Primed for growth

Quick Pointers:

- Highest ever sequential revenue growth of 8.9% CC; demand momentum is strong, broad-based and sustainable over next 3 years.
- Highest ever net headcount addition of 4084, +11% QoQ; total headcount is up 31% YoY.

LTI reported massive beat on revenue at \$509 mn, +8.9% QoQ CC, +8.3% QoQ USD (Ple: 5.5%, Cons: 3.5%). Growth was broad-based across verticals, geographies and service lines. Historically H2 has been seasonally strong and same trend is expected to continue in H2FY22. LTI won one new large deal in Europe with TCV of \$30mn for 5 years. Management mentioned that deal pipeline is robust with number of large deals. Growth is constrained only by supply and without supply constraints LTI would have grown at much higher rate given extremely strong, secular and sustainable demand environment.

EBIT Margins came at 17.2%, +80 bps QoQ & -266 bps YoY (Ple: 17.3%, Cons: 16.9%). Offshore effort mix has consistently increased for last several quarters and it is now at 83.6%, aiding margins amidst supply side cost pressures. Net headcount addition of 4084, +11% QoQ was highest ever in LTI's history. With strong net addition in last few quarters total headcount is up 31% YoY. LTM attrition has increased to 19.6% (+440 bps QoQ). LTI has increased fresher hiring target to 5,500 and target hiring 4000 resources with 1-2 years' experience in FY22.

Our EPS estimates increase by 4.4%/4.8%/6.6% for FY22/23/24E led by increase in revenue growth estimates. We arrive at DCF based TP of INR 6,710 (implied target multiple of 37x P/E on FY24 EPS). LTI is currently trading at 37.9x/33.0x earnings multiple on EPS of 156.0/178.8 for FY22/23E with Revenue/EPS CAGR of 17.2%/18.3% over FY22-24E. LTI continues to remain one of our preferred pick in midcap IT space.

- Massive beat on revenue:** LTI reported massive beat of 320bps & 520bps on our and cons revenue estimates. Revenues came at \$509 mn, +8.3% QoQ USD, 8.9% QoQ CC much above our & cons estimates (Ple: 5.5%, Cons: 3.5%). Growth was broad-based across verticals, geographies and service lines.
- BFS continues to report strong growth (32.5% of revs, 9.6% QoQ USD):** BFS has grown at 9% CQGR for last 5 quarters. Spends in BFSI continue to shift from operations to modernization. **Insurance** (14.2% of revs, 5.6% QoQ USD) vertical which had subdued growth in FY21 has seen growth pickup since Q1 with new leadership driving opportunities. Management mentioned that there is lot of scope for growth in insurance segment.

Demand is robust, secular and sustainable. Growth momentum is constrained by supply rather than demand.

- **Strong pipeline in manufacturing (15.6% of revs, 12.4% QoQ USD):** Manufacturing has grown at strong rate post decline in Q1 due to lower pass through revenues. LTI has strong pipeline in this segment driven by demand from capital goods and industrial manufacturing. **E&U** (8.9% of revs, 6.3% QoQ) reported strong growth, potentially due to ramp up of large deals announced in 3Q21. Traction in Utilities is strong while Oil & Gas continued to be volatile.
- **Growth was soft in Retail & CPG (10.7% of revs, 4.1% QoQ USD)** but demand momentum continues to be strong in data, cloud, security and ERP projects. Growth is expected to pick-up in 2HFY22. **HiTech & Media** (12.5% of revs, 6.9% QoQ USD) and **Others** (6.2% of revs, 14.2% QoQ USD) also reported strong growth.
- In terms of **Services lines**, growth was led by Analytics, AI & cognitive (+11.9% QoQ USD), Enterprise Integration & Mobility (+16.2% QoQ USD), ADM and Testing (+8.7% QoQ USD) and Enterprise Solutions (+7.2% QoQ USD). Growth was soft in Cloud Infrastructure and security (+1.9% QoQ USD). Only infrastructure part of cloud is reported in this segment; whereas cloud continues to be demand driver growing higher than company average.
- **Strong sustainable demand tailwinds:** LTI won 12 deals in 2Q22 and added 25 new logos this quarter. It won one new client in Europe with TCv of \$30mn for 5 years. Management mentioned that technology **demand is secular in nature driven by -1) emergence of new business models and increased discretionary spends driving once in a century transformation, 2) New spend areas such as ESG, cyber security etc., and 3) Clients are facing employee shortage and attrition rates similar to that experienced by IT industry which is driving demand for automation.**
- **Growth robust across top accounts:** Growth was strong across Top 5 (8.3% QoQ USD) accounts and Top 10-20 accounts (+11.4% QoQ USD), while it was moderate in Top 6-10 (+3.3% QoQ USD).
- **Margins increased sequentially:** EBIT Margins came at 17.2%, +80 bps QoQ & -266 bps YoY slightly lower than our estimates but higher than consensus estimates (Ple: 17.3%, Cons: 16.9%). Margin walk: 70bps of SG&A leverage was offset by 70bps of margin drop due to utilization. Tailwinds from higher working days and offshore mix was partly offset by higher employee cost. LTI's offshore effort mix has consistently increased for last several quarters and it is now at 83.6% (vs 82.7% in Q1FY22 and 80.6% in Q2FY21).
- **Highest ever headcount addition; attrition trending upwards:** Net headcount addition of 4084, +11% QoQ was highest ever in LTI's history. With strong net addition in last few quarters total headcount is up 31% YoY. LTM attrition has increased to 19.6% (+440 bps QoQ). LTI will continue strong hiring – 1) Fresher intake target increased twice, firstly from 3,000 to 4,500 and then to 5,500 in FY22, 2) targets to hire 4000 resources in 1-2 years' experience bracket and upskill them to shore up supply.
- Net Income 5,517 INR mn, +11.1% QoQ, +20.8% YoY. (Ple: 5,219 mn). **PAT margin is 14.6% within their guidance range of 14-15%.**

- Stable DSO and robust cash flow:** Billed DSO stood at 61 days (vs 60 days in 1Q21). DSO including unbilled stood at 91 days, flat QoQ. OCF/NI was healthy at 91.3%. Board declared dividend of INR 15 per share.
