**Sub.: HPCL and Oil India Limited enter into Strategic Memorandum of Understanding at India Energy Week 2026 to develop Compressed Bio-Gas project**

Dear Sirs,

Pursuant to the requirements of Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (SEBI LODR), we wish to inform that Hindustan Petroleum Corporation Limited (HPCL) and Oil India Limited (OIL) have signed a Memorandum of Understanding (MoU) at India Energy Week (IEW) 2026 to collaborate on the development of a Compressed Bio-Gas (CBG) project. The MoU provides a framework for joint efforts aimed at promoting cleaner and more sustainable energy solutions.

As part of the collaboration, OIL will implement a CBG plant using HPCL's indigenously developed HP RAMP technology. HPCL will provide the requisite technology to enable efficient conversion of waste into compressed bio-gas, while OIL will leverage its operational capabilities for project implementation.

The MoU highlights the commitment of both public sector undertakings to clean energy and waste-to-energy initiatives. It aligns with India's energy transition objectives by supporting a circular economy, reducing carbon emissions, and strengthening the domestic bio-energy ecosystem through indigenous technological solutions.

This is for your information and records.

Thanking you,

Very truly yours,

**Rakesh Kumar Singh**  
Company Secretary
