Our continued emphasis on operational excellence and resilience against headwinds is reflected in the strong financial results we achieved for our shareholders. Despite challenges, our EBITDA for the year stood at ₹ 291 crore compared to ₹ 213 crore in FY 2018-19, reflecting a growth of ~37%. Our growth in EBITDA, demonstrates our capability to create margin-accretive products that are industry leading. I should also emphasise that our net profit during the reporting year stood at ₹ 48.42 crore, compared to ₹ 15.27 crore last year, which reflects our emphasis on streamlining operations, controlling costs, seeking new revenue streams and launching margin-accretive products.

Although our overall performance during the reporting year was impacted owing to industry volatility, economic headwinds and tepid consumer confidence – further exacerbated by COVID-induced nation-wide lockdown and consequent disruption in supply chain – we continue to focus on creating sustained value for stakeholders with a long-term vision. This, we are doing by strengthening our R&D initiatives, manufacturing capabilities and supply chain – the reliable conduits of our core competitiveness and customer value creation. Also, engaging more with customers and business partners, and finding innovative ways of working and learning from each other's experiences and insights remain our priority.

In an increasingly volatile context and constantly shifting consumer behaviour and intensifying competition, we are continuously adapting and transforming to stay ahead of our game. Our core values continue to anchor our overarching culture and operations. We are committed to sharpen our strategies to achieve stable financial outcomes for our shareholders, while continuing to invest in our future. Going forward, our demerger will help us further streamline our capabilities and focus more on future priorities.

We will continue to focus more on developing and supporting indigenous talent and skills in our business ecosystem as well as in our community outreach. Our people are at the heart of everything we do. The diversity of their expertise and professional background helps enrich our culture and brings greater agility and adaptability in an increasingly volatile context.

DIVISIONAL PERFORMANCE

Our Packaging Products division saw robust demand, and our revenues during the year grew by over 13% to ₹ 1,242 crore in FY 2019-20. We undertook significant modernisation and cost reduction measures during the reporting year. We also explored new export markets to widen our geographic presence and expanded our product portfolio. We introduced a new brand in the B2C space, Greendrop Glassware, the bottles under the brand are free from BPA, toxins, chemicals and lead, making them the safest and most durable choice for consumers.

In the PET bottles and products segment, we are strengthening our market reach and offering innovative products to diverse industries. We forayed into the flavoured drink market and have designed innovative Child Resistant Caps (CRC) which are well received by the market.

Our security caps and closures segment is progressing well through better capacity utilisation, addition of more export markets and innovative offerings. Our sustainable manufacturing practices have set a new benchmark in the industry, as we have the first IGBC platinum-rated facility in the Indian caps and closures market.

Our Building Products division saw over 24% revenue growth in FY 2019-20, which stood at ₹ 610 crore. Following the demerger, we now manufacture and sell the building products on contract basis. This strategy has enabled us to build on our legacy of excellence and unlock

enhanced value for all stakeholders. We are focusing on robotics and automation to reduce the level of human intervention; and enhance quality and consistency of our Building Products. We will continue to strengthen our product portfolio and maintain our leading position in the segment.

We ventured into the plastic pipes and fittings segment in FY 2018-19, as it is a natural extension of our portfolio of bathroom product streams from 'front of wall' to 'behind the wall'. To ensure product and technological dominance in the markets in which we operate, we entered into an alliance with Japan's Sekisui Chemical Co. Ltd., a 70-year-old ~US\$10.43 billion turnover company, for the supply of Chlorinated Polyvinyl Chloride (CPVC) resin to ensure we offer best-in-class products in the Indian market. The plant complies with the green building norms laid down by the IGBC and is the first platinum-rated green plant in this sector. Our commitment to environment conservation continues to be an integral part of our strategy.

COMMITTED TO ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG)

The COVID-19 pandemic has brought to the fore with unambiguous clarity the relevance of ESG in the way we all look at business operations. ESG needs to be an integral part of the value creation model of all businesses in the post-COVID-19 era. We have integrated ESG in our day-to-day operations with focus on reducing our environment footprint by optimising the utilisation of resources, caring for the health and safety of our people and supporting community wellbeing through transparent and ethical business practices. And in all that we do, we are guided by our strong culture of governance.

EXCELLENCE IS A MOVING TARGET

We have the right leadership to inculcate our culture of excellence in our teams and handhold our colleagues to achieve their full potential. Excellence for us is a moving target, and we are committed to our legacy of excellence, no matter what the challenges are.

Amidst the escalating global health crisis, we are doing our best to support our people, business partners, customers and communities in the best way we can. We are resuming operations post-lockdown in a phased manner by observing all safety protocols mandated by the Government of India and other state Governments. I thank everyone working on the ground for their unfailing commitment and professionalism. With the support of all stakeholders, we will continue to drive our strategic priority with enhanced focus. We continue to be an agile, profitable, and sustainable business, and with your trust and support we will scale new heights in the decades ahead.

Warm regards,

Excellence is Our Value Proposition

We continue to enrich each of our businesses on the back of our quality, customer centricity, decades-rich expertise and unwavering focus on sustainable operations. Our focus on innovation and technology adoption provides us with significant competitive advantages.

Purpose-driven people

Our team works relentlessly to create sustainable value for all our stakeholders. Our success is rooted in the exceptional commitment of our employees, who live by and embody the Company's values and culture each day.

Natural resources

Raw material, such as energy, minerals and water are essential to the manufacturing of our products.

Financial resources

We have a strong balance sheet, underpinned by a prudent mix of debt and equity. Our net worth of ₹ 979.11 crore as on 31 March 2020 is a testament of our robust finances.

Intangible assets

R&D capabilities and intellectual property, such as patents, trademarks and know-how, along with our rich industry experience, in both the businesses enable us to identify emerging industry trends. This provides us the early-mover advantage, helping us stay ahead of the curve.

Tangible assets

Our strong base of 11 state-of-the-art manufacturing plants imbibe sustainable operating processes to create highly complex world-class products. We also have other physical assets, such as logistics and office facilities.

Suppliers

We source the material required to make up our products and the services required to support our businesses from a wide network of supplier partners.

Quality management

Our highly qualified and experienced management team provides effective guidance to steer the Company in the right direction. This provides us with a competitive edge in the industry.

Robust governance framework

Our transparent and responsible governance and strong internal controls ensure that we not only comply with the relevant rules and regulations, but also safeguard the interests of all our stakeholders.

Innovation

Since inception, we have been among the pioneers in numerous products and processes, considered as benchmarks in the industries we operate in. Our focus is to indulge in blue-sky thinking and push the edge of the innovation envelope as much as we can, in line with and often exceeding customer expectations.

Manufacturing

We manufacture world-class products in Packaging and Building Products divisions. Our manufacturing processes help reduce water and energy usage; and our bathware products are designed to help save water. Our products cater to various segments and address varied preferences of customers.

Execution

Our operating strategies are designed to remove bottlenecks, so that execution can happen in a seamless manner.

Marketing

We market our products across India to various globally acclaimed institutional clients. Our well-diversified presence helps us mitigate risks of over-concentration on any region. This large pool of institutional clients helps us mitigate seasonality.

VALUE CREATED

INDIA'S FIRST

Anti-bacterial glass bottles and jars developed

A new eco-friendly wellness offering **Greendrop**

Conceptualised by AGI glaspac, HSIL's Packaging Products division, **Greendrop Glassware** a brand to support the 'Save the Earth' campaign, while giving a niche, upmarket and a premium feel to the consumers' homes and health for their families. Our range currently offers transparent, coloured and printed glass water, milk, juice bottles and food storage jars in various sizes to meet varied customer's requirements. Greendrop Glassware is committed to address environmental and health issues by promoting 'glass packaging' which is an environment-friendly product as an alternative to single-use plastic, which is hazardous and hinders environmental balance.

Greendrop Glassware uses the Germ Guard technology to manufacture anti-bacterial food storage glass jars and water bottles. Germ Guard is a nano-technology based anti-microbial composite, which inhibits and destroys the growth of deadly bacteria, fungus and molds and is suitable for use on tableware and cookware.

Features of Germ Guard technology:

- › Inorganic in nature
- › Highly safe and non-toxic
- › Heat stability up to 1300°C
- › Destroys 99.99% bacteria
- › Permanent anti-microbial activity
- › Non-corrosive

Greendrop Glassware is available online on major online e-commerce platforms such as Amazon, Flipkart, Paytm Mall, Snapdeal and we are working with other online marketplaces for launching the brand shortly.

Our offline presence has begun, and expansion is underway. We are introducing our range in hypermarkets and supermarkets along with appointing dealers and distributors for penetration in the general market.

One of the most eco-friendly packaging material, glass is endlessly recyclable, keeping it in use and

out of landfills. Recycling glass decreases the raw material used, saves precious natural resources, reduces the demand for energy consumption and reduces carbon emissions. Further, solarised coloured bottles are considered beneficial in chromo/colour therapy and helps many digestive disorders.

STRATEGIC OUTLOOK

Continually innovating in glass products

The global glass bottles and containers market is valued at ~US\$70 whereas the Indian container glass market is valued at US\$1.5 billion and estimated to be growing at an annual rate of 6-8%. However, Indian per capita consumption for glass packaging (1.8kg) is much lower compared to other nations. Our market share in India is currently estimated to be ~17%. We are making efforts through innovation to preserve and enhance our market share. We intend to bring in more standardisation in products with robotics and automation,

some of which have been piloted and are expected to be ramped up in the coming year. We will continue to innovate a new range of premium products, catering to niche segments such as health and wellness.

Strengthening collaboration for the development of PET products

The market size is estimated to be 2 MTPA for PET-based rigid packaging and is estimated to be growing at an annual rate of 8%. We believe innovative product development strategy in the PET segment will help us further grow this segment. We intend

to strengthen collaboration with other players, to develop innovative packaging solutions. For instance, we developed a new innovative packaging for Araldite, in collaboration with Huntsman.

Enhancing capacity utilisation in security caps and closures

The segment being new to the HSIL businesses, our utilisation levels in FY 2019-20 is on rise. We intend to increase the capacity utilisation in FY 2020-21 with additional customers being added to our portfolio.

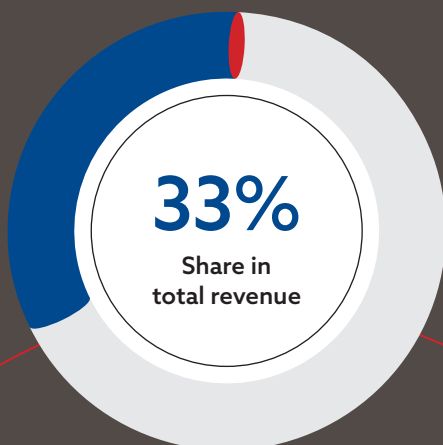

Glimpse into Our Operations

Closer look at our plastic pipes and fittings segment

We have an agreement with the ~US\$10 billion Japanese conglomerate Sekisui Chemical Co. Ltd. for the supply of NSF-certified CPVC compound, Durastream, to provide quality piping solutions to cater to varied market requirements.

Our products are manufactured in line with the Indian Standards Institution and other international standards. The production facility in Sangareddy is equipped

with top-notch pipe extrusion and supported by a team of highly experienced professionals. The machinery and equipment incorporate the latest technologies, which enhance the Company's competitiveness in the market. As a result, the plant is capable of supplying a large number of plastic water pipes and other related products.

Further, our products undergo quality testing to ensure they

sustain different water pressures. We redefine the quality standards periodically, to help us deliver valued products to last-line users. Our wide range plumbing solutions are used in transportation of portable water, gases, distribution lines, electrical/telecom ducting, chemicals, sewerage/drainage lines, waste disposal, borewells, irrigation and sprinkler systems.

OPERATIONAL HIGHLIGHTS, FY 2019-20

Upping the excellence quotient with technology

- › Effectively combined robotics and other advanced technologies
- › Plastic pipes and fittings production completely automated, except loading/unloading
- › Implemented Computer Numerical Control (CNC) for consistency in quality and enhanced precision across production
- › New innovative SKUs in the CPVC and SWR segments

Rising productivity levels

- › Enhanced plastic pipes' utilisation levels
- › Linked pay to performance in factories, leading to productivity increment in plastic pipes and fittings

Caring for the environment

- › Strengthened the effluent treatment process
- › Upgrading all the plants to zero liquid discharge

Harnessing the power of automation

Our plastic pipes and fitting plant in Sangareddy is a fully automated facility compliant with the IGBC and GreenCo norms. The plant is designed to eliminate the use of artificial lighting during daytime (7.00 am to 5.30 pm). More than 90% of motors installed in the factory are of IE3 efficiency class. We use water at different temperatures in various processes, with 100% wastewater being reused in landscaping, through the soil biotechnology-based sewage treatment plant. This plant is designed by IIT Mumbai.

We also have in place Cooling Technology Institute (CTI)-certified cooling towers in our pipe unit to reduce energy consumption. We also use 100% Chlorofluorocarbon (CFC)-free Heating, Ventilation and Air-Conditioning (HVAC) equipment, and low-thermal conductivity is ensured through high performance and toughened Double Glazing Unit (DGU) glass.

