Successful completion of merger and commencement of listing & trading of equity shares on Bombay Stock Exchange (BSE)

Ahmedabad, 30th July, 2025 — Axis Solutions Limited (formerly known as Asya Infosoft Limited), a leading provider of industrial automation and digital infrastructure solutions, is pleased to announce the successful completion of its merger and the subsequent listing and commencement of trading of its equity shares on the Bombay Stock Exchange (BSE). The Company is now trading under Scrip Code 511144 and ISIN INE520G01024.

This milestone marks a significant chapter in the company's journey, representing the culmination of a successfully implemented resolution plan and the subsequent listing of equity shares on the Bombay Stock Exchange. It underscores Axis Solutions Limited's strategic transformation and reaffirms its commitment to long-term value creation for stakeholders.

Dr. Bijal Sanghvi commented in honour of the occasion, saying

"The Commencement of Listing & Trading on the BSE makes a significant milestone in our strategic transformation and marks the start of a focused journey toward expansion and innovation. With our established expertise in industrial automation, we are strategically positioned to create meaningful impact across three high-growth sectors — oil & gas, water infrastructure, and digitalisation. *These verticals are vital to India's industrial and sustainability goals, and we are committed to enabling smarter, safer, and more sustainable operations through technology-driven solutions.* This listing not only enhances our visibility in the capital markets but also strengthens investor engagement as we pursue our vision for accelerated growth in both domestic and international markets."

Axis Solutions remains committed to provide value by integrating advanced automation technologies, domain expertise, and a people-centric approach to business.

About Axis Solutions Limited:

Axis Solutions Limited is a market leader as a diversified solution provider for a comprehensive range of Systems and Products, from complex measurement and analytical technology to automation, control, communication, and IoT products and systems. The company has an in-house R&D department that strives to develop world-class innovative solutions to cope with the demands and challenges of designing systems and products for hazardous locations.
