Commenting on the results and performance, Mr. Santosh Raveshia, Managing Director, DOMS Industries Limited said:

“Our results for this quarter reflect our consistent execution and a balanced approach to growth. Our quarterly year-on-year consolidated sales growth of 18.2% was primarily led by sustained performance in categories like Scholastic Art Material, Office Supplies, Kits & Combos and Hobby & Craft segment. Our baby hygiene business also delivered healthy growth, driven by winter demand for diapers and enhanced capacity as compared to last year. The nine-month consolidated growth stands at 22.7%, in line with our internal expectations, reflecting resilience across product segments and disciplined execution of our strategic priorities.

Geographically, the steady revenue growth was supported by favourable demand in domestic market across all our product categories. Despite the challenges in the US markets due to imposition of higher tariffs, our export business has showcased positive results with a modest increase, primarily driven by increase in demand for DOMS branded products across key geographies and positive impact of FILA distribution agreement.

Over the nine months period year to date, our EBITDA and PAT moderated slightly, primarily due to full consolidation impact of Uniclean Healthcare as well as the reduction in other income primarily due to utilization of cash towards capital expenditure. However, overall profitability remained within our guided range. Core businesses continued to demonstrate healthy volume growth and stable margins, underscoring the strength of our portfolio and the effectiveness of our disciplined execution framework.

Looking ahead, we remain focused on commencement of operations from our 44-acre expansion project. While unseasonal rains during the latter half of the previous calendar year caused minor delays in construction activity, significant progress has since been made, and completion of the initial buildings is now expected in Q1'FY27 and commercial production anticipated to commence during Q2'FY27. In parallel, additional capital investments in new capacity additions in our existing infrastructure as well as modernization of some of our processes are expected to bolster our operational efficiency and support sustained growth. We remain confident in the strength of our business fundamentals and optimistic about the opportunities ahead as we continue to innovate, strengthen our position, increase our capacities and deliver sustainable value to our stakeholders."