Towards water positivity

We installed water and air treatment facilities like metal recovery filtration, multi-effect evaporator and three-stage RO filter to reuse 90% of water in the manufacturing process, at the faucets plant in Kaharani.

Inspiring recognition

Our plastic pipes and fittings plant is certified with the 'Green Company' IGBC platinum rating, and the manufacturing process is GreenCo platinum-certified, making us one of the very few companies in India to accomplish this coveted feat. In fact, we are the only company in plastic pipe manufacturing companies in India to have both these certifications.

INHERENT STRENGTHS

Impressive scale

- › Market leaders in the sanitaryware and faucet space
- › Vast manufacturing capacities to cater to the rising demand of our products

Vast experience

- › 60+ years of experience in the sanitaryware industry
- › Pioneers of vitreous china sanitaryware in India

Exclusive product range

- › Diverse market segments of mass, premium, super premium and luxury categories

Consistent pursuit of excellence

- › Challenging the status quo and embracing innovation

STRATEGIC OUTLOOK

Consolidating market dominance

We will continue to sustain market leadership in the sanitaryware and faucets segments by manufacturing exceptionally designed products and innovative solutions. In addition to it, to enhance manufacturing plants, we will facilitate debottlenecking of existing facilities and improvise quality and consistency with precision, through the use of sunrise platforms and technologies.

Leveraging value creation opportunities

We have implemented a business optimisation programme, under which we will execute on our strategy to drive the full potential of our businesses, leverage opportunities across our Company and actively manage our portfolio to drive value.

Anatomy of Operational Excellence

At HSIL, we believe that institutions that thrive in this era will have a transformational purpose, one that connects the Company to its broader role in society.

We have thrived for nearly six decades, through many challenges. It takes a special company, with a unique culture, to demonstrate a propensity to excel, time after time. One of the reasons this is made possible is the continuing endeavour to step up our efficiency curve, as our business evolves to new orbits of innovation, growth and sustainability. By ensuring our people, processes and plants are aligned to our purpose and geared to deliver better value to stakeholders.

SHARPENING MANUFACTURING EXPERTISE

Our asset base is strong with cost-competitive integrated facilities spread across India. Our strategically planned and standardised processes help us significantly raise our productivity and efficiency levels and stay ahead of the curve in this dynamic business environment.

We have some of the most advanced and best-in-class equipment, complete with round-the-clock maintenance, to minimise wastages, plug leakages and put waste to productive use to enhance manufacturing. We perform comprehensive benchmarking against global standards and adopt an effective and systematic approach to quality assurance through timely identification of trends.

To realise the target of dispatching zero defect products from the plant, we regularly revisit processes, improve them and consistently adhere to them in a disciplined manner. Moreover, digitalisation projects and new technologies support our divisions and functions to optimise sourcing, production and supply chain, operational efficiency, customer experience and data and analytics.

EVERYBODY HOME SAFE, EVERY DAY

Our goal is to be an accident-free workplace. Safety gears, warning signs and safer machines – all help make a workplace safer but ultimately, it is the people who create a strong safety culture. Safety management at HSIL is based on internationally acclaimed practices, but our processes go beyond these requirements.

We encourage a company-wide safety culture, meaning that everyone is responsible for making every workday healthy and safe – from our top management and throughout the Company. Responsibility for implementing each tool and programme lies with every individual. Our units report periodically on safety performance data, including incidents, safety observations and related statistics. We also monitor the number of safety incidents among on-site and logistics contractors. Not just that, we continually train our operational teams on the subject of safety, in order to raise awareness and further our safety procedures, competencies and emergency preparedness.

MAKING MORE FROM LESS

Caring for the planet has taken on an even greater relevance in these challenging times. We have a clear commitment to the environment; and we continue to work on progressively reducing the environmental impact of our activity, whether it is energy, water or waste. To accomplish this, various measures have been activated throughout the production chain, following the 3R principle of Reduce, Reuse and Recycle.

Energy

We have designed all our facilities, especially shop floors to ensure that no artificial lighting is required during daytime. LED lighting is extensively used, and periodic upkeep of equipment is prioritised to reduce energy usage. We are increasingly improving the share

of renewable power in our overall energy consumption, with the help of on-site rooftop solar power plants. Any power generated is effectively used for own consumption within the plants.

Water

We harvest rainwater to conserve groundwater and maintain ecological balance.

Waste

We have effluent treatment and sewage treatment plants at our facilities, to allow us to reuse the treated wastewater. We also use advanced equipment and treatment processes like High Rate Solid Contact Clarifier (HRSCC), RO systems and sludge handling and dewatering systems to ensure the robustness of our operations. As a result of our efforts, all 11 plants are now zero liquid discharge.

Committed to Good Corporate Citizenship

We have designed various welfare programmes to serve the communities where we operate with a long-standing focus on sustainability and stewardship. With a purpose-driven approach of 'enhancing stakeholder value', we endeavour to enrich all, especially the marginalised sections of society. We also support social development programmes of NGOs.

HYGIENE AND SANITATION

The Government of India's flagship programmes like Swachh Bharat Abhiyan and National Rural Drinking Water Programme are welcome initiatives that need to be driven with more focus on outcomes.

At HSIL, we believe, access to basic hygiene and sanitation is important for the development of a country. We, therefore, work on enhancing sanitation facilities through our CSR activities.

During the year, we distributed 8,000 dustbins in Sangareddy, Telangana. This contribution to the Government of India's Swachh Bharat Mission (Gramin) programme will support in the implementation of solid waste management, helping the gram panchayats of the region maintain cleanliness.

We also helped in developing the sanitation infrastructure of Rotary Diagnostic Centre (Delhi) and Bansuri Charitable Society's 'Shad Centre' (Delhi) by providing them various sanitaryware and faucets products.

SKILL DEVELOPMENT

India needs to equip its talent pool with the right skills to better navigate economic headwinds and grow sustainably. At HSIL, we are cognisant of the gap that exist between the demand and supply of skilled manpower. Thus, we are helping the country's youth master job-oriented competencies, which will help them participate in wealth creation for the nation.

We have three skill development programmes.

Kaushal Vridhi

Our skill enhancement programme, Kaushal Vridhi, provides sanitaryware and faucet industry skills to the villagers of Bahadurgarh in Haryana and Kaharani in Rajasthan. This is a cyclical project that helps villagers learn contemporary skills.

Kushal Vikas

We continued with our computer training programme, Kaushal Vikas, in Bahadurgarh (Haryana). This initiative provides basic computer skills to the participants.

Recognitions of Prior Learning

We start contributions in 'Recognitions of Prior Learning (RPL)' project two years ago through a third-party agency and helped 1,500+ plumbers to train, upskill and get certified. Our RPL curriculum is designed to offer excellence in vocational proficiency and help reduce the skill deficit. The programme, backed by holistic skill development for the plumbing community, this year we have contributed for 6,000 plumbers to train, upskill and get certified.

HEALTHCARE

There is a significant demand-supply mismatch of medical and healthcare facilities, despite the Government of India's dedicated efforts towards 'Health for All'. This scenario is likely to change soon, as the Government of India has prioritised healthcare with flagship initiatives like Ayushman Bharat and other schemes like allowing 100% FDI in healthcare projects under some stipulations.

We deliver a recurring primary healthcare service, 'Swastha Sampada' to the villagers in the vicinity of our manufacturing units at Kaharani (Rajasthan), Bahadurgarh (Haryana), Bibinagar and Bhongir (Telangana).

WOMEN EMPOWERMENT

At HSIL, we are enabling women to earn sustainable livelihood through our 'Project Samarth' that trains women in tailoring. This programme has been operational for more than six years in Bahadurgarh, Haryana.

EDUCATION

Education and literacy help a society grow and improve the overall quality of life. Our recurring literacy programme 'Prathamik Saksharata Kendra' provides basic education to the villagers in Bahadurgarh, Haryana. During the year, we also supported infrastructure development in Sanskar Pratishtha – a school for the differently abled – to help students and teachers have access to better facilities.

DISASTER MANAGEMENT

Natural catastrophes wreak havoc in the lives of people, displacing them and destroying infrastructure. During FY 2019-20, the cyclone Fani has resulted in a significant loss of lives and property.

At HSIL, we contributed towards rebuilding infrastructure and rehabilitating displaced people, in the aftermath of cyclone Fani's devastation and provided monetary aid to Odisha State Disaster Management Authority (OSDMA) and Odisha Chief Minister's Relief Fund.

PROMOTION OF ROAD SAFETY

Road safety measures like installation of CCTV cameras have the potential to save lives by allowing timely interventions by traffic control rooms in case of accidents. We installed CCTV cameras near Sanathnagar, Hyderabad, Telangana, India to provide road safety for the villagers.

MANAGEMENT DISCUSSION AND ANALYSIS

edware

Prelude

As the third decade of the 21st century dawns on us, businesses need to acknowledge and equip themselves for a new era of transformation. According to the World Bank, developing economies are fast catching up with developed economies in the ease of doing business. Interestingly, businesses in the developing world are growing in scale, in global integration and are fast moving up the ladder of customer-centricity, innovation and technology adoption. They are crafting new pathways of excellence and value creation to make their presence felt in the global marketplace.

Excellence needs to be viewed through the long-term lens of value creation for all businesses. The year 2020 brings unprecedented times for businesses across the world, with the outbreak of the COVID-19 pandemic. Businesses worldwide, including India, have been affected due to large-scale lockdowns. However, proactive measures have been taken by the Government of India to contain the contagion and bring the economy back on track, including a special relief package focused on the poor and small businesses. Prime Minister Shri Narendra Modi also focused on providing impetus to the domestic industry with the new mantra of making India 'atmanirbhar' (self-reliant) and urged people to become more vocal about locally produced goods. The pandemic has caused significant disruptions in the way businesses operate by making way for a socially distant world in the short-term. However, in the long-term, businesses that adapt to the new normalcy will thrive, while others may not. The post-COVID-19 world will accelerate some existing trends and create new ones, and all business models will have to evolve in order to grow and thrive.

Our businesses were also impacted by the lockdown. The Packaging Products division operated at reduced capacity, since both the supply chain and distribution networks were disrupted by the lockdown. In building materials manufacturing, all major activities came to a standstill.

The markets are expected to take a while to recover and return to normalcy, as the entire economy has been severely affected by the coronavirus outbreak.

We believe that 'change is the new constant' and are confident to unlock more value for all our stakeholders with a sound, purpose-led, performance-driven and efficiency-oriented business model, furthering our legacy of excellence.

Global Economy

As per the April 2020 estimates of the International Monetary Fund, global GDP grew by 2.9% in 2019, slightly lower than the 2018 growth of 3.6%. The US-China trade wars, protectionism and auto industry slowdown in the Euro area on account of new emission standards were some of the major causes of the slow growth.

As the global economy was beginning to return to the path of growth with Phase-I signing of the US-China trade agreement and the fading of the Brexit uncertainty, when the deadly contagion struck. The COVID-19 pandemic has turned out to be a crisis like no other. The scale of the outbreak, the level of containment measures required and the cumulative losses – to life, health and the economy – have triggered a global recessionary trend.

OUTLOOK

The growth trajectory of the global economy depends to a large extent on recovery from the COVID-19. The International Monetary Fund (IMF) predicts a negative trajectory for 2020 for majority economies of the world. World trade is expected to decline between 13% and 32% in 2020.

The IMF expects global growth to sharply contract to -3% in 2020 due to the economic disruption caused by the pandemic. While the advanced economies are expected to contract by -6.1%, the emerging market and developing economies are expected to contract by -1%.

With the baseline assumption of timely recovery from the COVID-19 by H2 of 2020, the recovery in 2021 is projected to be a V-shaped one, with world output growing by 5.8%. The advanced and emerging market and developing economies are expected to rise by 4.5% and 6.6%, respectively, in 2021.

Indian Economy

India witnessed a cyclical slowdown in FY 2019-20, as growth slipped to 4.2% from 6.1% in FY 2018-19. During the first nine months of the fiscal, the Indian economy suffered a slowdown in domestic consumption demand, decline in manufacturing and investments amid the growing global trend of protectionism.

India GDP growth

While the slowdown seemed to have bottomed out around Q4 FY 2019-20 and growth seemed to return, the deadly pandemic hit India. The government had to undertake some of the most unprecedented measures, including a country-wide lockdown for approximately two months. A country of 1.3 billion came to a standstill in the largest lockdown in history.

The general consumer price index (CPI) moved up to 5.91% in March 2020, compared to 2.86% in March 2019. The inflationary trend was most witnessed in food and beverages, which increased by 7.82%, followed closely by 6.59% for fuel and light, whereas the consumer food price index (CFPI) moved up from 135.9 in March 2019, to 147.8 in March 2020, as per the National Statistical Office press release dated 13 April 2020.

India made significant progress during the past few years, which is reflected in its improving global positioning. It ranked 63rd in the World Bank's ease of doing business ranking, a jump from 77th position last year. In global innovations ranking, it moved to 52nd position from 57th in 2018. And in Logistics Performance, its position improved from 55th in 2018 to 44th this year.

