PRICE PERFORMANCE

Expanding international play

JSW Infra (JSWIL) has announced it has entered into a Share Subscription and Purchase Agreement with Minerals Development Oman, SAOC (MDO) and South Minerals Port Company SAOC, Oman ("Port SPV") to acquire 51% of the total equity share capital of the Port SPV. Port SPV will develop, own, maintain and operate 27 million tonnes per annum (MTPA) capacity port, with a total project capex of USD419mn in Oman, to be commissioned in 1H CY29E.

We are keeping estimates unchanged, pending closure and more clarity. Maintain 'BUY' with an unchanged Dec-26E TP of INR360 with revenue/EBITDA/PAT CAGR of 25%/21%/4% in FY25–28E. At CMP, the stock is trading at 24.8x FY27E EV/EBITDA (18.4x FY28E EV/EBITDA).

Investment snapshot and background

JSW Infra, through its stepdown wholly owned subsidiary, JSW Overseas FZE has entered into a Share Subscription and Purchase Agreement ("SSPA") with Minerals Development Oman, SAOC ("MDO") and South Minerals Port Company SAOC, Oman (a company incorporated in Oman by MDO) ("Port SPV") to acquire 51% of the total equity share capital of the Port SPV. This entity will invest over USD419mn to create 27MTPA port handling capacity and is expected to commission by 1H CY29E.

Oman's strategic location on key global maritime routes along with advanced logistics and proximity to major markets in South Asia, SEA and East Africa makes it a natural hub for mineral exports. With abundant reserves of limestone, gypsum and dolomite —critical inputs for India's steel and cement industries—the country offers immense export potential. The proposed Port will serve as a vital gateway, streamlining bulk mineral exports from MDO's concessions and strengthening supply chain efficiency and regional trade connectivity.

This collaboration is likely to be a strategic milestone in JSW Infra's journey toward achieving capacity of 400MTPA by 2030E, up from 177MTPA now. JSWIL would almost touch 400MTPA of identified port projects (exhibit 1), mostly commissioning by FY29E. Moreover, this helps JSWIL diversify from existing liquid cargo in Middle East with a minerals/bulk terminal. We believe there is reasonably high visibility on cargo.

Step in right direction (almost at finishing line—400MTPA target)

Based on information from company disclosures and press releases, we estimate this would be NPV-positive venture for JSWIL. Sohar Port, a key peer in Oman, may see constrained growth due to challenges including environmental related regulations. This creates an opportunity for continued port-sector M&A to strengthen presence and support JSW Infra's strategic objective of reaching 400MTPA capacity by 2030E.

Maintaining estimates

JSWIL is well positioned to deliver healthy growth and margin expansion as new assets would meaningfully contribute FY28E onwards. We are not baking in this announcement, pending more clarity on financial impact. Retain 'BUY' with unchanged Dec-26E TP of INR360, basis 22x Dec-27E EV/EBITDA.

Exhibit 1: JSWIL – With 27MTPA, JSWIL is close to 400MTPA capacity target

Source: Company (Q2FY26 results presentation)

Company Description

JSWIL is the second-largest private commercial port operator in India in terms of cargo handling capacity with a capacity of 170mtpa (at the end of Jun-24). It is a part of the JSW Group, a multinational conglomerate with an international portfolio of diversified assets across sectors. JSWIL operates ten port concessions in India. It has strategically located ports and terminals on the west and east coast of India. Furthermore, JSWIL has a liquid storage terminal of 465,000 cubic metre (5mtpa) at Fujairah, UAE and also operates two dry bulk terminals under O&M agreements for a cargo handling capability of 41mtpa at Fujairah and Dibba in the UAE.

Investment Rationale

JSWIL has grown from a single port in 2004 to a portfolio of ten-plus ports/terminals domestically and overseas. JSW Infrastructure (JSWIL), part of India's leading conglomerate JSW Group (m-cap USD53bn), is the second-largest private port company in India with a 25% volume CAGR over FY19–24. JSWIL is poised to sustain strong long-term growth on the back of favourable macro tailwinds (4x capacity growth over next 25 years) supported by organic—group cargo growth, particularly JSW Steel—and inorganic growth in the ports and logistics segments.

Key Risks

JSWIL derives significant volume/revenue from its group customers (JSW group companies), and it has said that the prices it charges them are at arm's length, particularly at minor ports (where JSWIL has tariff flexibility). While we appreciate the company's pragmatic approach in balance sheet management, any substantial spend on low-returns profile-oriented ports/terminals (on account of high royalty, long gestation) could hurt its financial and, hence, stock performance.
