JAN FAR INFLOWS TOP ₹12K CR High yields, RBI support key drivers, but interest weak

Foreign Money Still Flowing into Bonds

Rozebud Gonsalves

Mumbai: Indian bonds eligible under the fully accessible route (FAR) attracted inflows of ₹12,160 crore in January, according to CCIL data. This comes at a time when foreign investors have been steadily pulling out money from Indian equities.

Economists said elevated Indian bond yields have offered an attractive entry point for foreign portfolio investors coupled with expectations of liquidity support through open market operations and a slower pace of rupee depreciation this year, which aided demand.

However, active foreign interest in Indian debt remains subdued, and experts do not expect sizeable inflows into FAR securities over the course of the year. An outlook on the currency and its depreciation trend would be a key consideration for global fund managers when deciding which markets to invest in.

“The board story is that flows remain weak. Volatility and outlook for the currency are key part of the decisions of any global fund manager who is allocating funds. To that extent, the rupee is still volatile and is underperforming. You require a period of stability here and some outlook on when this sharp depreciation is going to stop for fund managers to actively consider India,” said Abhishek Upadhyay, senior economist, fixed income strategy, at ICICI Securities Primary Dealership.

“The rupee, which has weakened 7% in this fiscal year, closed at a

record low of 91.98 to the dollar on Friday. Consistently high GDP and nominal GDP would also be major triggers, along with any positive outcome on the US-India trade deal, experts say.

“While difficult to say, going ahead, FPIs would be on the lookout for triggers to enter India during the course of this year, and consistently good real GDP growth and an improvement in nominal GDP numbers will be important. Any positive developments on the India-US trade deal will also be an important trigger,” said Dhiraj Nim, economist and FX strategist at ANZ Banking Group.

Nim expects the rupee to be at 93/\$1 by December 2026. “Given low inflation and less likelihood of further easing by the RBI, real yield advantage for India could be playing out, amid a rebound in growth,” Nim said.

Flows in January were the second-highest recorded in the current fiscal year, trailing closely behind those seen in October.

Forex Kitty at New Record

Mumbai: India’s foreign exchange reserves rose to \$709 billion, a new all-time high, mainly due to valuation gains on gold holdings, showed Reserve Bank of India data for the week ended January 23. The reserves had previously hit a record high of \$704.9 billion in September 2024.

The value of gold holdings increased by \$5.6 billion week-on-week to \$123 billion, while foreign currency assets rose by \$2.3 billion to \$562 billion, the RBI data showed.

“The increase in forex reserves by \$8 billion on a week-on-week basis is due to revaluation gains

led by gold and dollar weakness,” said Gaura Sengupta, chief economist at IDFC First Bank.

The rise in reserves came despite the RBI selling dollars in

\$709 B

INDIA'S FOREX RESERVES FOR THE WEEK ENDED JAN 23

the market, with the impact of the sell-off counterbalanced by a sharp rise in gold prices.

The current reserve level is adequate to cover about 11 months of imports. — Our Bureau

Exports, Premium Bikes Take Bajaj Auto Profit up 19% in Q3

Profit rises to ₹2,503 cr from ₹2,109 cr a year ago as revenue from operations rises 19%

Our Bureau

New Delhi: Bajaj Auto Friday reported a 19% rise in fiscal third quarter consolidated net profit helped by robust exports and higher sales of premium motorcycles in the domestic market. Profit in the three months ended December 31 increased to ₹2,502.8 crore from ₹2,108.7 crore a year earlier. Most brokerages had projected the Pune-based two- and three-wheeler maker to post double-digit growth in revenue and profit in the December quarter, attributing it to robust export demand, favourable currency movements, and steady recovery in premium motorcycle volumes. Revenue from operations climbed 19% year-on-year (YoY) to ₹15,220.3 crore thanks to record quarterly vehicle sales and a richer product mix. Sales volume grew in double

digits across businesses spanning domestic motorcycles, electric two-wheelers, three-wheelers, and exports, supported by buoyant festive demand and GST-led momentum in the domestic market. Bajaj Auto also clocked highest-ever quarterly sales of electric vehicles during the period. Exports crossed the 600,000-unit mark last quarter, for the first time in 15 quarters, signalling a sustained recovery in overseas markets. The commercial vehicle segment reported record retail sales of more than 100,000 units for the tenth consecutive quarter. Rakesh Sharma, executive director at Bajaj Auto said he expects the demand momentum to continue in the local market over the next few months. "From what we have seen of consumer demand in De-

cember and January, demand should be good next few months," he said. "We expect the sales spike post GST cut will continue as long as inflation remains under control." Exports too are expected to remain healthy going forward. Sharma said while Mexico is among the top three markets for the company, Bajaj Auto has a local partner in the Latin American country, and therefore, remains unaffected by the increase in import duties on Indian shipments. Bajaj Auto has limited exposure in South Africa, which too is considering raising levies on imports. Earnings before interest, tax, depreciation and amortisation (Ebitda) rose by 22% to a quarterly high of ₹3,161 crore. Ebitda margin stood at 20.8% during the December quarter.

