This presentation may contain forward-looking statements, which are not historical facts but relate to future expectations, projections, objectives, or strategies of the Company. Such statements are inherently subject to various risks, uncertainties, and assumptions—many of which are beyond the Company’s control—and actual results may differ materially. Factors that could cause such differences include, but are not limited to, changes in applicable laws and regulations, implementation risks, economic and political developments (domestic and international), market volatility, monetary and fiscal policy shifts, and other unforeseen events including natural disasters or geopolitical disruptions. These statements reflect management’s views as of the date of this presentation, based on information currently available and assumptions considered reasonable at that time. However, no assurance can be given as to their accuracy or validity. The Company undertakes no obligation to revise or update any forward-looking statements, except as required by applicable law.

Chairperson's comments on Q3 FY26 performance

Mrs. Girija Subramanian, CMD

"I am pleased to announce our financial results for the period ended December 31, 2025. Our Global Gross Written Premium for the nine-month period grew by 10.5%. Notably, our Domestic Gross Direct Premium growth significantly outpaced the industry average, resulting in our market share improving to 13.4%, compared to 12.8% in the corresponding previous year.

Regarding profitability, while the incurred claim ratio for the nine-month period was elevated due to multiple catastrophic (CAT) losses in the first half of the year, we saw an improvement in the third quarter. The Q3FY26 incurred claim ratio stood at 90.77%, a significant improvement over the 94.49% reported in Q3FY25.

In January 2026, following the Central Government's approval of wage revisions for Public Sector General Insurance Companies, the company recognized provisions of approximately ₹2,500 Cr toward wage arrears and retirement benefits. While this had a substantial impact on the Combined Operating Ratio, it was partially offset by robust investment income from our equity portfolio. Despite these one-time costs, the company reported stellar Profit Before Tax (PBT) growth of 62% for the nine-month period and an exceptional 215% for the quarter.

The Company continues to have a very strong Balance Sheet which reflects overall improvements in Net Worth, General Reserves as well as sustaining a healthy Solvency Ratio of 1.81 times which is well above the regulatory requirement of 1.50 times.

Guided by ongoing government reforms, I remain highly optimistic about the prospects of the general insurance industry. We expect to maintain this momentum and deliver improved performance in the coming quarter."
