Wipro earthian Awards 2025 Felicitate Excellence in Sustainability Education

BENGALURU, India – Jan. 31, 2026: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading AI-powered technology services and consulting company, today hosted the 15th edition of the Wipro earthian Awards 2025 at Azim Premji University, Bengaluru. The annual program promotes integrated sustainability education and recognizes schools and colleges across India that demonstrate meaningful and enduring engagement with sustainable practices and principles.

The 2025 [Wipro earthian](#) program saw over 2,000 submissions, with an independent jury selecting 25 winning teams. The projects showcased fresh insight into biodiversity, waste, and water, combining hands-on activities with reflective written work.

Anurag Behar, Chief Executive Officer, Azim Premji Foundation, and Narayan P. S., Global Head of Sustainability and Societal Initiatives, Wipro Limited, and Managing Trustee, Wipro Foundation, presented certificates and cash prizes to the winning teams.

“The strength of the Wipro earthian program lies in grounding sustainability in lived reality, helping students understand water stress through nearby lakes and rivers, biodiversity through neighborhood species, and waste through everyday community practices,” said **Narayan P.S.** “Across regions and schools, students have moved well beyond awareness to sustained engagement, approaching real environmental challenges with curiosity, rigor, and empathy. Their work reflects a deep understanding of sustainability as a shared responsibility. At a time when global crises can feel distant or overwhelming, it reinforces an essential principle that meaningful care for the planet begins at home.”

This year, 24 sustainability educators from 14 regional non-governmental organizations (NGOs), part of the Wipro Sustainability Educators Network (SEN), collaborated closely with local communities to lead activities such as nature camps, library sessions, and winter and summer sustainability schools. In addition, over 100 schools were recognized by the Wipro Foundation at events conducted by the NGOs, enabling deep, localized learning and building student awareness of real-world environmental challenges.

Wipro earthian also supports sustainability in higher education through the ‘Ideas to Impact (i2I)’ challenge, run in collaboration with IIT Madras since 2023. The contest encourages students to validate and develop eco-innovative ideas into workable prototypes that deepen understanding and promote action toward ecological sustainability. Since launch, i2I has seen national participation of 2,700 entries from over 1,300 colleges, with 10 teams being recognized this year for innovations in Energy, Building Materials, and Water.

Since its inception in 2011, Wipro earthian has engaged with more than 51,000 schools, 210,000 students, and 41,000 teachers. Its impact has grown through collaborations with partners such as CEE (Centre for Environment Education), CPREEC (C.P.R. Environmental Education Centre), Wild Ecologues, IIT Madras, IIM Bangalore, state governments, and educators in the Sustainability Educators Network.

The full list of winners for Wipro earthian Awards 2025 is available [here](#).

The earthian Awards reflects Wipro's commitment to progress fueled by purpose, translating its sustainability focus into consistent, on-ground engagement with communities. Through such initiatives, Wipro aims to drive long-term impact by building awareness and action on critical environmental challenges.

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading AI-powered technology services and consulting company focused on building innovative solutions that address clients' most complex digital transformation needs. Leveraging our consulting-led approach and the Wipro Intelligence™ unified suite of AI-powered platforms, solutions and transformative offerings, we help clients realize their boldest ambitions to build intelligent and sustainable businesses. The Wipro Innovation Network – part of the Wipro Intelligence™ suite – underpins our commitment to client-centric co-innovation and co-creation by bringing together capabilities from the innovation labs and partner labs, academia, and global tech communities.