INITIATIVES TAKEN IN THE PRE-COVID SCENARIO

The government was proactively decisive and introduced a host of measures, including corporate rate cuts, continued rationalisation of the Goods and Services Tax (GST) rate structure, speeding insolvency proceedings and sectoral reforms for auto, real estate, housing and export industries.

During FY 2019-20, India announced its target of becoming a US\$5 trillion economy by FY 2024-25. To achieve this ambitious target, the National Infrastructure Pipeline (NIP) was announced in the Union Budget 2020-21, with a spending commitment of US\$1.4 trillion over the same period. The NIP will create jobs, enhance ease of living and provide equitable access to infrastructure. ~42% of the projects by value are under implementation, 32% are at the conceptualisation stage and the rest are under development.

The core sectors to benefit from the NIP are energy (24% of the total spending), followed by roads (19%), urban infrastructure (16%) and railways (13%), while other sectors like irrigation, rural infrastructure and so on, stand to receive single digit allocation from the pipeline. The US\$5-trillion economy will make India a global economic powerhouse moving it from the 7th to 3rd position in terms of current dollar exchange rate.

With inflation staying within its comfort range for the larger part of the year, the Reserve Bank of India (RBI) monetary policy remained largely accommodative, instituting a cumulative 135 basis point cut in policy rates in 2019. Furthermore, to improve the economy, the RBI conducted Operation Twist, which involved simultaneous purchase and sale of government securities. This move of the RBI was aimed at lowering longer-term yields and aid in boosting the economy by reducing the cost of funds for borrowers. Additionally, the RBI implemented other measures like Cash Reserve Ratio (CRR) exemption, external benchmarking of interest rates and long-term repo operations to infuse liquidity in the market.

SPECIAL MEASURES TO MITIGATE COVID-19 IMPACT

To provide a fillip to the domestic industry and cushion the impact of the COVID-19 pandemic, the Government of India has called for the 'Aatmanirbhar Bharat Abhiyan' or 'Self-Reliant India Movement'. The movement is anchored on the five pillars i.e. Economy, Infrastructure, Technology, Vibrant Demography and Demand. A comprehensive economic package of ~₹ 20 lakh crore, equivalent to ~10% of India's GDP, was laid down by the government to set this movement in motion. Key highlights of the economic reforms are listed here.:

Liquidity infusion and other relief measures by the RBI

The prime measures introduced by the RBI to infuse liquidity in the system are policy rate cuts, reduction in CRR, increase in marginal standing facility, reverse repo rate cut, long-term repo operations, widening of policy corridor, raising of advance limits of states and overdraft limits, special refinance facilities for National Bank for Agriculture and Rural Development (NABARD), Small Industries Development Bank of India (SIDBI) and special liquidity facilities for mutual funds, apart from moratorium on terms loans and working capital interest and additional repayment time to real estate companies for loans from Non-Banking Financial Companies (NBFCs).

Pradhan Mantri Garib Kalyan Package

The government's Garib Kalyan package included a host of monetary and non-monetary measures for the vulnerable sections of the society, including food security and direct benefit transfers, insurance cover for the healthcare workers, increased wages for the Mahatma Gandhi Employment Guarantee Act (MGNREGA) workers, packages for construction workers by state governments, Employee Provident Fund (EPF) credit to low-income wage earners, premature withdrawal of EPF, collateral-free lending for women self-help groups and supplementing of medical testing and screening.

MSME and industry-specific measures

The government focused specifically on reviving the Micro, Small and Medium Enterprise (MSME) segment with some innovative measures, such as collateral-free automatic loans for businesses, subordinate debt and equity infusion in MSMEs. In fact, the definition of MSMEs was changed to widen its reach. There is a disallowance of global tenders up to a pre-defined limit to provide a boost to domestic enterprises. Additional support through EPF contributions, special liquidity schemes for NBFCs/Housing Finance Companies (HFCs)/Micro Finance Institutions (MFIs), partial guarantee schemes for NBFCs, liquidity injection in power Distribution Companies (DISCOMs), relief to contractors and extension of registration and completion dates of real estate projects under Real Estate (Regulation and Development) Act are some of the initiatives for MSMEs and industries.

Other measures

Other measures included emergency health response package, relaxation of various statutory compliances, including extensions of timeline for deposit of various direct and indirect taxes, faster disposal of pending refunds and relaxation of Tax Deduction at Source (TDS) and Tax Collection at Source (TCS) norms.

OUTLOOK

The IMF projects India's GDP to grow by 1.9% and 7.4% in FY 2020-21 and FY 2021-22, respectively, due to the great lockdown following the COVID-19 pandemic and subsequent recovery supported by the synchronised efforts from the government and the RBI.

The fallout from COVID-19 is being compared to the Great Depression of 1930. The pandemic is expected to induce demand side issues for all key sectors. According to a KPMG report, 'Potential impact of COVID-19 on the Indian economy', the housing and

other real estate segments are expected to see a muted demand due to the lockdowns, and a majority of the action will be missing till H2 of FY 2020-21. This will adversely affect the building materials sector. However, the packaging materials business is expected to witness demand, as consumers will over-stock commodities, giving fillip to FMCG sales and in turn packaging.

Economists expect global economic growth to gradually gain momentum, driven by investments and increased consumption.

MACRO DEMAND DRIVERS

Urbanisation

India's urbanisation has been different from most of the other countries; it is neither concentrated in a few cities nor dispersed. The World Economic Forum (WEF) predicts that by 2030, 40% of Indians will be urban residents. It will be the rise of many cities that will account for a large part of this. The top nine metros and 31 boom towns will be significantly richer than other cities. Small urban and developed rural towns will also prosper.

Consumer spending

The rapidly urbanising cities and towns in India are increasing consumption power. Be it air travel, smartphones, automobiles or online shopping, Indians are splurging more, in turn fuelling the economic growth. The WEF estimates that India will experience a 4x rise in consumption by 2030. The new Indian consumers are armed with higher disposable incomes as well as aspirations.

Digital access

With the advent of democratised internet access, intelligent products, and networked cities, the profile of India's young and connected consumers will be much diverse than any other country. The next decade will unlock a tremendous user base for consumption via mobile-first digital platforms.

Demographics

The Union Budget acknowledges that India will have the largest working-age population by 2030. During the time, India will add ~90 million young households, which are likely to spend more than the preceding generations.

INDUSTRY REVIEW

Glass containers

The global glass bottles and containers market was valued at US\$64.6 billion in 2019 and is estimated to grow at 4.20% CAGR over 2020-25, to reach US\$79.36 billion by 2025. The growing demand for non-toxic packaging, and growth of alcoholic beverage and beer consumption, have resulted in augmenting the glass bottles packaging market growth.

Additionally, the inherent characteristic advantages of glass such as hygiene, aesthetic appeal, durability and the capability to preserve the aroma, strength, and flavour of the product makes it the most favourable option for packaging.

In terms of market share, Europe continues to be the largest market for glass bottles and containers. However, the Asia Pacific region is expected to register a significant growth compared to other markets due to the increasing demand of glass bottles and containers in pharmaceutical and chemical industries. These markets prefer glass packaging, owing to the inert nature of glass bottles. China, India, Japan and Australia among others are the prominent countries majorly contributing to the growth of the Asia-Pacific glass packaging market.

India's glass container market is expected to grow at 6.8% CAGR during 2020-25. The low per capita consumption in the Indian market provides significant growth opportunities, in addition to rising consumerism, disposable incomes and urbanisation. Moreover, the supportive macro trends like growing alcohol and beer consumption and plastic ban in certain states are further going to strengthen the demand.

PET bottles and products

Polyethylene Terephthalate (PET) is a form of polyester capable of being shaped into different packaging, depending on the user's requirements. Owing to its durability, resistance to microbes, moisture, solvents and alcohol, and multiplicity of usage, it has emerged as a packaging material of choice for businesses, especially in the food and beverages, personal care and pharmaceuticals segments.

Growing consumer awareness for packaged products, rising western influence, increasing consumption of carbonated beverages and ready-to-eat foods by young people further influence the use of PET packaging. The global PET packaging market was valued at US\$63.8 billion in 2018; and is expected to grow at 4.8% CAGR during 2019-24, to reach US\$84.5 billion by 2024 (Source: IMARC Research). The beverage industry in India is primarily dominated by PET bottles, which hold a larger market share in beverage packaging in comparison to glass and plastic bottles. According to the Federation of Indian Chambers of Commerce & Industry (FICCI), Indians consume 11 kg of plastic per year in comparison to 109 kg by an average American, and this figure is further expected to rise in the coming years.

Security caps and closures

The global caps and closures market in 2018 was valued at US\$41.17 billion. Going forward, it is expected to reach US\$58.5 billion by 2026. The principal growth driver for the market is the continuous demand of the bottled drinks and beverages market. Apart from the usual growth of plastic caps and closures, the demand for security caps and closures is much higher, due to the abundance of counterfeit goods in the market. Companies are increasingly turning conscious of piracy and counterfeiting, as in the long run it impacts brand reputation and has other financial implications.

Growth propellers

Growing preference for spirits

India's alcoholic drinks market grew by over 8.09% to US\$48.86 billion in 2019. It is expected to grow at 6.8% CAGR between 2020 and 2023. With rising aspirations, affluence, changing lifestyles, participation of more women in social gatherings and casual drinking, the consumption of alcohol in India is likely to grow. The expanding consumption rates act as vital growth drivers for our products.

Expanding beer market including craft beers

The demand for beer has been rising alongside growing inclination of the masses towards improved tastes of beer varieties. Craft beer is becoming extremely popular among young consumers owing to the availability of a variety of flavours, including malted barley, chestnut, and others. India's beer market grew by 9.5% in 2019 to US\$14.19 billion. The gradual acceptance of beer as a social drink, rising disposable incomes and preferences of the young consumer are also driving the growth of the beer market in India. It is projected to grow at 7.4% CAGR between 2020 and 2023.

Growing pharmaceutical sector

India's pharmaceuticals industry is the largest provider of generic drugs globally, supplying over 50% of the world's vaccine requirements, fulfilling over 40% of the generic demand in the US market and over 25% of all medicine requirements of the UK. The export market in FY 2018-19 is valued at US\$19.14 billion and US\$13.69 billion in FY 2019-20 (up to January 2020).

The Indian pharmaceutical sector is expected to grow to US\$100 billion by 2025. The government's initiatives for the sector, including the 'Pharma Vision 2020', and higher budget allocation, coupled with increased R&D spending by companies and higher Foreign Direct Investment (FDI) inflows are important growth drivers for this sector. The expanding pharma sector has widened the demand for our packaging products.

Rising domestic consumption

The fourth largest industry in the Indian economy – the fast-moving consumer goods (FMCG) industry – is a significant contributor to the growth of glass and PET packaging. The retail market size in India is expected to grow from US\$840 billion in 2017 to US\$1.1 trillion by 2020, with modern trade growing at a rate of 20-25%, boosting the revenue of FMCG companies. As the FMCG industry grows, the demand for our packaging materials is also expected to rise.

Higher usage of glass packaging

With the governments becoming increasingly environment-conscious, their efforts on the ban of single-use plastics have precipitated well and have made consumers also care for the environment, leading to lesser use of plastic packaging materials. This, in turn, has increased the demand for glass containers. Glass packaging is finding an increased usage in the food packaging industry for factors such as their ability to preserve the aroma, taste and flavour, over and above the aesthetics and environmental benefits.

These factors are encouraging increased usage of glass and promoting it as a preferred packaging material.

Increased product security with counterfeit-resistant products

Counterfeiting and product piracy are increasingly becoming harmful – both for the companies and consumers alike. Companies are thus investing significantly to guard against this menace. Counterfeiting is rampant across beverage, alcohol, pharmaceuticals, oil and lubricant sectors, leading to adverse consequences. Counterfeit-resistant security caps and closures, with features like improved sealing, ease of use and multiple design possibilities at moderate rates offer an effective solution to these problems.

BUSINESS REVIEW

Our Packaging Products division comprises three segments, namely glass containers (including specially coloured glass and Greendrop Glassware – our consumer bottles business), PET bottles and products and counterfeit-resistant security caps and closures. During FY 2019-20, we introduced Greendrop Glassware, our new wellness, eco-friendly offering in the consumer bottles segment. We are one of the leading container glass manufacturers in India with a strong market share. We currently have two glass manufacturing facilities at Hyderabad and Bhongir in Telangana with a combined daily production capacity of 1,600 tonnes. We manufacture lightweight glass bottles using narrow neck press and blow technology on several lines.

Currently, we offer customised products and solutions in PET through our three state-of-the-art facilities at Selaqui in Uttarakhand, Sangareddy in Telangana and Dharwad in Karnataka with a combined annual production capacity of 10,166 tonnes. To strengthen our capacity utilisation and achieve backward integration, we forayed into manufacturing seat covers and PVC cisterns.

Our venture into the security caps and closures business, in synergy with our existing packaging products, is aligned with the market requirements to counter pirated products and provide patented, anti-counterfeiting solutions. The manufacturing of security caps and closures in the state-of-the-art plant at Sangareddy in Telangana commenced in 2018 and aids in preventing counterfeit liquor and edible oils.

