Tata Steel, JSW Steel post better than expected Q4 numbers

SHUBHRA TANDON
Mumbai, May 29

IMPROVED DEMAND helped higher price realisation helped Tata domestic steel majors post better than expected earnings for the three months of January-March 2018. A pick-up in volume in automobiles, particularly commercial vehicles, and impetus on infrastructure and construction is driving steel demand in the domestic market.

Tata Steel managing director TV Narendran said at the company's post-earnings presentation that the consumption of steel in the country witnessed growth of 8-9% against January-March 2017 against January-March last year. It has not been seen in India in a long time.

"We have seen a pick-up in demand in India from the automotive sector, which in some sense is a bellwether indicator for economic activity, particularly commercial vehicles. Infrastructure push is also translating into increase in steel demand," Narendran said.
