Margins to Stabilize as Yields Normalize

With over 30 years of specialized knowledge and experience, CAMS stands as India's top and rapidly expanding Qualified Registrar and Transfer Agent (QRTA) for Mutual Funds (MFs).

- Q1FY26 revenue grew by ~7% YoY, driven by Average Assets Under Management (AAUM) growth of 22%. Yield compression of ~9% limited the revenue growth during the quarter. The yield compression was primarily due to repricing by large clients.
- EBITDA increased by a modest ~3% YoY, with margins contracting by 170bps to 43.5%. Adjusted Net Profit growth remained flat.
- AAUM grew 22% YoY to Rs.48.7 Tn in Q1FY26. CAMS retains market leadership with 68% market share. Equity assets surpassed the Rs.25 Tn mark and grew at 24% YoY to Rs.26.7 Tn with sustained inflows despite the volatility in the market.
- New SIP registrations rose by 19% YoY, reaching 11.2 Mn in Q1 FY26. This growth contributed to a 6% increase in market share for the quarter, bringing it to 67%.
- CAMS' unique investor base surpassed 41 Mn during the quarter, marking a 27% YoY growth—outpacing the industry growth rate of 22%.
- CAMS went live with its first international client in the asset management space (Ceybank AMC – Sri Lanka).

Outlook & Valuation

Management anticipates a full-year yield decline of around 9% YoY, with nearly 90% of the repricing already factored into the base. After FY26, the yield contraction is expected to moderate to 3-3.5%, supported by the telescopic pricing effect. The company aims to increase the non-MF revenue share to 20% over the next three years, with profit contribution expected to expand from 15% to 25-30% as loss-making segments (insurance, account aggregator, MF Central) turn profitable. Positioned for its next phase of growth, CAMS is focusing on disciplined cost management, scaling new business verticals, and leveraging key technology investments that are close to completion. **The stock is currently trading at 36x 1-year forward P/E (5-year average: 40x).** We value the company at 39x FY27E EPS, arriving at a target price of Rs. 4,435, and maintain Accumulate rating.

Key Highlights...

- CAMSKRA entered into a definitive agreement for acquiring the KRA business of NSE Data Analytics, adding 1.3 Mn KYC records to its repository. KRA business saw contraction due to lower new account openings in F&O, trading, demat, and mutual funds, impacting the entire industry.
- CAMSPay's proprietary payment gateway infrastructure for cards became operational with Mastercard, RuPay and Visa. This assisted revenue to grow by 26% YoY.
- CAMS Alternatives reinforced its market leadership in Q1FY26 by securing 50 mandates, including 24 new logos—three of which are based in GIFT City. During the quarter, AUM for CAMS-serviced AIFs surpassed Rs. 2.7 trillion.
- CAMSRep's policy base expanded by 41% over the past year, reaching 12 Mn policies, while maintaining a market share of over 40%. Additionally, LIC is expected to go live with einsurance accounts in Q2 FY'26, further strengthening the platform's growth momentum.
- Think360 is building an industry-first AI-powered data and insights platform for a US health-tech platform.