KEY HIGHLIGHTS OF FY 2019-20

AGI glaspac

Glass containers segment

- › 96 new products developed
- › 53 new products commercialised
- › On track to achieve our glass reduction objective by various weight reduction measures
- › Spiral classifier - innovative technology to remove light-weight particles from cullet, operational at Hyderabad plant
- › Started using 8.5 MW rooftop and ground-mounted solar power plants
- › Installed Effluent Treatment Plant (ETP), reducing water usage, promoting reuse of water and ensuring zero liquid discharge
- › Explored new export markets for enhancing global prominence and reach
- › Achieved value savings through import substitution for machine parts
- › Installed Electrostatic Precipitator (ESP) to achieve reduction of Sulphur Oxide and Nitrogen Oxide (SOx and NOx) levels from flue gas system
- › Initiated towards digitisation and IoT and now we have an electronic library offering and e-tenders

Garden Polymers

PET bottles and products segment

- › Entered the flavoured drink market
- › Developed new innovative packaging for a leading adhesive company in collaboration with a global chemicals company
- › Introduced innovative designs for Child-Resistant Caps (CRC), which were well received by the market

AGI Clozures

Security caps and closures segment

- › Enlisted business with all key spirit manufacturers in the country and overseas market
- › 375 kW solar plant operational
- › Differentiation with value-added facilities like printing and hot foiling
- › Introduced high tech laser printing

Introducing our new healthy, eco-friendly offering

Greendrop Glassware®

With a new and exquisite range of water, juice, milk bottles and food storage jars, **Greendrop Glassware** offers a range of glass tableware and kitchenware helping consumers to eliminate harmful chemicals present in other storage containers and live healthier lives. We also help in eradicating pollution from the use of non-recyclable materials for storage as glass is 100% recyclable.

OUTLOOK

India's packaging industry underwent numerous changes across all the consuming sectors in FY 2019-20, with environmental discussions gaining traction due to high reliance on plastic packaging in pharmaceuticals, greater demand for rigid packaging with rising modern trade, Food Safety and Standards Authority of India (FSSAI) regulations in the food and beverage sector that replaced the 2011 regulations to make packaging tamper-proof by delivery apps after a tampering mishap at a food delivery app went viral. The overall packaging industry is expected to grow at a steady pace, with newer regulations and stringent norms, and increased emphasis on environmental responsibility, clean and safe packaging solutions across all sectors.

With the growing demand of the pharmaceutical sector and the rise of online businesses in the retail and food and beverage sector, packaging is receiving renewed attention from all sectors. We, as one of the leaders in glass, PET and caps and closures business, intend to craft world-class products, customised to the requirements of our customers, and furthering our decades-long legacy of excellence, innovation and customer centricity. We plan to continue our focus on innovation, better capacity utilisation, cost optimisation and adding scale, where and as necessary, in a sustainable manner across all our manufacturing processes in order to add further value for our stakeholders. We will continue to use our market expertise to identify and deliver, making use of the most valuable growth opportunities.

INDUSTRY REVIEW

Sanitaryware

India ranks second in the world in the sanitaryware industry, which in 2018 was estimated to be ₹ 4,800 crore.

The market growth has been flat for over a few months now. However, higher disposable incomes, better standards of living and increasing preference for premium products mean that despite the slump, demand is going to revive for sanitaryware products.

This past year, large sanitaryware producers focused on the young brand-conscious consumers, with emphasis on design, quality and ease of use, leveraging innovation and technology. At the same time, focus sharpened on hygiene in both urban and rural areas. The trend of moving towards branded products is expected to pick up momentum, amid growing awareness for sanitation.

Faucets

The faucets market in India is valued at ~₹ 9,000 crore. The industry is scaling up and is expected to outpace the sanitaryware industry growth.

Dynamism in the home-buying pattern and rapid urbanisation, combined with nuclearisation paves the way for an evolving market. A higher preference for premium bathrooms and functional kitchens generates higher demand for faucets that are contemporary in design and innovative in function. Organised players, constituting more than 50% of the market, tend to gain from this transition. Other factors that enhance demand include supportive government policies and higher upgrade renovation spends.

Plastic pipes and fittings

A growing plastic piping industry is vital to India's infrastructural development and within this segment, Polyvinyl Chloride (PVC) pipes are one of the most versatile plastic pipes. The size of the PVC market is estimated to be ₹ 31,500 crore and the unplasticised PVC (UPVC) accounts for a major share of this market. Chlorinated PVC (CPVC) pipes, however, are fast gaining ground on account of their high temperature applications.

The organised sector constitutes 70% of the PVC market in India. With experts anticipating both urban and rural areas in India to suffer from water scarcity, there is likely to be a greater demand for scientific water management systems. Consequently, major players in India's PVC pipes market are now devoting efforts in cost-effective, time-saving technologies that will help draw and transport water.

Growth propellers

Government initiatives

The government's steady efforts to set up clean drinking water systems and public sanitation facilities are important drivers for the growth and scalability of the sanitaryware industry. The Union Budget 2020-21 has allocated ₹ 30,478 crore for the Jal Shakti Ministry. The Jal Jeevan Mission, which is geared to ensure water security across India, was allocated ₹ 11,500 crore for the year 2020-21 in the budget. ~₹ 12,294 crore has been earmarked for 'Swach Bharat Abhiyan' that was kickstarted in 2014 to discourage open defecation. Moreover, stricter implementation of the GST will enhance growth prospects for organised players.

Building new India

The government's push for projects such as 'Smart Cities' and 'Affordable Housing for All' through the Pradhan Mantri Awas Yojana, together with the transition from joint to nuclear families, is further driving the demand for building materials.

Greater replacement demand

With higher focus on home renovation by India's brand-conscious citizens, replacement cycles are shortening. At 10-12% of the total demand, it is expected to be a major growth driver going forward.

More spending power

India's per-capita monthly income is estimated to have grown by 6.8% to ₹ 11,254 during FY 2019-20. Rising spending power continues to support the business's growth. Aspiring consumers, with their growing appetite for an aspirational lifestyle, are willing to pay a premium for products that reside at the higher end of the spectrum.

Emergence of smart bathrooms

Today's consumers are significantly adopting the concept of a smart bathroom with modern and smart accessories. Internet of Things (IoT) and the concept of internet-supported intelligent devices have succeeded in the expansion of smart toilets and bathrooms. The availability of smart residence gadgets at economical prices is additionally boosting the growing requirement for smart showers.

BUSINESS REVIEW

We sustain our legacy of excellence by innovating around customer's requirements. Over the decades, we have played a pioneering role in the sanitaryware and faucet manufacturing and continue to be a leading presence in this segment. We work closely with our research and development team to introduce products that we think are 'industry musts'.

Our Building Products division offers a wide range of extraordinary products across sanitaryware, faucets and plastic pipes and fittings segments.

To enhance our relevance as a complete bathroom solutions provider, we tapped into the plastic pipes and fittings segment (comprising PVC, CPVC, UPVC and Soil-Waste-Rain or SWR) a couple of years ago. As a part of this segment, we offer solutions to the building construction domain for potable water transportation, water harvesting, underground drainage and sanitation applications.

KEY HIGHLIGHTS OF FY 2019-20

**Sanitaryware and faucets segment**

- › Developed 53 new Stock Keeping Units (SKUs)
- › Installed robotic system to increase efficiency and consistency that further enhance the quality of the products
- › Set up pressure casting machines for wash basins, increasing productivity in terms of effective space utilisation, and lowering dependence on manual labour
- › Installed additional equipment in faucet plant to reduce process losses, thus aiding in cost saving during FY 2019-20
- › Commissioned Computer Numerical Control (CNC) machines in various processes like grinding, low-pressure die-casting, turning and testing. These CNC machines improve the accuracy of processes and consistency of output
- › At Bibinagar plant, partial conversion of energy source in processes from Liquefied Petroleum Gas (LPG) to natural gas during FY 2019-20; we expect to fully convert to natural gas by the end of FY 2020-21. In addition to it, process wastage reduced during place together in the same line benefiting with improved cost structure
- › At Bahadurgarh plant, production of critical design SKUs increased substantially

Plastic pipes and fittings segment

- › Introduced 43 innovative SKUs; new ranges introduced in the CPVC and SWR products
- › We received the Indian Green Building Council (IGBC) platinum rating for our entire manufacturing process in FY 2019-20; we are the 8th company in India to receive this coveted certification
- › Completely automated the entire manufacturing process, except for loading/unloading of pipes
- › Minimal waste generating manufacturing process

**OUTLOOK**

During FY 2019-20, we at HSIL have undertaken numerous modernisation and technology upgradation measures. The automation and robotics-oriented approach was piloted across some of our facilities, to improve consistency and enhance the quality of our offerings. Now that we have successfully piloted these projects and have our learnings in place, we intend to mainstream automation across all our facilities.

In the plastic pipes and fittings segment, we expect to enhance our utilisation levels to industry-best levels within the next 2-3 years.

We expect business uncertainty to prevail in the markets at least up to H1 FY 2020-21, led by the impact of the COVID-19 pandemic. Businesses will start recovering and gaining pace from Q3-Q4 FY 2020-21, as we hope the fear of the contagion to fade away with proper management and advances in medicine.

IMPACT OF COVID-19 PANDEMIC

The outbreak of COVID-19 has caused global widespread economic disruptions leaving uncertainties with respect to severity and its impact on businesses, which currently cannot be reasonably ascertained. The Company has up to the date of approval of financial results, evaluated and factored in to the extent possible likely material events and circumstances arising from COVID-19 pandemic and their impact on carrying value of its Assets & Liabilities as at 31 March 2020. Based on current indicators of future economic conditions, the Company expects to recover carrying amount of its Assets as on 31 March 2020. The impact of any future events and developments emerging out of COVID-19, if any, and occurring after the balance sheet date and relating to the Assets & Liabilities of the Company as on 31 March 2020 will be recognised prospectively. Considering current market scenario and the Company's quality product portfolio, brand image, long-standing relationships and goodwill with its customers, suppliers and other stakeholders, the Company expects that the business operations, cash flows, future revenue, assets and liabilities will sustain going forward.

People at HSIL

We have created an inclusive and diverse work culture with shared values and a common purpose. Our people's hard work, dedication and entrepreneurial spirit sit at the heart of our business. On 31 March 2020, the total workforce strength stood at 2,891.

Our HR strategy and roadmap seeks to provide an enabling environment where our colleagues can enjoy work, feel encouraged and are supported to grow. This is achieved through our culture of collaboration, which gives every individual a sense of purpose and an opportunity to thrive. We help our people to develop their expertise, knowledge and skillsets, and amplify their contribution and impact.

With a view to make processes more transparent and data-driven, we launched a range of new tools this year. Some of these are:

- › **Human Resource Management (HRM) software:** We launched the HRM system, integrating all our people processes online. The digital tool's artificial intelligence drives faster processing and data sharing, and greater engagement, resulting in higher productivity, lower employee turnover, reduced costs and lower risk of non-compliance and policy violation. With the right communication and regular training camps, we enabled a seamless shift to the software. Over time, the software's in-built analytics component is expected to help us make informed decisions about our teams
- › **Performance Management (PM) software:** Another powerful tool, the PM system selects high-potential and high-performing employees to strengthen our talent pipeline and succession planning
- › **Learning Programs for Accelerated Development (L-PAD):** The online portal for e-learning, L-PAD helps employees learn on the go and at their own pace. Employees can gradually complete professional training courses, fulfil their learning ambitions and progress in their careers. With a cloud-based learning management dashboard, these courses can be accessed from anywhere, any time and on any device – effectively letting employees take control of their own learning curve

As the business transforms, we are evolving our culture to ensure that we continue to attract the best people possible to build their careers at HSIL. Thus we are implementing more employee-centric activities and engagement programmes to ensure a great, safe, inclusive and diverse place to work for our people.

Risk Management

We at HSIL relentlessly focus on managing a risk-optimised business. Our risk management framework identifies and assesses risks and monitors the effectiveness and efficiency of risk mitigation and control measures. The major risks identified by businesses are systematically addressed through appropriate mitigating measures.

RISK APPETITE

We review and validate our risk appetite at regular intervals. This is integrated into our overall risk management framework to support better decision-making and prioritisation.

Our risk appetite is driven by the following concerns:

Growth ambition

We operate in a competitive, dynamic sector and aggressively pursue growth opportunities. This entails calculated risk-taking and mitigation.

Compliance

Abiding by relevant legislations as well as our business principles is a habit that is embedded in our culture and underpins our strategy.

Brand

We strive to protect the value and reputation of the brand, prioritise the interests and safety of our customers and employees, and support responsible growth.

Efficiency

We seek to continuously improve our operational efficacy to enhance our competitiveness.

RISK FRAMEWORK

Our risk framework is structured around the following categories of risk:

Strategic

Business

Operational

Here, we report the principal risks, which we believe are likely to have the greatest current or near-term impact on our business.

