Soap recovery to drive revenue & EBITDA

Godrej Consumer Products' (GCPL IN) India business delivered strong performance in Q3, supported by 9% volume growth and margin recovery. Consolidated EBITDA grew in mid-teens. Management expects recovery from FY27 as market conditions normalize. We expect full-year EBITDA growth to be c.8% in FY26E and a favorable base to result in low teens EBITDA growth in FY27E. While growth portfolio (air care, hair care and liquid detergents) remains strong, recovery in soaps and sustained high single-digit growth in household insecticides is critical for double-digit volume growth in India. **We maintain Accumulate** with a higher TP of INR 1,310 (from INR 1,240) on 48x Dec 2027E EPS (earlier 45x) due to recovery in EBITDA growth given reduction in input cost.

Strong volume-led growth: Q3 net sales grew 8.8% YoY to INR 40.9bn (as estimated), led by 7% underlying volume growth (UVG) at the consolidated level. India business delivered 11% sales growth with 9% UVG, aided by strong execution. Within home care, air fresheners and fabric care maintained strong momentum. Household Insecticides (HI) continued to win in the market through superior formulations, gaining share across all four segments. Personal care grew 7% YoY, with soaps recovering on GST reduction and stable commodity prices. Excluding soaps, UVG was in double-digits. Internationally, in constant currency (CC) terms, Indonesia saw 5% UVG but sales declined 3% due to pricing pressures. GAUM grew 8% CC (19% in INR terms), led by hair and air care. Management expects Indonesia revenue growth to recover and GAUM revenue to grow in high single-digit from hereon.

Aspirational double-digit volume growth through portfolio compounding: GCPL is strategically focused on transitioning its India business from the current steady-state 6-7% volume growth to an aspirational double-digit trajectory in the next 18-24 months. This acceleration is expected to be led by high-growth segments such as Air Care, Laundry Liquids, and Incense Sticks achieving critical mass with recovery in soaps being led by improved affordability post-GST reduction and stable commodity prices. Management's strategic roadmap relies on categories with large total addressable markets (TAMs) and long runways; like laundry liquids, air care, toilet cleaners and EDPs (*Eau de Parfum*) in the Perfume segment.

Margin guidance intact with minor moderation: Consolidated EBITDA margins reached 21.6%, with the India business delivering a healthy 24.8% margin. Profitability is being driven by structural advertising cost savings and supply chain initiatives. Management remains confident in maintaining EBITDA margin for India business within the normative annual range of 24-26%. We expect full-year EBITDA growth to be c.8% for FY26E and a favorable base to result in a low teens EBITDA growth for FY27E.

Maintain Accumulate; TP raised to INR 1,310: We broadly maintain our estimates even as we factor in slightly lower EBITDA growth in FY27E and FY28E. We maintain Accumulate with a higher TP of INR 1,310 from INR 1,240, on 48x Dec 2027E P/E (from 45x) as we roll-forward.

Exhibit 3: India business – Both the segments performing well

Category	Q3 revenue growth (%)	Comments
Home care	12	<ul style="list-style-type: none"> The Household Insecticides (HI) segment continues to win through superior RNF-based formulations, with electrics gaining market share and the non-mosquito portfolio delivering solid growth despite severe winter conditions. Incense stick has been the key growth driver in mosquito portfolio of HI. Air Fresheners and Fabric Care maintained robust growth momentum, with Air Care sustaining its market leadership and Fabric Care driving market share gains. The laundry liquid sub-category is emerging as a multi-decade growth driver, currently growing at 30% in volume as it expands its footprint within the total laundry market, while the international scale-up of <i>Aer Pocket</i> has resonated strongly across GAUM (Africa, the USA, and the Middle East) markets. The strategic launch of <i>Godrej Spic</i> in Tamil Nadu is positioned as a differentiated product that prevents stain formation in the ~INR 30bn toilet cleaner category.
Personal care	7	<ul style="list-style-type: none"> Personal Care witnessed a meaningful recovery with 7% growth, driven by a positive trajectory in the Personal Wash business as affordability improved following the GST reduction and commodity prices remained stable. The company successfully completed the <i>Muuchstac</i> acquisition on 10 November to capture the fast-growing ~INR 30bn men's face wash segment. Beyond the base soap business, the company is seeing a long-term compounding effect from premium upgrades into body wash, hand wash, and face wash; these categories are currently growing at 30-40% and are expected to contribute an additional 2-5% growth over the base soap business in the coming years. The Perfumes & Deodorants portfolio maintained a steady performance, highlighted by the explosive growth of <i>Eau de Parfums</i> (EDPs). The strategic acquisition of the <i>Muuchstac</i> brand was successfully completed on 10 November, strengthening GCPL's position in the fast-growing men's face wash segment with operations already live and performing on plan.

Indonesia	4,930	(3)	(3)	22.6	110bp	<ul style="list-style-type: none"> The Indonesia business delivered a stable 5% UVG, led by strong performance in Shampoo Hair Color and Baby Care, with market share gains achieved across all key categories Profitability improved by nearly 100bps over the previous year, with EBITDA growth of 2% driven by strict cost discipline and controls. Early signs of stabilization are emerging, and management expects a meaningful recovery to begin from FY27 as market conditions normalize.
GAUM (the AU, the US and the Middle East)	9210	19	8	14.6	-20bp	<ul style="list-style-type: none"> Performance was spearheaded by Hair Fashion and the rapid scale-up of Air Fresheners. Specifically, the <i>Aer Pocket</i> launch has resonated strongly with consumers and continues to gain traction across these markets. The company intends to deliver high single-digit underlying volume growth in the region, independent of currency fluctuations. The company is also piloting and planning to enter a few new categories over the next 2-3 years to build on its "global right to win".
Others (LATAM and SAARC)	2,490	(5)	7	7.6	-380bp	<ul style="list-style-type: none"> The segment reported an operating EBITDA margin of 7.6%, with EBITDA declining by 36% YoY. Management attributed this performance to temporary macroeconomic and pricing pressures currently impacting the region. Despite the current moderation in full-year EBITDA growth due to these pressures, the company is confident in a robust exit trajectory and expects sustained profitability momentum heading into FY27.