Ambuja Cements Reports 86% Drop in Q3 Net Profit

Mumbai: The Adani group-owned Ambuja Cement's consolidated net profit slumped more than 86% on-year in the December quarter, weighed down by higher expenses, even as volume growth lifted consolidated revenue from operations for the quarter. The cement producer had a consolidated net profit of ₹366.97 crore for the quarter on consolidated revenue of ₹1,180.52 crore. Total expenses for the period rose to ₹9,941.46 crore from ₹8,373.17 crore a year ago. The comparable quarter previous year had an excise duty exemption, interest on income tax and the reversal of an income tax provision. The December quarter in the current fiscal, meanwhile, had an impact of the new Labour Codes, a Chhatargarh Infrastructure Development and Environment Cess and a deposit provided for sales tax. Adjusted for all these factors, consolidated profit stood at ₹378 crore in the December quarter, against ₹106 crore in the year-ago quarter; Ambuja Cements said in its investor presentation. Ambuja Cements sold 18.9 million tonnes of cement in the December quarter, up from 16.2 million tonnes a year ago. It made an Ebitda of ₹718 per tonne of cement sold, down from ₹1,059 a year ago.—Our Bureau

Cred Revenue Up 16% to ₹2,735 cr in FY25

Our Bureau

Mumbai: Fintech startup Cred has reported a consolidated operating revenue of ₹2,735 crore for FY25, up 16% year-on-year, as higher product adoption improved monetisation and helped reduce losses. Operating loss narrowed by 51% y-o-y to ₹298 crore, while total loss declined by 11.5% to ₹1,457 crore during the year; the Bengaluru-based company said in a statement on Friday. Cred, founded in 2018 by Kunal Shah, was initially known for its credit card bill payment platform, but has since expanded into a range of financial services. It now offers unsecured personal loans, secured lending products such as loans against mutual funds, and vehicle insurance through its Garage platform. Cred's monthly transacting users during the fiscal rose by 14.5% to 1.26 crore, while transaction frequency increased by 34% to 14.4 transactions per user per month.—Our Bureau

Jindal Steel Net Slumps 80% on Higher Expenses

Mumbai: Jindal Steel's consolidated profit for the December quarter fell by more than 80% year-on-year to ₹188.58 crore, weighed down by higher expenses, even as the company's sales volumes increased marginally. The company on Friday said it sold 2.28 million tonnes of steel in the three months to end of December compared with 1.90 million tonnes a year ago. The average prices of rebar steel were significantly lower as compared with the year-ago quarter. The company's third-quarter consolidated revenue increased to ₹15,225.74 crore from ₹13,749.84 crore a year ago, while total expenses increased to ₹12,638.01 crore from ₹10,577.71 crore. The share of value-added steel was at 66% during the quarter. Adjusted for forex, the company's consolidated earnings before interest, tax, depreciation and amortisation during the quarter stood at ₹1,593 crore, down from ₹2,133 crore a year ago.—Our Bureau

Nestle Q3 Net Profit Rises 45% to ₹998 cr

New Delhi: Packaged foods maker Nestle India reported a 45% year-on-year increase in consolidated net profit at ₹998 crore for the quarter ended December, driven by volume-led growth and operating leverage. The Indian unit of the Swiss Nestle SA said in an exchange filing on Friday that its revenue from operations stood at ₹5,667 crore in the quarter, up 19% over the year-ago quarter, on the back of increased demand for its mainstay brands Maggi instant noodles, Nescafe coffee and KitKat chocolates, as tax cuts aided consumer spending. Other listed companies that have so far declared their quarter earnings, too, have called out improved numbers following GST cuts in the quarter. Nestle chairman Manish Tiwary said in a statement that the company reported highest-ever quarterly turnover and the strongest volume growth in nearly five years in the quarter.—Our Bureau

INDIA - EU FREE TRADE AGREEMENT

PDEXCIL Extends its Sincere Thanks & Gratitude to Hon'ble Prime Minister, Shri Narendra Modi ji for his visionary Leadership in achieving the Landmark Trade Agreement with EU.

India-EU FTA will boost Exports of Powerloom Textile Sector and Generate Investment & Employment Opportunities.

India-EU FTA will:

- Provide duty-free access for powerloom textile sector in the EU
- Increase exports of powerloom textile sector from India to the EU
- Generate more employment in the Indian textile industry particularly for women and the MSME sector, strengthening inclusive and sustainable growth
- Support MSMEs and simplify customs and trade procedures
- Encourage investment, innovation and joint venture

Shri K. Sakthivel, Chairman, PDEXCIL, the Committee of Administration and the entire powerloom textile industry thank the Ministry of Commerce & Industry and Ministry of Textiles, 'Govt. of India' for signing of the 'India-EU FTA'.