Our senior executives of various functional units are responsible for tracking and monitoring the key risks for the divisions periodically and implementing suitable mitigation plans proactively. During FY 2019-20, we expanded the scope and coverage of the risk framework across the Company.

STRATEGIC RISKS

Lack of business decisions or failed decisions may pose a strategic risk to the Company. Strategic risk is often a primary factor in determining a company's worth, particularly if the company experiences a sharp decline in a short period of time. We have tried to evaluate relevant factors and their mitigation measures for what may be categorised as strategic risks.

RISK FACTORS	IMPACTS	MITIGATION MEASURES
Economic uncertainties	A slowdown of the Indian economy may lead to a fall in demand for our products	India continues to be an attractive investment destination among the emerging economies, driven by demand factors such as growing consumer affluence, the government's infra push, and rapid urbanisation. However, there has been moderation in growth estimates. Our business diversification into varied sectors has ensured that there is no overdependence on any specific sector, safeguarding us from any sudden industry shocks.
Volatility in real estate industry	A slowdown in the growth of real estate in the nation could impact our sales and revenue	The implementation of the Real Estate (Regulation and Development) Act ensures the elimination of dubious players. Also, the demand for affordable and middle-income housing is expected to drive growth both in the metros and Tier-II cities in the coming years. Moreover, we are not completely dependent on any one sector for revenue.
Rising competition and entry of multinational players	Increase in competition can lead to lower sales and market share. Similarly, the entry of global players with an extensive market reach can disrupt the sectoral equilibrium	We have been in the industry for six decades and our high-quality and innovative products, cost-effective production, experience, timely delivery, diversified business, have enabled us to succeed in this competitive market.
Inability to gauge preferences	In a dynamic market environment, where preferences evolve fast, inability to gauge customer's preferences can dent our market share	To grow our wide range of products, we are constantly seeking feedback for innovations in each product segment from our institutional customers. This helps us unveil new products to cater to evolving end users' aspirations.
Dependence on a few customers	An excessive dependence on a few clients can affect sales	We have a loyal customer base across different industries mainly comprising institutional customers. Our Company has always focused on building long-term and rewarding association with clients across industries.

BUSINESS RISKS

Any uncertainty causing an organisation to generate inadequate profits or even losses are termed as business risks. Our risk management team has tried to evaluate the relevant applicable business risks and mitigation measures.

RISK FACTORS	IMPACTS	MITIGATION MEASURES
Lack of innovation	Inability to remain relevant in the market through the identification of current trends and breakthrough innovations	We keep ourselves abreast of the latest trends through thorough market research and regular feedback from institutional customers. Our talented R&D team is working relentlessly to leverage advanced technologies and unveil innovative products in line with consumer requirements.
Lack of prominence	Ineffective marketing and distribution can hinder sales and business growth	Strengthening the distribution network is a continuous exercise that we conduct. As a premium B2B player, we constantly focus on growing our institutional customers
Team of go-getters	Low employee competencies and inadequate experience could impact our growth	We have a stringent hiring process and have ensured that there are qualified and competent personnel at key positions for hassle-free execution. Also, we encourage our employees through various engagement programmes and organise industry-specific training regularly. Employees are rewarded with attractive rewards and remuneration programme for exemplary performance.
Working capital management	Inability to meet short-term liquidity requirements can impact growth and profitability	We always strive to improve our working capital requirements by optimising inventory and receivables cycle and extending our payables cycle.
Threat from PET packaging	Rising demand for PET packaging could hurt the sales of glass container business	Our glass business is seeing a steady rise in sales due to various eco-friendly measures being undertaken in the world. Besides, our presence in the PET segment ensures any loss of sales in the glass segment is met by the PET segment.
Quick product turnover	Fast product turnover burdens the inventory excessively	Our robust inventory management ensures there is appropriate mapping of SKUs for gradual phasing-in and phasing-out. Comprehensive analytics is employed in planning the timely replacement of SKUs so as not to impact revenue generation.
Interest rate, commodity price recession risk	Any adverse movements in interest rates or commodity price recession may impact business revenues	We review our short-term and long-term interest rates at regular intervals to ensure the cost effectiveness. The Company has policies in place to manage its exposure to fluctuation in the prices of key raw materials.

OPERATIONAL RISKS

Ineffective procedures, systems or policies may result in operational risks. These risks are identified and mitigated by our risk management committee.

RISK FACTORS	IMPACTS	MITIGATION MEASURES
Inadequate raw material availability	Inability to source regular supply of raw materials at optimum price can adversely affect operations	Strong relationships with multiple vendors for procuring our raw materials help us avoid dependence on a few. Besides, we engage with our vendors repeatedly to plan our raw material inventory pipeline.
Quality issues	Lowering or variation in product quality can affect sales and cause customer attrition	We do not compromise on product quality and thus have aligned quality checks across our manufacturing chain with global standards. Following manufacture, our products undergo a series of quality checks to ensure we have low rejection rates and minimal customer complaints.
Operational bottlenecks	Constant disruption in operations could hamper production	Our state-of-the-art facilities with global manufacturing practices, along with automation help improve processes and product quality
Credit standing	Inadequate funds may impact the daily operations of the Company	Enduring lender relationships and a high credit profile have ensured that funds are readily available to the Company at competitive costs.

RISK FACTORS	IMPACTS	MITIGATION MEASURES
Rising costs structure	Inability to achieve higher cost efficiency may affect profitability	We adopt best practices and standards across our manufacturing facilities and have increased operating efficiency through product planning, increased utilisation rates and reduced production cost across our manufacturing facilities. Also, we conduct detailed reviews to identify areas where we can reduce our raw material and energy costs, without compromising output quality.
Product failure and differentiations	Any adverse market reaction to any of our products leading to its failure may affect the revenues	We cater to a multi-industry, multi-product clientele. Our range of products is quite vast, and failure of any single product or a single range may not be able to materially affect the revenues of overall business. Our R&D initiatives are relentlessly focused on developing innovative products, as per consumer preferences.
Health & safety risks	Any unfortunate incident may lead to loss of life and/or economic losses	Our focus on employees' health, safety and wellbeing help us mitigate most of the risks in the manufacturing and operational situation. Additionally, our plants and products have received various certifications and accolades for leadership in EHS activities.
Loss of key managerial personnel (KMP)	Any loss of KMP may adversely impact the business	Our pay and rewards and recognition structure ensure competitive remuneration to our key managerial personnel, keeping them well motivated.
Loss of suppliers	Any loss of suppliers may disrupt the normal business environment for the Company	We have harmonious and long-term relations with all our suppliers and our vendors help in maintaining these relationships. Additionally, we maintain relations with multiple vendors, so as to mitigate the risk of over-dependence on any single vendor.
Currency fluctuations risk	Any extreme fluctuations in currencies we do business in may impact our revenues and/or profits	We regularly enter into a wide variety of derivative instruments like forward contracts, future contracts, etc. to hedge our foreign exchange position. Additionally, some of our foreign exchange positions act as a natural hedge to protect our financial position from foreign exchange risk

INTERNAL CONTROLS

The internal control systems are commensurate with the size, scale and complexity of the operations of the Company. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with the applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation, and ensuring compliance with corporate policies. The Company uses SAP, a well-accepted enterprise resource planning (ERP) system, to record data for accounting, consolidation, and management information purposes and connects to different locations for efficient exchange of information.

The Audit Committee of the Board of Directors, comprising Independent Directors, reviews the effectiveness of the internal control system across the Company, including the annual plan, significant audit findings and recommendations, adequacy of internal controls and compliance with accounting policies and regulations.

INTERNAL FINANCIAL CONTROLS

The Company has in place an adequate Internal Financial Controls framework. It has documented Risk and Control Matrices (RACM) covering all activities, and all controls are tested for design and operating effectiveness as part of its Internal Financial Control reporting framework. The financial controls are evaluated for both design and operating effectiveness by an external consulting firm of repute.

In our view, the Internal Financial Controls are adequate and are in line with best practices applicable to organisations of a similar size, nature and complexity.

RISK MANAGEMENT

The Company has a robust risk management framework which identifies and assesses strategic, operational, financial and compliance risks and monitors the effectiveness and efficiency of risk mitigation and control measures. The major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continual basis.

ANNEXURE B

CONSERVATION OF ENERGY, RESEARCH AND DEVELOPMENT, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

(A) CONSERVATION OF ENERGY

(i) The steps taken or impact on conservation of energy

The plants have continued their ongoing efforts for conservation of energy. Close monitoring of power & fuel consumption is done to minimise the wastage & ensure optimum utilisation of energy. For optimal energy efficiency, maintenance of equipment & machineries is carried out as per schedule. Any deviation in performance is thoroughly investigated for appropriate corrective/preventive actions.

a) Building Products Division

Some of the initiatives taken during the year towards energy, environment and water conservation are as under:

(i) Sanitaryware and Faucets Plants

- › Installation of Robotic Glazing System in sanitaryware plant for space saving & lower utilisation of energy in some process being done manually.
- › Installed one 11 KW variable speed drive enabled compressor for night shifts for localised use avoiding running of large compressor.
- › Installed low-pressure compressor to be used for the areas where low air pressure is required, optimising use of energy.
- › Installed 250 KVA UPS on tunnel kiln in sanitaryware plant for avoiding tripping due to electricity failures resulting in saving of fuel & electricity.
- › Installed one energy efficient large size ball mill for energy saving.
- › Ball mill lining changed from Felsite to Alumina for reducing the grinding hours & improving the product quality.
- › Installed large capacity energy efficient Turbo blunger for power saving.
- › Installed energy efficient exhaust fans in cast shops resulting into better environment control and electricity saving.
- › Installed one fully automatic CNC foot grinding machine for product quality improvement and higher output.
- › Use of LED lights in place of conventional ones.
- › Reorganisation of cast shops for lower energy consumption.

- › Introduction of pressure casting system for space and energy saving.
- › Replacement of old CI plate filter press with higher efficiency PP plate filter press.
- › For water conservation, the Company carried out products design improvement to use less water. Across the wide range of products for sanitary ware and faucet, the Company's 43 products are stars rated by IAPMO and 145 products are certified by CII as Green Products for excellent water saving designs.

(ii) Pipes Business

- › The Company has ensured every equipment procured in the factory comes with IE3 efficiency class motor. This enforcement on suppliers has yielded in to having around 90% of the motors of IE3 or above class.
- › The Company has designed the building with natural lighting from the roof. This design will help the Company to not use any electrical lighting in day time.
- › 100% LED lighting used which has resulted in more than 50% energy saving.

b) Packaging Products Division (Glass and Plastic Products)

As a part of energy conservation, following initiatives were taken:

- › Installation of Energy Efficient Vacuum Pump for F#4.
- › Replacement of internal cooler with external cooler in IR#3.
- › Installation of Bell mouths in Mould cooling blowers.
- › Installation of LED lights.
- › Installation of enthalpy based temperature controller for pump house cooling towers.
- › Reduction in idle running of equipments and arresting compressed air leakages.
- › Removal of IGV dampers and modification of bird screen in mould cooling blowers.
- › Utilisation of chilled water from compressed air dryers to pump house cooling towers.
- › Transformer voltage optimisation.
- › Conducted Detailed Energy Audit by M/s. CII & Fan audits by M/s. Howden, M/s. Reitz.

- › Conducting awareness and trainings on energy conservation.

(ii) The steps taken by the Company for utilising alternate sources of energy

a) Building Products Division

(i) Sanitaryware and Faucets

Installation of solar power plants at Bahadurgarh Sanitaryware Plant (Plant 1) – 1220 kWp,

Bibinagar Sanitaryware Plant (Plant 2) - 1500 kWp and at Kaharani Faucets Plant – 598 kWp.

(ii) Pipes Business

Installation of roof top solar panels of 640 KWH.

b) Packaging Products Division

As a part of utilisation of renewable energy, we are under progress for installing 2.9 MWp ground mount solar power plants.

(iii) The capital investment on energy conservation equipments:

(₹ in lakh)

S. No.	Capital Equipment	Capital investments on energy conservation equipments	Energy saving / annum (units in KWH)	Financial saving

(B) TECHNOLOGY ABSORPTION

(i) The efforts made towards technology absorption

The Company has been making continuous efforts to absorb the latest technological developments and has taken following steps:

a) Building Products Division

i) Sanitaryware and Faucets

- › Innovative designs for water efficient product development, process improvement for consistency in the quality & yield of product, minimising the process losses, cost effective

local raw material development, glaze development with matt finish are the focus areas for R& D work.

- › To further strengthen the capabilities, advanced version of following instruments is introduced in sanitaryware plant R&D centre.

- Simultaneous TG-DTA/DSC Apparatus for thermal analysis of material.
- Latest Netzsch Dilatometer for checking of Thermal expansion body & glaze.

- Stereo Zoom Microscope for Micro analysis.
- Endurance Test Machine for testing of seat cover strength.
- Life cycle test machine for seat cover.
- › For faucets plant, installation and commissioning of dual head low pressure die casting technology is done, which is first of its kind in India. With this latest technology, Company could increase 30% production using the same space and manpower.
- › For the exposure of concerned personnel to the latest technology, advanced skills, upgraded systems & innovative product designs, time to time visits to the plants in different countries are organised. They look into the possibilities of developing these indigenously to have easy availability, save on cost & time.

ii) Pipes Business

- › Pipes business has sourced one more Belling/Socketing machine from Turkey and has been installed and running successfully.
- › Installed one more 2500 kva transformer backed up with 1250 kva DG set to cater enhanced installed machineries.

b) Packaging Products Division

The Company has made various efforts to absorb the latest technological developments and has taken following steps:

1. Overseas glass process experts have been engaged to train our technical personnel in production and furnace area.
2. In-house development cell has been formed to focus on local development of spares and sub-assemblies required glass product equipment.

3. Action to establish R&D centre has been initiated to improve the productivity of the mould shop and explore the development of products required for value addition.
4. Deputing concerned personnel to relevant seminars, symposiums and workshops to upgrade skills and knowledge.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution

a) Building Products Division

i) Sanitaryware and Faucets

- › Development of improved designs water efficient products. Introduction of automated feature in some of the products.
- › Cost, energy saving due to introduction of latest technologies & enhanced productivity.

ii) Pipes Business

- › Introduced Column Pipes in the market. Installed 8 CNC machines for the same.
- › Installed 2 belling machines with auto pipe lifting mechanism to save on manpower.
- › Developed in house pipe lifting mechanism on one line to save on manpower.
- › Installed 120 ton X 2 silos for PVC raw material storage with automation to enhance storage and operational efficiency.
- › Installed 10 ton capacity calcium silo to improve manpower utilisation and reduce wastage.

b) Packaging Products Division

1. Import substitution of spares for IS machines and in hot end.
2. Improvement in operational efficiency.
3. In house repair shop set up resulting in repair cost reduction.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

1. **List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.**

We continued our efforts to focus on the development of products with improved designs for water usage efficiency. For sanitaryware, 93 products have received green pro certification by CII- Green Product and Services Council for excellent water saving. Three of these products certified as green products are as under:

- EWC WM Enigma Integrated Jet
- EWC One pc Flora
- EWC WM Lara

The Faucet division also worked on environmental sustainability & redesigned products which is proved by its 145 products getting certified as green products by CII for excellent water saving.

HSIL is the first and only Company to receive Green Pro Certification for these products categories.

In SWR range, we have added Multi Floor Trap with 50 mm water seal, only product available in market in this category. This product is useful in high-rise buildings.

Also we have introduced UPVC pipe in purple colour for distribution of Recycled (Reclaimed water).

The purpose is to have a separate colour code for the water line which is not used for potable water.

2. **For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):**

› Pipes Business

Unit / kg for Pipes and Fittings production we need below resources

Electricity : 0.62 units kg

Fuel : 0.25 ltrs / Ton of production (standby DG set and for Forklifts)

› Packaging Products Division

Each MT of Glass Production requires the below resources:

Electricity : 406 Units

Fuels : 127 Kgs

- a. **Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?**

› Building Products Division

For sanitaryware manufacturing, our R&D Department is regularly working on substituting raw materials which are near to plant locations. Plants have started reusing large part of process

rejection which results in lesser consumption of fresh inputs to save upon the input cost and also achieving environment protection.

For faucets more and more numbers of local vendors are being developed for components. Value engineering projects are also taken up to reduce input cost.

R&D Department in faucets plant is working on a project whereby reuse of some process waste will be possible.

› Pipes Business

In CPVC extrusion we have done in-house modification in the die head resulted into improved productivity by 10%.

› Packaging Products Division

Reduction of Raw material cost by developing local and alternative vendors, and value savings through import substitution for machine parts and reduction of packaging cost by redesigning and optimisation.

b. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

› Building Products Division

Sanitaryware: Each product when used in toilet saves around 65,000 liters of water per family (Average Family of 4 people) per year.

Faucets: Each product when used saves around 50,575 liters of water per family (Average family of 4 people) per year.

› Pipes Business

We have optimised pipe loading by telescoping loading which has improved truck load ability.

› Packaging Products Division

Fuel consumption for transporting lower volume of glass saved by reducing the bottle weight by 15% to 20% on certain specific segments. Installation of effluent treatment plant, reducing water usage and reuse of water and ensuring zero liquid discharge.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has proper procedures in place for sustainable sourcing. It has long term understanding with most of its critical vendors and has made efforts to increase in house sourcing of quartz sand. It has also sourced indigenously, some of its imported components and raw materials. Vendor audit validation and assessment of their capability for

sustainable supply is part of vendor development process.

Our basic raw materials namely, CPVC, PVC and additives constitute 60% of the total inputs which are procured from sustainable sources including transportation. About 20% of our raw material constitutes, items like brass, O rings & other consumables. Another 10% constitutes trading items namely, adhesives, solvents, ball vales, end plugs & metal clamps which are also largely obtained from sources that are sustainable. The remainder 10% includes packing material like woven sacks, cartons, plastic covers, tapes etc.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

› Building Products Division

Sanitaryware: Most of our mineral raw materials are procured from the nearest areas to the manufacturing locations and these vendors are SMEs. Officials from our R&D team regularly visit the mines of our vendors to guide them for improving quality, reducing process wastages & for reuse of water used in washing. They also guide them in setting up test labs for carrying out tests at mine heads.

Faucet: For faucet manufacturing, many components are procured from small vendors located near the plant. Plant also reduced transportation cost due to reduction of distance from the nearby vendors. Our design team continuously helps small vendors in developing dies & tools so that their manufacturing process become more efficient there by making them competitive.

One of the packing materials which is paddy straw is procured from farmers and card board boxes are also procured from the local vendors.

› Pipes Business

We have developed a few local suppliers for items like packing material, trading items like end plugs & metal clamps by sensitizing them to our specific requirements and helping them to design the products to suit our specifications.

› Packaging Products Division

Except Soda Ash which is imported, all the raw materials (glass cullet, quartz sand, all card board packaging materials) are sourced from local suppliers. The fuels are sourced from the local suppliers both PSUs and private suppliers. Effort is being made to source the regular inputs and services from the local producers. The Company works with the local suppliers to increase their capability and productivity.

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

› **Building Products Division**

- (i) For sanitaryware manufacturing, large part of such rejection is used by regrinding. In faucet plant, there is no wastage of metal as metal rejections are remelted & used.
- (ii) Further, in the faucet manufacturing process multiple re-use of packing material in various stages of manufacturing has been introduced to reduce wastage of packing material.

› **Pipes Business**

- i. Waste generated while processing is almost 100% recycled by regrinding and reprocessing. Negligible quantity goes as waste.
- ii. Waste water generated in the factory is 100% recycled using STP.
- iii. We have installed VFD's for cooling tower fans. Speed of the fan is controlled based on the water temperature. Resulted in at least 10% reduction in cooling tower water consumption and power consumption.

› **Packaging Products Division**

- i. Waste generated from glass bottle production (Rejections) during the manufacturing cycle is 100% reused which is >10%.

ii. ESP (Electrostatic Precipitator) is being used to remove Sox and particulate matter from chimney flue gas. Waste collected through ESP plant is reused as raw material.

iii. Effluents are treated and recycled, >10%.

iv. Effluent treatment plant has been made operational thereby reducing water usage and reuse of water and ensuring zero liquid discharge > 10%.

Accordingly, carrying out any customer survey is not applicable to the Company as on 31 March 2020.

Independent Auditor's Report

To the Members of
HSIL Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the standalone financial statements of **HSIL Limited** ("the Company"), which comprise the Balance sheet as at 31st March 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its Profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER

Attention is drawn to:

- (i) Note no. 53 regarding the utilisation of the Business Reconstruction Reserve ('BRR') to the extent of ₹ 1,400.02 lakhs which was created in accordance with a scheme of arrangement (the scheme) approved by Hon'ble High Court of Calcutta. During the year the Company has impaired goodwill related to a Business undertaking amounting to ₹ 1,400.02 lakhs and charged the same as exceptional item to statement of statement of Profit and Loss of that year, and withdrawn equivalent amount from BRR.
- (ii) Note no. 58 regarding COVID-19 related lock-down/restrictions, where management could perform year end physical verification of inventories at certain locations subsequent and near to year end. However, we could not been able to physically observe the verification of inventories that was carried out by the Management. Consequently, we have performed alternate procedures to audit the existence of Inventory as per the guidance provided by in SA 501 "Audit Evidence – Specific Considerations for Selected Items" and have obtained sufficient audit evidence to issue our unmodified opinion on these Financial Statements.

Further opinion of the management on the carrying value of assets and liabilities and COVID-19 impact on the operation as stated in the said note.

Our opinion is not modified in respect of the above matters.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Description of Key Audit Matter	How our audit addressed the key audit matter
<p>Goodwill impairment assessment (as described in note no.5 of the financial statements)</p> <p>The Company had recognised goodwill on merger of Garden Polymers (P) Ltd (GPPL) in earlier year. Subsequent to adoption of Ind AS it was subject to impairment testing.</p> <p>In line with requirements of Ind AS-36 an impairment assessment being performed on yearly basis and the company has recognised impairment loss of ₹ 1,400.02 lakhs in financial year 2019-20 charged to BRR.</p> <p>(Refer note no. 5 to the financial statements)</p>	<p>Our response to the audit risk</p> <p>We evaluated the process by which management prepared its cash flow forecast and compared them against the latest Board approved plans and management approved forecasts. We evaluated the historical accuracy of the plans and forecasts. These procedures enabled us to determine the accuracy of the forecasting process and apply appropriate sensitivities to the cash flows.</p> <p>We assessed the appropriateness of independent valuer's / management adopted discount rates, future cash flows and long-term growth rates, specifically focusing on the CGUs identified opposite. We benchmarked assumptions against industry.</p> <p>Based upon our assessments described above, we challenged management on the appropriateness of its sensitivity calculations by applying our own sensitivity analysis to the forecast cash flows, long-term growth rates and discount rates to ascertain the extent to which reasonable adverse changes would, either individually or in aggregate, require an impairment of either the goodwill or indefinite life assets.</p> <p>Reviewing the appropriateness of discount rate through the use of our valuations specialists; We determined whether impairment charge were required, based on the results of our work has been made. Management has described the key sensitivities applied in the 'Goodwill and other intangible assets' note to the Financial Statements in note no. 5</p> <p>Based on independent valuation report impairment loss of ₹ 1,400.02 lakhs has been provided during the current year.</p>
Valuation of Financial Instruments	
<p>Valuation of financial instruments-Investments (held at fair value)</p> <p>The company has investment in unlisted equity shares ₹ 1,165.48 lakhs (PY ₹1,999.49 lakhs) of APGPCL. The investment was made for specific purpose to meet certain criteria for power purchase. The said investment is measured at Fair Value through Other Comprehensive Income.</p> <p>We have considered the valuation of financial instruments as key audit matter considering complexities and financial impact involved over financial statements.</p>	<p>Our audit procedures includes:</p> <p>Control testing:</p> <ul style="list-style-type: none"> We tested the design and operating effectiveness of key Controls. Controls over the validation, completeness, implementation and usage of valuation models. <p>Independent reperformance:</p> <ul style="list-style-type: none"> Our own valuation specialists independently challenged management on the valuations where they were found outside our expected range. <p>Methodology choice:</p> <ul style="list-style-type: none"> We evaluated the company management's sensitivity analysis around the key assumptions, to ascertain the extent of change in those assumptions that would be required for the investment to be impaired. In the context of observed industry practice, our own valuation specialists assisted us in challenging the appropriateness of significant models and methodologies used by an independent valuer in calculating fair values, risk exposures, completeness of risk factors, and in calculating FVAs.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate

Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider

whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- › Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- › Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- › Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- › Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- › Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial

statements of the financial year ended 31st March 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

OTHER MATTER

- l) As stated in Note no. 55 of financial statements, figures for the year ended 31st March 2019 are restated audited figures after giving impact of the scheme approved by the Hon'ble NCLT Kolkata Bench on 26th June 2019 and effective from 1st April 2018 which has been approved by Board of Directors. The restated financial statements for the year ended 31st March 2019 are to be adopted by the shareholders.

Our opinion on above matters are not modified.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss (including the Statement of Other Comprehensive Income), Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;

- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the other matter to be included in the Auditors' report under Section 197(16), as amended:

In our opinion and according to the information and explanation given to us, the managerial remuneration paid/provided during the current year by the Company is in accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note no. 47 to the financial statements;
 - ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure – A to the Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the HSIL Limited on the standalone financial statements for the year ended 31st March 2020, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets, by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. As per the programme, certain fixed assets were physically verified during the year and no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company as at Balance Sheet date. (read with Note No. 4(6) of financial statements).
- (ii) As per the information and explanation given to us, the inventories of the Company (except stock lying with the third parties and goods in transit), have been physically verified by the management at reasonable intervals during the year. The discrepancies noticed on such physical verification of inventory as compared to book records were not material.
- (iii) According to the records and information and explanation made available to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act'), hence other parts of this clause are not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans, investments, guarantees and security.
- (v) The Company has not accepted any deposits from the public within the meaning of Section 73 to 76 of the Act and relevant rules, hence, we do not offer any comment on the same. Further, we have been informed that no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal in this regard.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products and services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.

Annexure B to the Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of HSIL Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company

has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

1. CORPORATE INFORMATION

HSIL Limited (the 'Company') is a public limited company incorporated in India. The registered office of the Company is situated in Kolkata and the corporate office is in Gurugram. The Company is into the business of manufacturing and selling of Sanitary ware, faucets and pipes under Building products segment and Container Glass bottles, PET bottles and security caps and closure under Packaging products segment. The Company's shares are listed on the National Stock Exchange of India Limited and BSE Limited.

2. APPLICATION OF NEW AND REVISED INDIAN ACCOUNTING STANDARD ("IND AS")

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorised have been considered in preparing these financial statements.

2.1 Recent accounting pronouncements

A. Application of New Accounting Pronouncements

The Company applied for the first-time amendments to the following standards from 1 April 2019.

i) Ind AS 116, Leases

Effective 1 April, 2019, the Company has adopted Ind AS 116 "Leases" and applied to its Lease contracts existing on April 1, 2019, using the modified retrospective method (simplified approach). On transition date i.e. 1 April 2019, the Company has recognised Right of Use Assets (ROU) and equivalent lease liability (adjusted by the amount of previously recognised prepayments relating to that lease). Accordingly, the comparatives for the year ended 31 March, 2019 have not been retrospectively adjusted.

ii) Appendix C to Ind AS 12, Uncertainty over Income Tax Treatments:

The Company has evaluated the effect of this amendment on the financial statements and concluded that there is no significant impact.

iii) Amendment to Ind AS 12, Income Taxes:

The amendment clarifies that an entity shall recognise income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

It is relevant to note that the amendment does not amend situations where the entity pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12. Further, Dividend Distribution Tax (DDT) is not applicable with effect from 1 April, 2020, hence Income tax consequences related to DDT no more payable by the Company from financial year 2020-21.

iv) Amendment to Ind AS 23, Borrowing Costs:

The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. The Company's existing policy is in line with these amendments and there is no effect on its Financial Statements.

B. Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. Till the date of approval of this financial statements there is no such notification which is made applicable from 1 April, 2020.

3. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

3.1 Statement of compliance with Indian Accounting Standards (Ind AS)

The financial statements of the Company have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accordingly, the financial statements for the year ended 31 March 2020 are prepared complying applicable Ind AS.

The financial statement of HSIL Limited as at and for the year ended 31st March, 2020 (including comparative) were approved and authorised for issue by the Board of Directors on 10 June 2020.

3.2 Historical cost convention

These financial statements have been prepared on a historical cost convention except where certain financial assets and liabilities have been measured at fair value.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

3.3 Business combinations

Business combinations involving entities under common control are accounted for using the pooling of interest's method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

3.4 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses.

3.5 Revenue recognition

Revenue from contracts with customers is recognised on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. Revenue is recognised net of sales reductions such as discounts and sales incentives granted. This variable consideration is estimated based on the expected value of outflow.

Sale of products:

Revenue from the sale of products is recognised when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods.

Sales-related warranties associated with the goods are integral to sales price and cannot be purchased separately, hence they serve as an assurance that the products sold comply with agreed-upon specifications. Accordingly, the Company accounts for warranties in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Rendering of services:

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligation for the services rendered.

Interest and dividends

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividends are recognised at the time the right to receive payment is established

3.6 Leases

The Company has adopted Ind AS 116-Leases w.e.f. 1 April, 2019, using the modified retrospective method (simplified approach). The Company has applied the standard to its lease contracts existing on the date of initial application (1 April, 2019). The Company recorded the lease liability at the present value of the future lease payments as on initial application date of standard i.e. 1 April 2019 and Right of Use Assets (ROU) with corresponding amount. Accordingly, previous period information has not been restated and no adjustment in retained earning has been made.

The Company's lease asset classes primarily consist of leases for Land and Buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

3.7 Foreign currency transactions and translations

Initial recognition

The Company's financial statements are presented in INR, which is also the Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the

closing rate are recognised as income or expenses in the period in which they arise.

3.8 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale.

All other borrowing costs are expensed in the period in which they are incurred and reported in finance cost.

3.9 Government grants

The Company received refundable government loans at below market rate of interest which are accounted in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments. The benefit of below- market rate of interest is measured as the difference between the initial carrying value of loan determined in accordance with Ind AS 109 and the proceeds received. It is recognised as income when there is reasonable assurance that the Company will comply with all necessary conditions attached to the loans. Income from such benefit is recognised on a systematic basis over the period of the loan during which the Company recognises interest expense corresponding to such loans.

The Company is entitled to subsidies from government in respect of certain government schemes.

Income from subsidies is recognised on reasonable assurance and a systematic basis over the periods in which the related costs that are intended to be compensated by such subsidies are recognised.

3.10 Employee benefits

Employee benefits include provident fund, pension fund, gratuity and compensated absences.

Defined contribution plans

The Company's contribution to provident fund and pension fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees. The Company has no legal or constructive obligation to pay contribution in addition to its fixed contribution. The interest rate payable to the members of the trust shall not be lower than the statutory rate of interest declared by

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

the Central Government under Employees Provident Fund and Misc. Provisions Act, 1952 and short fall, if any, shall be made good by the Company.

In respect of certain employee's contributions are made to a trust administrated by the Company/employees.

Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using 'the Projected Unit Credit method', with actuarial valuations being carried out at each Balance Sheet date. Re-measurements, comprising of actuarial gains and losses are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are allowed to be carried forward over a period in excess of 12 months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date out of which the obligations are expected to be settled.

3.11 Taxation

Tax expense recognised in the statement of profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognises MAT Credit as an asset, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement".

The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. The MAT Credit Entitlement is disclosed under the head 'Deferred tax liabilities (net)'.

Deferred tax

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future opening results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although Ind AS 12, Income Taxes, specifies limited exemptions.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in the statement of profit or loss, except

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

3.12 Operating cycle

Based on the nature of products/activities of the Company and the normal time between purchase of raw materials and their realisation in cash or cash equivalents, the Company has determined its operation cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.13 Operating expenses

Operating expenses are recognised in statement of profit or loss upon utilisation of the service or as incurred. Expenditure for warranties is recognised when the Company incurs an obligation, which is usually when the related goods are sold.

3.14 (a) Property, plant and equipment

Freehold land is carried at historical cost except for certain class of land which had been revalued in financial year 2009-10 and 2011-12. All other items of Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Property, plant and equipment are stated at their original cost including freight, duties, taxes and other incidental expenses relating to acquisition and installation.

The carrying amount of assets, including those assets that are not yet available for use, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, recoverable amount of asset is determined. An impairment loss is recognised in the statement of profit and loss whenever the carrying amount of an asset exceeds its recoverable amount. An impairment loss is reversed only to the extent that the carrying amount of asset does not exceed the net book value that would have been determined if no impairment loss had been recognised.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises the new part and is depreciated accordingly. Further, when major overhauling/ repair are performed, the cost associated with this

is capitalised, if the recognition criteria are satisfied, and is then depreciated over the remaining useful life of asset or over the period of next overhauling due, whichever is earlier. All other repair and maintenance costs are recognised in the statement of profit and loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Intangible assets

Intangibles are stated at cost less accumulated amortisation and impairment losses (if any). Cost related to technical assistance for new projects are capitalised.

(c) Capital work-in-progress

Expenditure incurred during the period of construction, including all direct and indirect expenses, incidental and related to construction, is carried forward and on completion, the costs are allocated to the respective property, plant and equipment. Capital work-in-progress includes capital inventory.

3.15 Depreciation and amortisation

Depreciation is charged on a pro-rata basis on the straight line method at rates prescribed in Schedule II to the Companies Act, 2013 and is charged to the statement of profit and loss. Freehold land is not depreciated.

The estimated useful life of the items of property, plant and equipment are as follows:

Asset class	Useful life
Property, plant and equipment	
Plant and machinery	7.5-25 years*
Buildings	10-60 years
Furniture and fixtures	10 years
Office equipment	5 years
Computer	3-6 years
Vehicles	8 years**
Intangible assets	
Technical know-how	10 years
Software	6 years

* Furnaces, part of the glass plant of the Company, includes in plant and machinery, are depreciated over a life of 6.5 years which is different from life prescribed in Schedule II of the Act, based on independent chartered engineer certificate.

** Vehicles are being depreciated using written down value method as per life of 8 years mentioned in Schedule II of the Act.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

3.16 Impairment of property, plant and equipment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

3.17 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and demand deposits, together with other short-term, highly liquid investments maturing within 90 days from the date of acquisition. Cash and cash equivalent are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

3.18 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.19 Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Costs of inventories are determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

3.20 Provisions and contingencies

A provision is recognised in the financial statements where there exists a present obligation as a result of a past event, the amount of which can be reliably estimated, and it is probable that an

outflow of resources would be necessitated in order to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes unless the outflow of resources is considered to be remote. Contingent assets are neither recognised nor disclosed in the financial statements.

3.21 Equity, reserves and dividend payments

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Retained earnings include current and prior period retained profits. All transactions with owners of the Company are recorded separately within equity.

Dividend distribution payable to equity shareholders are included in other liabilities when the dividends have been approved in a general meeting prior to the reporting date.

3.22 Earnings per share

Basic earnings or loss per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings or loss per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.23 Fair value measurement

The Company measures financial instruments such as investments in mutual funds, investment in certain equity shares etc. at fair value at each balance sheet date.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- › Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- › Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- › Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.24 Financial instruments

I. Financial assets

a. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset, which are not at fair value through profit and loss, are added to fair value on initial recognition. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss.

b. Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model

whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

c. Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its assets measured at amortised cost and assets measured at fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 41 details how the Company determines whether there has been a significant increase in credit risk.

d. Derecognition of financial assets

A financial asset is derecognised when:

- › The Company has transferred the right to receive cash flows from the financial assets or
- › Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity transfers the financial asset, it evaluates the extent to which it retains the risk and rewards of the ownership of the financial assets. If the entity transfers substantially all the risks and rewards of ownership of the financial asset, the entity shall derecognise the financial asset and recognise separately as assets or liabilities any rights and obligations created or retained in the transfer. If the entity retains substantially all the risks and rewards of ownership of the financial asset, the entity shall continue to recognise the financial asset.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of the ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial assets. Where the Company retains control of the financial assets, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

II. Financial liabilities

a. Initial recognition and subsequent measurement

All financial liabilities are recognised initially at fair value and in case of borrowings and payables, net of directly attributable cost.

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Changes in the amortised value of liability are recorded as finance cost.

III. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may vary from actual realisation on future date.

IV. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.25 Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps. Further details of derivative financial instruments are disclosed in Note 42.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

3.26 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Estimation of defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(ii) Estimation of current tax and deferred tax

Management judgment is required for the calculation of provision for income - taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome

Significant Accounting Policies and Other Explanatory Information to the Financial Statements

for the year ended 31 March 2020

which could lead to adjustment to the amounts reported in the financial statements.

(iii) Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain property, plant and equipment.

(iv) Impairment of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(v) Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date (refer note 42).

(vi) Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating

unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

3.27 Assets Held for Sale:

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all the following criteria are met:

- (i) decision has been made to sell,
- (ii) the assets are available for immediate sale in its present condition,
- (iii) the assets are being actively marketed and
- (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as 'held for sale' are measured at the lower of its carrying value and fair value less costs to sell.

Non-current assets held for sale are not depreciated or amortised.

NOTE 5 - GOODWILL

(₹ in lakh)

Particulars	As at 31 March 2020	As at 31 March 2019
Gross carrying value	1,073.02	2,473.04

Reconciliation of the carrying amount of goodwill at the beginning and end of the reporting period

(₹ in lakh)

Goodwill	Amount
Balance as at 1 April 2018	2,694.22
Impairment for the year	221.18
Balance as at 31 March 2019	2,473.04
Impairment for the year	1,400.02
Balance as at 31 March 2020	1,073.02

Allocation of goodwill to cash generating units:

For the purpose of impairment testing, goodwill is allocated to the Garden Polymer of Packaging Product Division which represents the lowest level within the Company at which the goodwill is monitored for internal management purposes, which is not higher than the Company's operating segments.

The Company tests goodwill annually for impairment, or more frequently if there are indications that goodwill might be impaired.

The recoverable amounts of the cash generating units ("CGU") is determined from value in use calculation. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates and expected changes to selling prices and direct costs during the period. These assumptions have been determined in light of the economic environment which has resulted in more conservative estimates about the future. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGU. (A reduction in the availability of credit has led to an increase in the cost of capital and therefore, the discount rate applied to future cash flows has increased.) Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

The Company has conducted a sensitivity analysis on the impairment test of CGU carrying value. Change in the discount rate and growth rate by +/- 1% points would not impact in carrying value of goodwill (with other factors remains constant).

Value in use has been determined by discounting the future cash flows generated from the continuing use of the unit. The calculation of the value in use is based on the following key assumptions :

Particulars	As at 31 March 2020	As at 31 March 2019
Discount rate	13.0%	16.5%
Terminal value of growth rate	5%	5%

The estimated recoverable amount of goodwill related to unit Garden Polymer of Packaging Product Division was lower than the carrying amount at year end, consequently the company provided for impairment loss of ₹ 1400.02 lakh (Previous Year ₹ 221.18 lakh)

NOTE - 41 FINANCIAL INSTRUMENTS AND RISK REVIEW

Capital management

The Company manages its capital to be able to continue as a going concern while maximising the returns to shareholders through optimisation of the debt and equity balance. The capital structure consists of debt which includes the borrowings as disclosed in note 21 and 26 net of cash and cash equivalents as disclosed in note 14 and equity attributable to equity holders of the Company, comprising issued share capital, reserves and retained earnings as disclosed in the statement of changes in equity. For the purpose of calculating gearing ratio, debt is defined as non current and current borrowings (excluding derivatives). Equity includes all capital and reserves of the Company attributable to equity holders of the Company. The Company is not subject to externally imposed capital requirements. The Board reviews the capital structure and cost of capital on an annual basis but has not set specific targets for gearing ratios. The risks associated with each class of capital are also considered as part of the risk reviews presented to the Audit Committee and the Board of Directors.

Before accepting any new customer, the Company uses an internal credit system to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. There is a customer who represent more than 10 per cent of total net revenue from operations during the year.

The Company does not hold any collateral or other credit enhancements over any of its trade receivables nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

Expected credit loss :

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%)

Financial guarantee

The Company has not given any financial guarantee.

Liquidity risk:

Liquidity risk reflects the risk that the Company will have insufficient resources to meet its financial liabilities as they fall due.

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure that it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities so that it does not breach borrowing limits.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet date to the contractual maturity date and, where applicable, their effective interest rates.

VI. Sensitivity analysis

(₹ in lakh)

Particulars	31 March 2020		31 March 2019	
	Change in assumption	Effect on gratuity obligation	Change in assumption	Effect on gratuity obligation
Discount rate	0.50%	(110.47)	0.50%	(81.12)
	-0.50%	120.22	-0.50%	87.90
Expected rate of increase in compensation level	0.50%	117.08	0.50%	86.27
	-0.50%	(108.59)	-0.50%	(80.51)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the balance sheet.

VII. Experience adjustments :

	Year ended				
	2019-20	2018-19	2017-18	2016-17	2015-16
1. Defined benefit obligation	2,311.48	1,851.76	2,157.84	1,968.57	1,796.49
2. Fair value of plan assets	1,801.41	1,685.08	2,032.75	1,889.66	1,625.38
3. Surplus/(deficit)	(510.07)	(166.68)	(125.09)	(78.91)	(171.11)
4. Experience adjustment on plan liabilities gain/(loss)	(48.01)	(95.92)	104.39	(36.17)	(46.99)

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes into account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

NOTES:

1. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("Act") setting out material facts on special business under item. nos. 4 to 10, is annexed hereto.
2. In view of the current circumstances due to pandemic caused by COVID-19 prevailing in the country, requiring social distancing, and pursuant to General Circulars Nos. 14/2020, 17/2020 and 20/2020 dated 8 April 2020, 13 April 2020 and 5 May 2020 respectively issued by Ministry of Corporate Affairs ("MCA Circulars") and Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12 May 2020 issued by Securities and Exchange Board of India ("SEBI Circular"), the 60th Annual General Meeting ("AGM") of the Company is being conducted through VC/OAVM, which does not require the physical presence of members at a common venue. The deemed venue for the AGM shall be the Registered Office of the Company.
3. Pursuant to MCA Circulars, since the AGM is conducted through VC/OAVM, where physical presence of members has been dispensed with, there is no requirement of appointment of Proxies. Accordingly, the facility of appointment of proxies under Section 105 of the Companies Act, 2013 is not available for this AGM. However, in pursuance of Section 112 and 113 of the Act, representatives of the Members may be appointed for the purpose of voting through remote e-voting for participation and voting in the AGM through VC/OAVM.
4. Members attending the AGM through VC / OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
5. M/s. Lodha & Co., Chartered Accountants, Firm Registration No. 301051E, were appointed as Statutory Auditors of the Company from conclusion of 57th Annual General Meeting till conclusion of 62nd Annual General Meeting of the Company, subject to ratification at every Annual General Meeting of the Company at such remuneration as may be mutually agreed between the Board of Directors of the Company and the Auditors. The Ministry of Corporate Affairs (MCA) vide its circular dated 7 May 2018 notified various sections of The Companies (Amendment) Act, 2017, thereby modifying Section 139 of the Act. Accordingly the requirement for ratification of appointment of Statutory Auditors by the shareholders at every Annual General Meeting has been omitted, hence no such resolution is proposed at this Annual General Meeting.
6. A copy of the financial statements of the Company for the financial year ended 31 March 2020 together with the Auditors' and Directors' Reports thereon are enclosed.
7. The Register of Members and the Share Transfer Books of the Company will remain closed from Friday, 11 September 2020 to Saturday, 19 September 2020 (both days inclusive). Dividend on Equity Shares, if declared at the meeting, will be paid to those shareholders whose names appear on the Company's Register of Members on Friday, 11 September 2020 and in respect of shares held in the dematerialised form, dividend will be paid to the beneficial owners as per details furnished by the Depositories for this purpose as on close of business hours of Thursday, 10 September 2020. The dividend, if declared, shall be paid by Tuesday, 29 September 2020.
8. Dividend, if declared, at the Annual General Meeting will be credited to the Bank account of respective Shareholders through National Electronic Clearing Service (NECS) / Electronic Clearing Service (ECS) where such facility is available. Members holding shares in electronic mode are therefore requested to furnish their Bank particulars in which they wish to receive dividend, through their Depository Participants (DPs). Members holding shares in physical form and desirous of availing the NECS / ECS facility, are requested to update their Bank particulars by sending it to the Company's Registrar and Share Transfer Agent, M/s. Maheshwari Datamatics Private Limited, directly for instant credit of dividend and other cash entitlements.

Shareholders of the Company are informed that pursuant to the provisions of Section 124(5) of the Companies Act, 2013, the amount of dividend which remains unpaid/ unclaimed for a period of 7 consecutive years is required to be transferred to the 'Investor Education & Protection Fund' (IEPF) constituted by the Central Government. Accordingly, unpaid/unclaimed dividend upto the year 2011-2012 has been transferred to IEPF.

Shareholders who have not encashed their dividend warrant(s) for the year from 2012-2013 to 2018-2019 are requested to make claim with the Company immediately. Dividend declared by the Company for the financial year 2012-2013, remain unpaid/unclaimed is due for transfer on or after 4 November 2020 to IEPF. A statement containing names, last known addresses and unpaid dividend of such shareholders is available on the website of the Company i.e. www.hsilgroup.com.

Shareholders whose amount has been transferred to IEPF as above may claim refund from IEPF in accordance with provisions of the Act and rules made thereunder.

Further, pursuant to the provisions of Section 124 of the Act and the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended, all shares in respect of which dividend has not been paid or claimed by the Shareholders for seven consecutive years, the Company is required to transfer such Equity Shares of the Shareholders to the Demat Account of the IEPF. The Company has sent a communication to all

Shareholders concerned and had also published a Notice in the leading Newspaper both in English and Vernacular paper, with respect to the formalities and process of such transfers. Accordingly, the Company has transferred 30,309 equity shares of ₹ 2/- each to IEPF in respect of the Shareholders whose dividend was not encashed for seven consecutive years from 2011-2012, data of which are available on the website of the Company. Similarly, the Company will transfer such shares to Demat account of IEPF Authority on which dividend for 2012-2013 will remain unencashed for seven consecutive years, as per the guidelines issued by the concerned authority(ies) from time to time.

9. Members holding shares in physical form and desirous of making a nomination or cancellation/variation in nomination already made in respect of their shareholding in the Company, as permitted under Section 72 of the Act, are requested to submit the prescribed Form No. SH.13 to the Registrar and Share Transfer Agent of the Company for nomination and Form No. SH.14 for cancellation/ variation as the case may be. Shareholders holding shares in demat form are also advised to avail nomination facility by submitting the prescribed form to their respective Depository Participants (DPs).
10. As a part of 'Green Initiative', Members who have not yet registered their email addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with the RTA in case the shares are held by them in physical form.
11. Members of the Company who have multiple folios in identical name(s) are requested to apply for consolidation of such folio(s) and send the relevant Share Certificates to the Company's Registrar and Share Transfer Agent ("RTA") viz. M/s. Maheshwari Datamatics Private Limited, 23, R. N. Mukherjee Road, 5th Floor, Kolkata -700 001, for necessary endorsement thereon.
12. In compliance with the MCA Circulars and SEBI Circular, Notice of the AGM along with the Annual Report for the FY 2019-20 are being sent only through electronic mode to those Members whose email addresses are registered with the Company/ Depositories. Members may note that the Notice and Annual Report for the FY 2019-20 are also available on the Company's website i.e. www.hsilgroup.com, websites of National Stock Exchange of India Limited and BSE Limited and on the website of CDSL i.e. www.evotingindia.com.
13. Securities and Exchange Board of India ("SEBI") has made it mandatory for all companies to use the bank account details furnished by the Depositories and the bank account details maintained by the RTA of the Company for payment of dividend to Members electronically. The Company is continuing to extend the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s)

through ECS/ NECS/Real Time Gross Settlement (RTGS)/Direct Credit, etc.

As directed by SEBI, the Members holding shares in physical form are requested to submit particulars of their bank account alongwith the original cancelled cheque bearing the name of the Member to RTA/Company to update their Bank Account details for online payment of dividend as being declared by the Company.

Members holding shares in demat form are requested to update their Bank Account details with their respective Depository Participant. The Company or RTA cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participants of the Members. Further instructions, if any, already given by them in respect of shares held in physical form will not be automatically applicable to shares held in the electronic mode.

Pursuant to Finance Act, 2020, dividend income will be taxable in the hands of shareholders w.e.f. 1 April 2020 and the Company is required to deduct income tax at source from dividend paid to Shareholders at the prescribed rates. For the prescribed rates for various categories, the Shareholders are requested to refer to the Finance Act, 2020 and amendments thereof. The Shareholders are requested to update their PAN with the Company/ RTA (in case of shares held in physical mode) by clicking on <http://mdpl.in/form/pan-update> and depositories (in case of shares held in demat mode) on or before Thursday, 10 September 2020. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at applicable rates as mentioned in Finance Act, 2020.

14. No request for effecting transfer of shares in physical form is being processed w.e.f. 1 April 2019, in terms of Press Release No. 49/2018 dated 3 December 2018 of SEBI except in case of transmission, transposition of shares subject to necessary compliances.
15. Keeping in view the current pandemic situation, in the event the Company is unable to pay the dividend to any Member directly in his bank account through Electronic Clearing Service or any other means, due to non-registration of the Electronic Bank Mandate, the Company shall dispatch the dividend warrant/ Bankers' cheque/ DD to such Member, at the earliest once the normalcy is restored.
16. As required under Regulations 26(4) and 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India, the relevant information in respect of Directors seeking appointment/re-appointment at the Annual General

Meeting is provided herein below and forms a part of this Notice.

Memorandum of Interest

None of the Directors or Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolution set out under item no. 4 of the accompanying Notice of 60th Annual General Meeting of the Company except Dr. Rajendra Kumar Somany, Mr. Sandip Somany and Ms. Sumita Somany being relatives of each other.

Inspection of Documents

The draft of the proposed Agreement to be entered into between the Company and Dr. Rajendra Kumar Somany is available for inspection by the Members of the Company on the Company's website i.e. www.hsilgroup.com. The Board recommends the Resolution under item no. 4 of the accompanying notice for approval of the Shareholders of the Company.

Item Nos. 5 to 7

Pursuant to the recommendation of Nomination and Remuneration Committee, the Board of Directors, by passing the resolution by circulation, approved the appointment of Mr. Anil Wadhwa ("Mr. Wadhwa"), Ms. Himalyani Gupta ("Ms. Gupta") and Mr. Rakesh Sarin ("Mr. Sarin") as Additional Directors w.e.f. 18 March 2020 to hold office of Independent Directors pursuant to the provisions of Section 161 of the Companies Act, 2013 and Articles of Association of the Company, who shall hold office upto the date of this Annual General Meeting and are eligible to be appointed as Directors of the Company.

The Company has received declarations from Mr. Wadhwa, Ms. Gupta and Mr. Sarin confirming that they meet the criteria of independence under the Act and Listing Regulations. Further, the Company has also received their consent to act as Directors in terms of section 152 of the Act and declaration that they are not disqualified from being appointed as Directors in terms of Section 164 of the Act. The Company has also received notice in writing under the provisions of Section 160 of the Companies Act, 2013, from members proposing their candidature for the office of Director.

In the opinion of the Board of Directors, Mr. Wadhwa, Ms. Gupta and Mr. Sarin fulfil the conditions specified in the Act and Listing Regulations for their appointment as Independent Directors of the Company and are independent of the Management.
